- City Attorney Jim Cook read **Resolution No. R17-40** by title only
- *Alderman Headley moved to accept Resolution No. R17-40 as read*
- *The Motion was Seconded by Alderman Totton*
  - Item was tabled at the November 13<sup>th</sup> meeting so further information could be gathered; commercial establishments and home owners associations were contacted as they would be impacted by this program
  - Mr. Davies shared that a letter had been provide to HOA's and businesses who would be impacted; staff were unable to easily reach the Ryan Meadows HOA but did eventually find a contact; this resolution does not affect private pools
  - Alderman Arnold asked about the nature of the agreement; this is an amendment to a resolution which was passed in 2007 and included food safety and sanitation programs; Alderman Arnold asked if this was a legal agreement; Mr. Davies shared that Jackson County provided this as a courtesy since they are bringing the program to Grain Valley; this amends the agreement
  - Mr. Hunt shared this is a governmental cooperative agreement; Jackson County

has the authority to provide these services within the City limits; Jackson County's ordinance carries authority through the entire county, not just the unincorporated area; cooperative agreements are made so the City is aware of what services are being provided to residents; if Board does not enter into agreement Jackson County will still have the right to perform the inspections and collect the fees

- Alderman Arnold shared concerns about the program being used as revenue generation and doesn't like the inspections as presented; Alderman Arnold felt if a large amount of incidents were occurring and facilities were not being run properly then there would be a need for this; there is personal liability on pool owners and since there has not been an abundance of cases where aquatic facilities have had issues Alderman Arnold didn't feel agencies should be asking for additional paperwork and expenses
- Alderman Totton asked Mr. Cox, Ryan Meadows HOA, if copies of reports are received; Mr. Cox shared reports can be obtained of everything done to the pool; \$5,000 is spent per year to maintain the pool with a professional company
- Mr. Hunt felt the intent of Jackson County was to ensure public safety through monitoring pools that are used as an attraction or commercial draw, similar to need for food handler permits; although currently the City is unaware of any issues with public or commercial swimming pools it should be noted that if someone has gotten sick from a water borne illness questions arise about the steps taken to prevent the illness
- Mr. Deb Sees reminded the Board of previous discussions and paperwork that she provided; report covered water borne illnesses and the pools who were involved with the illness; when something is reported it is likely that five to ten more are sick but don't report it; the ordinance is put in place for public health and safety of citizens in Jackson County; currently Jackson County is one of the only jurisdictions who do not have this program
- Mr. Hunt noted that other counties on both the Kansas and Missouri side have programs like this; Mr. Hunt asked how many pools would be inspected; over 300 pools will be inspected; 4 inspectors will be working during the summer months; County will be providing funds as the amount of the permits won't cover the cost; Mr. Davies clarified that the venue permit is \$150 and the only other fee is the certification for the pool operator; Ms. Sees agreed but noted that many companies are already certified operators
- Alderman Headley reminded all that several municipalities had worked together with the county to remove some of the more burdensome areas of the original

document so that it wasn't overreaching; Mr. Davies shred the initial draft had concerns from Parks and Recreation Departments; employees met to look at concerns and questions that needed to be clarified and Jackson County was willing to meet; Mr. Davies noted that one can't overstress the importance of clean swimming water; a third party overseeing this is a positive thing; the entity knows what they are looking for and what needs to be addressed

- Alderman Coleman asked Ms. Sees how many of the pools are private pools versus municipalities; City owned pools equal approximately 10; majority of pools affected are semi-private or private pools
- Alderman Coleman asked Mr. Davies how many homeowners associations communicated with him; Ms. Sandy Turner spoke with Mr. Davies for Rosewood and Woodbury HOA's; Mr. Davies was not able to talk with anyone from Creekside; Ryan Meadows is present tonight; Alderman Coleman asked for the overall response; response did not lean one way or the other; Ms. Turner was not aware of the discussion but was happy to receive information that could be passed onto the board of the HOA's as well as Elite pools who maintains both of the subdivision pools; Mr. Davies shared that his discussion occurred last Tuesday
- Alderman Coleman still has concerns but can see both sides; Alderman Coleman asked if the illness discussed earlier were from local pools in Grain Valley; Ms. Sees confirmed; Alderman Coleman also recognized Mr. Cox's point of view but did share concerns about safety
- Mayor Todd asked for more details on the inspections; county will schedule a time for the inspections and will accompany the pool company at their regular cleaning time; Ms. Sees has spoken with the pool companies and they do keep the records as they have to keep them for other jurisdictions
- Alderman Bamman asked for clarification on which pools would be required to have lifeguards; lifeguards are now only required at city owned pools; the copy Alderman Bamman is referring to is a draft copy; Alderman Bamman asked if other requirements in the contract have been removed that would have posed a financial penalty to the private pools; Mr. Sees shared that after the first inspection, pools will be given time to become compliant ; this gives HOA's time to budget and gather any equipment needed (first aid is required); Mr. Davies noted that page 35 shows that failure to meet lifeguard requirements would be for municipal pools; Mr. Hunt shared information regarding the different categories of pools
- Alderman West asked if an outside company will do inspections; inspections are in-house and food inspectors will also do pool inspections; 8 inspectors will be

- available; when the pool season starts there will be many inspections to do
- Mr. Cox shared concerns about daily PH logs being taken; currently they are being done 3X a week at his HOA; the HOA pays \$65.00/day for pool service; Ms. Sees noted that pool companies had a plan in place that would be cost effective for HOA's
  - Mayor Todd asked for more information on the impact to HOA fees; fees would have to be raised but the amount is unknown; Ms. Sees shared that a PH meter can be purchased for daily readings without a company; Jackson County is willing to show HOAs how to do this
  - Alderman Headley asked for clarification on whether or not Jackson County can do inspections and charge entities regardless if the resolution passes; Mr. Davies confirmed that Jackson County can do inspections regardless
  - Alderman Headley appreciated the partnership with the City being given the opportunity to engage and work on making the program better before implementation
  - Alderman Headley asked if there was opportunity to modify the process after a year if areas of improvement are identified; Ms. Sees confirmed
  - Alderman Headley confirmed that if the HOAs don't meet compliance then they have 6 months to comply; shared concerns about the potential to double the cost of pool service to the HOAs; Mr. Davies noted that in Woodbury, pools are already cleaned daily which is probably ideal
  - Alderman Headley also had concerns about the HOAs having time to go through the information as they don't meet often; Alderman Arnold felt that the majority are unaware that this is being implemented
  - Alderman Arnold had concerns about pools experiencing a variance on inspection due to weather conditions, etc. and had concerns that many would get a re-inspection for an "off-day"; Ms. Sees shared if a pool is closed because the chemicals are off there is no re-inspection fee charged to reopen; re-inspections that don't cause closure are allowed once without a charge; a second re-inspection brings a re-inspection fee if the problem isn't fixed after discussion on how to fix; Alderman Arnold doesn't agree with charging fees at all and feels this should be covered with taxes
  - Mr. Hunt asked for clarification on the minimum testing standards; operating records requirements mentions testing a minimum of 2x per day; Mr. Hunt asked if this could be spaced to a weekly period based on results; Ms. Sees noted this would need to be assessed as the program progresses
  - Mr. Hunt shared from the staff's perspective, this is good for public health ; pools

that are shut down are for safety which is the purpose of this program; City requires a locking gate and fence for private pools over 36” deep which is even more burdensome; Mr. Hunt recognized what Mr. Cox shared but thinks it’s a great idea to have someone oversee pools so residents aren’t getting ill; staff supports this agreement but the final call is for the Board

- Alderman West asked if all HOAs have a private company to take care of the pool; Ryan Meadows, Rosewood and Woodbury all use Elite; Elite would make sure records are kept for the appropriate time
- Alderman Totton asked for clarification on who doesn’t have to have a lifeguard; any pool over 2,000 feet is recommend to have a lifeguard but only municipalities are required to have a lifeguard; there are three categories Category 1: City pool and lifeguards are required; Category 2 is HOAs and Apartment Complexes, Gyms, etc. and this category is recommended to have a lifeguard; Alderman Totton felt HOAs would want to have a lifeguard; Mr. Cox stated that they couldn’t afford a lifeguard and if this was required they would have to close their pool; Alderman Totton felt children’s safety was important
- Mr. Cox shared that if something were to happen at their private pool and someone got sick, the City and County would have no liability; felt it was unfair to have to pay fees to have someone who is not accepting any liability manage their pool

plan is place for project completion

- Mr. Davies reviewed the parks and recreation projects in the CIP; projects were approved by the Park Board; majority of projects are recreation trails or walkways; master trail plan was adopted in 2008; this document is important when grants are applied for or additional sources of funding are sought
- Mr. Arroyo talked about the downtown phases, James Rollo sewer project, overlay projects, water extension project on Dillingham, and Greystone subdivision road maintenance; this is a fluid document; Buckner-Tarsney water line extension is dependent on development; water tower project is slated in 2022 but this is also dependent on commercial development and population growth; this document is important when filling out grant applications to show a plan is in place
- Alderman Arnold noted that the Planning and Zoning Commission had questions on Eagles Parkway where the road is rough and maybe needs attention; Mr. Arroyo reviewed this area and noted that some areas may need to have de-patching done which extends the project as it is slightly more expensive; intent is to overlay once the potholes and joint separations are taken care of
