TO: Grain Valley Board of Aldermen
FROM: David Starbuck, Chief of Police
SUBJECT: Ordinance to Repeal Section 215.295 and Amend 215.290

On January 1, 2017 Missouri Senate Bill 491 took effect, which repealed Missouri Statute 570.080 (Receiving Stolen Property). The crime of Receiving Stolen Property was included as one of the definitions of "Stealing", and is now covered under Missouri Statute 570.030.

The existing Grain Valley Ordinance (Section 215.295 "Receiving Stolen Property), is no longer valid because it no longer conforms to existing state law. City Attorney Jim Cook and I worked to develop the proposed ordinance now being presented for consideration by the Board of Aldermen. Mr. Cook has amended the city ordinance of Stealing (215.290) to include Receiving Stolen Property and to conform to the new Missouri Statute. The proposed ordinance resolution has been placed on the Agenda for the Board of Aldermen meeting of June 12, 2017.

Submitted for your information and review.

Respectfully,

A handwritten signature in blue ink that reads "D Starbuck".

WHEREAS, the Code of Ordinances, City of Grain Valley, MO, should be amended to include such revisions.

NOW THEREFORE, BE IT ORDAINED by the Board of Aldermen of the City of Grain Valley, Missouri as follows:

SECTION 1: AMMENDMENT

Any person who operates a vehicle upon the public highways/streets of this City, shall be deemed to have given consent, subject to the provisions of this sections, to a chemical test or tests of the person's breath, blood, saliva, or urine for the purpose of determining the alcohol or drug content of the person's blood pursuant to the following circumstances:

1. If the person is arrested for any offense arising out of acts which the arresting officer had reasonable grounds to believe were committed while the person was operating a vehicle or a vessel while in an intoxicated condition.
2. If the person is under the age of twenty-one, has been stopped by a law enforcement officer, and the law enforcement officer has reasonable grounds to believe that such person was operating a vehicle with a blood alcohol content of two-hundredths of one percent or more by weight;
3. If the person is under the age of twenty-one, has been stopped by a law enforcement officer, and the law enforcement officer has reasonable grounds to believe that such person has committed a violation of the traffic laws of this City, and such officer has reasonable grounds to believe, after making such stop, that such person has a blood alcohol content of two-hundredths of one percent or greater;
4. If the person is under the age of twenty-one, has been stopped at a sobriety checkpoint or roadblock and the law enforcement officer has reasonable grounds to believe that such person has a blood alcohol content of two-hundredths of one percent or greater; or

The test shall be administered at the direction of the law enforcement officer whenever the person has been stopped, detained, or arrested for any reason.

1. The implied consent to submit to the chemical tests listed shall be limited to not more than two such tests arising from the same stop, detention, arrest, incident or charge.
2. To be considered valid, chemical analysis of the person's breath, blood, saliva, or urine shall be performed, according to methods approved by the state department of health and senior services, by licensed medical personnel or by a person possessing a valid permit issued by the state department of health and senior services for this purpose.
3. The state department of health and senior services shall approve satisfactory techniques, devices, equipment, or methods to be used in the chemical test. The department shall also establish standards to ascertain the qualifications and competence of individuals to conduct such analyses and issue permits which shall

be subject to termination or revocation by the state department of health and senior services.

4. The person tested may have a physician, or a qualified technician, chemist, registered nurse, or other qualified person at the choosing and expense of the person to be tested, administer a test in addition to any administered at the direction of a law enforcement officer. The failure or inability to obtain an additional test by a person shall not preclude the admission of evidence relating to the test taken at the direction of a law enforcement officer.
5. Upon the request of the person who is tested, full information concerning the test shall be made available to such person. Full information is limited to the following:
 - A. The type of test administered and the procedures followed;
 - B. The time of the collection of the blood, breath, or urine sample analyzed;
 - C. The numerical results of the test indicating the alcohol content of the blood and breath and urine;
 - D. The type and status of any permit which was held by the person who performed the test;
 - E. If the test was administered by means of a breath-testing instrument, the date of the most recent maintenance of such instrument.
6. Any person given a chemical test of the person's breath or a field sobriety test may be videotaped during any such test at the direction of the law enforcement officer. Any such video recording made during the chemical test or a field sobriety test shall be admissible as evidence at any trial of such person for a violation of any state law or municipal ordinance and at any license revocation or suspension proceeding.

Section 342.060 Chemical Tests, Results Admitted into Evidence, When Effected Upon.

1. Upon the trial of any person for any criminal offense or violations of municipal ordinances, or in any license suspension or revocation proceeding pursuant to the provisions of this chapter, arising out of acts alleged to have been committed by any person while operating a vehicle, while in an intoxicated condition or with an excessive blood alcohol content, the amount of alcohol in the person's blood at the time of the act, as shown by any chemical analysis of the person's blood, breath, saliva, or urine, is admissible in evidence and shall not prevent the admissibility or introduction of such evidence if otherwise admissible.
2. If a chemical analysis of the defendant's breath, blood, saliva, or urine demonstrates there was eight-hundredths of one percent or more by weight of alcohol in the person's blood or percent by weight of alcohol in the blood shall be based upon grams of alcohol per one hundred milliliters of blood or grams of alcohol per two hundred ten liters of breath. The foregoing provisions of this section shall not be construed as limiting the introduction of any other competent evidence bearing upon the question whether the person was intoxicated. This shall

Chapter 342. Alcohol-Related Traffic Offenses

Section 342.020. Driving While Intoxicated.

[CC 1990 §14-86(b)]

A person commits the offense of driving while intoxicated if he/she operates a motor vehicle in an intoxicated or drugged condition within the City limits.

Section 342.030. Driving With Excessive Blood Alcohol Content.

[CC 1990 §14-86(c); Ord. No. 1439, 10-8-2001]

A person commits the offense of driving with excessive blood alcohol content if he/she operates a motor vehicle in this City with eight-hundredths of one percent (0.08%) or more by weight of alcohol in his/her blood. As used in this Section, percent by weight of alcohol in the blood shall be based upon grams of alcohol per one hundred (100) milliliters of blood and may be shown by chemical analysis of the person's blood, breath, saliva or urine. For the purposes of determining the alcoholic content of a person's blood under this Section, the test shall be conducted in accordance with the provisions of Sections **342.030** through **342.050** of this Chapter.

Section 342.040. Breath Test for Determining Alcoholic or Drug Content of Blood.

[CC 1990 §14-86(d)]

Any person who operates a motor vehicle shall be deemed to have given consent to a chemical test or tests of his/her breath, blood, saliva or urine for the purpose of determining the alcohol or drug content of his/her blood if arrested for any offense arising out of acts which the Arresting Officer had reasonable grounds to believe were committed while the person was driving a motor vehicle while in an intoxicated or drugged condition. The test shall be administered at the direction of the arresting Law Enforcement Officer whenever the person has been arrested for the offense. The implied consent to submit to the chemical tests shall be limited to not more than two (2) such tests arising from the same arrest, incident or charge. Chemical analysis of the person's breath, blood, saliva, or urine shall be performed according to methods approved by the State Division of Health by licensed medical personnel or by a person possessing a valid permit issued by the State Division of Health for this purpose. The State Division of Health shall approve satisfactory techniques, devices, equipment, or methods to be considered valid hereunder and shall establish standards to ascertain the qualifications and competence of individuals to conduct analyses and to issue permits which shall be subject to termination or revocation by the State Division of Health. The person tested may have a physician, or a qualified technician, chemist, registered nurse, or other qualified person of his/her own choosing and at his/her expense administer a test in addition to any administered at the direction of a Law Enforcement Officer. The failure or inability to obtain an additional test by a person shall not preclude the admission of evidence relating to the test taken at the direction of a Law Enforcement Officer. Upon the request of the person who is tested, full information concerning the test shall be made available to him/her.

Section 342.060. Chemical Tests, Results Admitted Into Evidence, When, Effect of Upon.

[CC 1990 §14-86(f); Ord. No. 1439, 10-8-2001]

- A. Upon the trial of any person for violation of any of the provisions of this Chapter or upon the trial of any violations of municipal ordinances arising out of acts alleged to have been committed by any person while driving a motor vehicle while in an intoxicated condition, the amount of alcohol in the person's blood at the time of the act alleged as shown by chemical analysis of the person's blood, breath, saliva or urine is admissible in evidence. Such evidence shall be given the following effect:
If there was eight-hundredths of one percent (0.08%) or more by weight of alcohol in the person's blood, this shall be prima facie evidence that the person was intoxicated at the time the specimen was taken.
- B. Percent by weight of alcohol in the blood shall be based upon grams of alcohol per one hundred (100) milliliters of blood or grams of alcohol per two hundred ten (210) liters of breath. The foregoing provisions of this Section shall not be construed as limiting the introduction of any other competent evidence bearing upon the question whether the person was intoxicated. A chemical analysis of a person's breath, blood, saliva or urine, in order to give rise to the presumption or have the effect provided for in this Section, shall have been performed as provided herein and in accordance with methods and standards approved by the State Department of Health.

Memorandum

To: Rick Arroyo, Director of Community Development; Ryan Hunt, City Administrator
CC: Ken Murphy, Assistant City Administrator
From: Andrew Woltz, Mechanic
Date: 06/14/2017
Re: Mini Excavator Replacement

The current mini excavator has over 2700 hours on it, surpassing the target replacement of 2500 hours. It is time to replace the machine before it has any major repairs, or breaks down in the middle of an emergency repair to a water or sewer line. By replacing at the machine at 2500 hours, it prevents any major repairs, and retains good market value at the end of the target replacement.

Replacement machines from MoDOT Contract were carefully evaluated in field tests to determine the best overall replacement to fit the needs of a mini excavator. Smooth operation, reach of arm, tail swing, breakout force, power, and cab space were all determining factors in choosing a replacement. The best overall machine was the Volvo ECR58D. The new machine will come with two digging buckets, one ditch cleaning bucket, and a hydraulic breaker powerful enough to break out curbs and thick streets as needed for repairs. All the buckets are replacing ones for the current machine, as they will not work on the new machine.

Respectfully Submitted,

Andrew Woltz
