ITEM XIII: ORDINANCES

ITEM XIII (A) An Ordinance to Establish the City of Grain Valley, Missouri's Tax Levies for the 2020 Calendar Year for General Municipal Government Operations; The Retirement of General Obligation Debt; Park Maintenance; and Public Health Purposes
B20-20
1ST & 2ND READ

To meet the required timelines for establishing the tax rate within Jackson County, Missouri. The tax generated provides revenues for operating the city and making the debt service payments

ITEM XIII (B) An Ordinance Amending the City Code by Adding Chapter 660 Regarding Mobile Food Units
B20-21
1ST READ

To set regulations and license requirements for mobile food units operating within the city limits

ITEM XIII (C) An Ordinance Accepting Property for Additional Right-of-Way on NW Lindenwood Drive
B20-22
1ST READ

To accept property for additional right-of-way that is needed on Lindenwood Drive

ITEM XIII (D) An Ordinance by the Board of Aldermen of the City of Grain Valley Authorizing the City Administrator to Enter into an Easement Agreement with Habitat-Missouri, LLC for the Conveyance of the Blue Branch Creek, Farmington Meadows Trail Spur Easement to the City
B20-23
1ST READ

To designate the Blue Branch Creek, Farmington Meadows Trail Spur as a City Easement for the purpose of offering a recreational amenity that is accessible to the general public and providing long-term trail improvements and trail maintenance by city staff

ITEM XIII (E) An Ordinance Amending Title III, Traffic Code, Schedule II, Stop Intersections of the Code of Ordinances
B20-24
1ST READ

To add a four way stop intersection at NW Woodbury Drive and NW Pecan Drive

ITEM XIII (F) **An Ordinance Amending Chapter 240, Parks and Recreation, of the Code of Ordinances, in Section 240.160 Section (Merchandising)**
B20-25
1ST READ

To amend Chapter 240, Parks and Recreation, pertaining to the sale of merchandise and services on park property that provides greater detail to the restrictions and who has the authority to waive the park ordinance

ITEM XIII (G) **An Ordinance Amending Section 340.240 of the Municipal Code of Ordinances of the City of Grain Valley, Missouri, Related to Requiring Helmets while Riding Motorcycles and Motor-Tricycles**
B20-26
1ST READ

To update the code of ordinances related to Wearing a Safety Helmet to align with recent changes in state laws

ITEM XIV: RESOLUTIONS

ITEM XIV (A) **A Resolution by the Board of Aldermen of the City of Grain Valley Authorizing the City Administrator to Enter into an Agreement with General Code for a Full Codification Review**
R20-43

To provide a complete review of the Municipal Code

ITEM XIV (B) **A Resolution by the Board of Aldermen of the City of Grain Valley Authorizing the City Administrator to Enter into an Agreement with Neapolitan Labs LLC**
R20-44

To develop, design and deploy an updated website

ITEM XIV (C) **A Resolution by the Board of Aldermen of the City of Grain Valley Authorizing the City Administrator to Sign an Agreement with Brinks, Incorporated as Receipt of a Donated 2009, International 200 Series Truck**
R20-45

To serve as a multi-purpose vehicle for the police department

ITEM XV: CITY ATTORNEY REPORT

- City Attorney

ITEM XVI: CITY ADMINISTRATOR & STAFF REPORTS

- City Administrator Ken Murphy
- Deputy City Administrator Theresa Osenbaugh
- Chief of Police James Beale
- Finance Director Steven Craig
- Parks & Recreation Director Shannon Davies
- Community Development Director Mark Trosen
- City Clerk Jamie Logan

ITEM XVII: BOARD OF ALDERMEN REPORTS & COMMENTS

- Alderman Shea Bass
- Alderman Tom Cleaver
- Alderman Bob Headley
- Alderman Rick Knox
- Alderman Jayci Stratton
- Alderman Nancy Totton

ITEM XVIII: MAYOR REPORT

- Mayor Chuck Johnston

ITEM XIX: EXECUTIVE SESSION

- Legal Actions, Causes of Action of Litigation Pursuant to Section 610.021(1), RSMo. 1998, as Amended
- Leasing, Purchase or Sale of Real Estate Pursuant to Section 610.021(2), RSMo. 1998, as Amended
- Hiring, Firing, Disciplining or Promoting of Employees (personnel issues), Pursuant to Section 610.021(3), RSMo. 1998, as Amended
- Sealed bids and related documents, until the bids are opened; and sealed proposals and related documents to a negotiated contract until a contract is executed, or all proposals are rejected, Pursuant to Section 610.021(12), RSMo. 1998, as Amended

ITEM XI: RESOLUTIONS

Resolution No. R20-40: A Resolution by the Board of Aldermen of the City of Grain Valley, Missouri Adopting the 2020 Employee Handbook

- *Alderman Headley motioned to approve Resolution No. R20-40*
- *The Motion was Seconded by Alderman Totton*
- *Mr. Murphy stated the handbook we were working from was a 2014-2015 version; Littler Law reviewed the handbook for legal updates and other inconsistencies; Highlights and changes included disability insurance, service award program, added Christmas Eve as a holiday, modifications to sick leave modification program, addressed smoking and vaping; this was reviewed by department heads and Littler Law*
- *Resolution No. R20-40 was voted upon with the following voice vote:*
 - *Aye: Bass, Cleaver, Headley, Knox, Stratton, Totton*
 - *Nay: None*
 - *Abstain: None*

-Resolution No. R20-40 Approved: 6-0-

Resolution No. R20-41: A Resolution Authorizing the Offering for Sale of General Obligation Refunding Bonds for the Benefit of the City of Grain Valley, Missouri

- *Alderman Headley motioned to approve Resolution No. R20-41*
- *The Motion was Seconded by Alderman Knox*
 - *Mr. Murphy shared this was the follow up from the last meeting and the Baker Tilly presentation*
 - *Alderman Headley asked if this starts the process of being able to refund; Mr. Ryan-Feldman from Baker Tilly shared this would begin the process*

 - *Nay: None*
 - *Abstain: None*

-Resolution No. R20-41 Approved: 6-0-

Resolution No. R20-42: A Resolution by the Board of Aldermen of the City of Grain Valley, Missouri Authorizing the City Administrator to Enter into an Agreement with Tyler Technologies for the Purchase, Implementation and Training Required for MyCivic Mobile Application, MyCivic 311 Citizen Engagement, and Tyler Technologies Cloud Computing Services (SaaS Flip)

- *Alderman Headley motioned to approve Resolution No. R20-42*
- *The Motion was Seconded by Alderman Totton*
 - *Mr. Murphy stated when we agreed to accept the CARES funding, part of that went to technology funding to include more access to permits, etc. which these softwares would allow that to occur; this should allow more remote access for citizens; COVID reminded the City how much Cloud computing is needed; Alderman Knox asked for clarification on what CARES can be used towards; Mr. Murphy shared there are several categories and basically anything that became a need that was unbudgeted prior to COVID; Alderman Headley asked for clarification on maintenance costs for the 5-year period; The cost shown on this resolution is the up front cost with a similar billing structure going forward*
- *Resolution No. R20-42 was voted upon with the following voice vote:*
 - *Aye: Bass, Cleaver, Headley, Knox, Stratton, Totton*
 - *Nay: None*
 - *Abstain: None*

-Resolution No. R20-42 Approved: 6-0-

ITEM I: CALL TO ORDER

- The Board of Aldermen of the City of Grain Valley, Missouri, met for a Workshop Session on August 31, 2020 at 6:00 p.m. in the Council Chambers located at Grain Valley City Hall
- The meeting was called to order by Mayor Johnston

ITEM II: ROLL CALL

- City Clerk Jamie Logan called roll
- *Present: Bass, Cleaver, Headley, Knox, Stratton, Totton*
- *Absent:*

-QUORUM PRESENT-

ITEM III: DISCUSSION

- **City Facility Needs**
 - City Administrator Murphy provided a recap back to the last workshop and what options were available to meet the current needs of the City
 - He directed the Board to review the needs analysis from the master plan recently completed
 - Since the dollar amount was not supported on the prior project and bond issue, Mr. Murphy asked the Board to share any figures they believe the voters would be supportive of to know how to move forward based on their conversations during the election time as well as if they had heard any thoughts about potentially moving operations apart (City Hall and Police Department) and whether phasing the project more would have been supported
 - Jim Stuffelbeam from Sapp Design and Mike Hewlett with Helix Designs introduced themselves to the new board members and offered to answer any questions that would help the board make the key decisions of the future of the property; they provided a chart with several facility options
 - Mr. Murphy shared they are currently exploring ideas on how to best reach citizens and be able to survey them and receive feedback efficiently and inexpensively
 - Mr. Stuffelbeam walked briefly through the potential options looking at options such as using the existing site and doing a quick renovation, doing a new addition with square footage additions, as well as a few options using the existing building and doing some things at the Farm site; Mr. Helix shared if the Farm was developed, the farm site could be developed more and have future opportunities since not all would be available land would be utilized in the beginning
 - Mayor Johnston said citizens he spoke to would like to focus on the existing

location vs. reviewing the Farm site; he would like a survey to take place quickly to know what they want; then he would like to focus on that

- Alderman Cleaver felt the site wasn't the pushback, but citizens had an issue with the dollar amount that would have been spent
- Mayor Johnston would like the feedback to be received again & for the survey to ask specifically about how much they would want to spend and if they actually want to move or stay at the existing location
- Alderman Totton asked how much the current facility could be worth; Mr. Murphy said they only have estimates on this from prior reviews and Mr. Murphy shared the current buildings would most likely be sold and demolished since the current site is so specialized; Mr. Murphy stated again dollar amount and location are needed to get to the next phase; we need to look at what the needs are of the facilities and not to just band-aid something for now and to make sure to consider what the future needs might be as well
- Alderman Knox shared his citizen feedback has been that the price tag was too high on the initial proposed complex, and they do not want the Police Station at the farm site and that they would like a nicer recreation center
- Alderman Headley likes the idea of owning the farm property for future opportunity; he has heard comments regarding the community center and the voters he's spoken to would like an indoor pool & for a proposed indoor pool to work with the school district; he had not heard any feedback about having the police department at the farm, but shared this could be due to his ward being at the opposite side of town from the proposed future site; He could see making the current site a Police Department in order to keep in the center of town as many requested
- Alderman Stratton agrees that there is no other property available in town to be able to grow to if they were to sell the farm site
- Alderman Headley likes everything (Police and City Hall) in the same building, but wants a good footprint to use
- Mayor Johnston shared he feels we have the space here and land at the current site; He also feels the police department would like to be separate from City Hall; he believes this building could be added onto; Mr. Murphy shared on Facility Options Test 12's drawing, it showed what this could potentially look like
- Alderman Stratton feels if we use this current site, we are eliminating future revenue and if we sell the Farm property, we are extinguishing future opportunities for the City's growth as it would be less desirable from a commercial perspective
- Alderman Knox asked if possible to move City Hall, Rec Center and a pool to the farm and keep the Police Station here; refer to test 16

- Mayor Johnston said he feels the prior pool plan would remove the outdoor pool; Mr. Murphy said it ended up on the past citizen feedback that the citizens would like a pool facility it to be open year-round vs. 2 ½ months
- Mr. Stufflebeam shared when you start renovating and building lots of items, the price would be closer to what the initial master plan would have looked like; phasing would help stretch the costs out
- Mr. Murphy stated if going to the Farm property and only one building were built, the site development would be closer to 1 million and could be closer to the road; if built closer to road with less square footage it would be a cheaper option from what was looked at in the past; Dollar amount and budget are needed to move forward then options can be narrowed down
- Mr. Helix said it is important to reference the comprehensive plan when making decisions that will effect the future
- Alderman Stratton shared our community is used to doing things in phases as the school district does things in that manner; she'd be comfortable doing the master plan in phases
- Alderman Cleaver likes the ideas thrown out and doesn't mind separating the Police station
- Mayor Johnston said they need to know the needs first and not just the budget; Mr. Murphy shared the needs were listed in the Master Plan; Alderman Knox said priority list is needed first; Alderman Stratton would like to free up the current site for future development and move things towards the ball fields
- Alderman Headley asked if we officially lost the library opportunity; currently the library hasn't found another site yet, but they wanted to be next to other properties too and that was what was appealing about building the new facility there; Alderman Stratton shared if we moved to the farm, wouldn't it be more attractive to other businesses to move down there and if things were built at the farm site, there would be room for other things to come on board at a later date
- Alderman Knox thinks a 15 million dollar bond would pass; Mr. Murphy said in the past, the school district phases but each time they are maxing out their capacity; he said they looked at what has been passed before which was the mid-teen range
- Mayor Johnston feels there were too many things people didn't want on the last bond issue
- Alderman Totton feels senior citizens are upset that there aren't senior events right now; that is due to COVID not due to the bond issues/facilities; the City Hall and Police Department issues are Needs and the recreation center is a nice to have; Alderman Knox feels our citizens support our Police Department and now is the time to do this while the support is there

- Alderman Headley asked what is needed next; would the elected officials send in their opinions and go from there, Alderman Knox asked to move forward surveying through water bill; the survey method is difficult to decide on and how to reach the registered voters to get good survey results and to phrase questions to get information related to price, location, etc.
 - Mr. Murphy shared the survey could include something to try and determine why the bond issue was not passed by the voters; was it timing, was it cost, etc.; asked if registered voter list is an appropriate path and if the board was comfortable moving forward with that; Alderman Stratton and Knox felt that was a good indicator of interest
 - Alderman Cleaver feels a 15-20 million range could be passed and Alderman Knox agreed
 - Alderman Headley feels likes 15-25 million with a caveat of the low end could be phased
 - Alderman Stratton was okay with ranges provided, but asked how long the phasing would extend and could be 1-4% cost increase each year we wait and would become a bonding capacity issue and Mr. Murphy shared he thinks it would be 5 years or so before going to the next phase
 - Alderman Totton said she will talk to the seniors about this and said they are upset dealing with the schools every election; she was directed to share her dollar amount she'd be comfortable with and she said 20 million
 - Alderman Bass likes the 15-20 million dollar range and he likes focusing on the police facility needs
 - Mayor Johnston was comfortable with any amount so long as voters are informed of how their taxes would be effected and so long as they still step up road maintenance and will their taxes go down
 - Mr. Murphy said they will work on a survey as the next step and a dollar amount will be helpful to work on that step
 - Mayor feels a lot could be done here for 15 million without the infrastructure costs at the farm
- **Individual Sewer Connection Requirements**
 - Mr. Murphy shared this has been a topic over the last couple of months; There is a short list of properties (12-13 properties) not on city sewer within the city limits; This typically happens by voluntary annexations due to the cost associated to hook up to city sewer/water as sometimes infrastructure is not available; The City Engineer asked in prior discussions if there have been any complaints with smell and if these properties are not causing issues then they could leave it as is; Mr.

Murphy didn't feel too many citizens would be too happy to receive a letter on their door suddenly to hook up to city sewer due to code; shared grandfathering could be an option and update the code to state they can stay that way until certain criteria are met; Other areas handle things in this way such as zoning; Triggers to switch over to the City sewer could be a system failure; There have been discussions if ownership change could be an appropriate time to make the change and it was determined this wouldn't be appropriate time due to the cost associated

- Alderman Headley asked if it was legal to saddle someone with a switchover during a change of ownership when non-conforming; and they aren't attorneys, but didn't feel since non-conforming it could still be treated as it was; Some citizens out there would need to convert at a large price tag depending on their set up at their homes when they aren't currently causing any issues; Alderman Knox asked those on their own septic to receive a letter stating the code and let them know if all working properly then they are okay, but if they had issues going forward they would need to hook up; Mr. Murphy felt this should be added to the code if this is the intent going forward and a letter should go out to those effected at that point; Alderman Headley asked if you have a septic system or pond, what are the odds someone would come to the City for a permit alerting to the change; The code should be very clear as to what maintenance would be or when it would trigger someone to connect; Alderman Cleaver said he agrees with updating the code and sending a letter; Alderman Bass asked if going forward, would the code capture all new annexations and it would be listed in the code

- **Speed Limit Review**

- There was a complaint recently about speeding on a specific road; when the code was reviewed after learning of the 15mph speed limit, a list of roads with a 15 mph speed limit was compiled; Most of these roads were determined the 15 mph was due to tight turns or narrowing roads; The City Engineer reviewed the ordinances relating to the 15 mph roads and some cases some of the roads had reduced speeds because someone requested it and how would this be enforced if usually 25 mph and is it reasonable to be that low; some of these roads it isn't feasible and it doesn't seem there is a special need for a limit that low
- Alderman Headley asked why we didn't update to current standards at 25 mph; Mr. Murphy shared anytime a speed limit is changed, be prepared for pushback; Alderman Bass asked if there were some roads listed with higher traffic flow where that low of a speed limit wouldn't be feasible; the City Engineer didn't think there would be a justifiable reason to be this low at his first glance; Alderman Knox shared many of these have been this way for as long as he can remember and some

of these neighborhoods have a lot of kids; Alderman Totton says many streets have people speeding on them

- Mayor Johnston suggested we could have a sign coming into the city saying 25 mph unless otherwise posted; Alderman Stratton shared she had feedback that the lower the better; Most of these streets are located on the South side of town and these affected are not recent speed limit changes; the board agreed leaving the speed limits as is so long as there are not any complaints

CITY OF GRAIN VALLEY DESTRUCTION CERTIFICATE

The City of Grain Valley follows the rules set by the Missouri Secretary of State's Office. The Missouri Secretary of State's Office oversees document retention in Missouri's political subdivisions in accordance Missouri Revised Statutes Chapter 109, Section 255. According to the Missouri Records Retention Manual published by that office, certain records need only be retained for limited periods of time, at which point they can be destroyed.

Each City department reviewed the manual and provided the City Clerk's office with the list of documents below available for destruction per the Missouri Records Retention Manual.

<u>Retention Schedule Number</u>	<u>Type of Document</u>	<u>Quantity/Series</u>	<u>Department</u>
0001	Accident Report Files	2013, 2014, 2015	Administration
GS012.1	Correspondence-Transitory	2011	Human Resources
GS030	Equal Employment Opportunity (EEO) Reports	2013, 2014	Human Resources
GS032	Employee Benefit Records	2000	Human Resources
GS055	Bid Records	1998	Human Resources
GS056	Insurance Policy Records	1999, 2005 – 2014	Human Resources
GS057	Insurance Claims Files	2012, 2013, 2014, 2015	Administration
GS061	Employment Grievance and Complaint Records	2012	Human Resources
GS062	Employment Recruitment & Selection Records	2017	Human Resources
GS067	Vehicle Ownership and Maintenance Records	2005, 2009, 2010, 2011, 2014, 2015, 2016, 2017	Administration
GS090	Unemployment Insurance Case Files	2014	Human Resources
GS091	Worker's Compensation Case File	2015	Human Resources
GS100	Health Policy Documentation	2011	Human Resources

Approved via Consent Agenda this 14th day of September 2020.

By:

Chuck Johnston
Mayor

Attest:

Jamie Logan
City Clerk

Staff witnessed the destruction of the above records via _____ on this _____ day of _____, 20____ in accordance with the practice outlined by the Secretary of State's office above.

This list serves as the permanent record and be attached to the minutes for this regularly scheduled Board of Aldermen meeting.

Public Hearing

PUBLIC NOTICE

NOTICE OF PUBLIC HEARING TO SET TAX LEVY FOR 2020

A hearing will be held at 7:00 P.M., Monday, September 14, 2020, at the Grain Valley City Hall, located at 711 Main Street, in the City of Grain Valley, Missouri, at which citizens may be heard on the property tax rates proposed to be set by the City of Grain Valley, Missouri. The levy amount is per \$100 of assessed value.

**AN ORDINANCE TO ESTABLISH THE CITY OF GRAIN VALLEY,
MISSOURI'S ANNUAL TAX LEVIES FOR THE 2020 CALENDAR YEAR FOR GENERAL
MUNICIPAL GOVERNMENT OPERATIONS; THE RETIREMENT OF GENERAL
OBLIGATION DEBT; PARK MAINTENANCE; AND PUBLIC HEALTH PURPOSES**

WHEREAS, the Board of Aldermen, City of Grain Valley, Missouri are required by statute to adopt an annual budget and establish a tax rate sufficient to meet the planned expenditures for the upcoming fiscal year; and

WHEREAS, the Board conducted a public hearing on September 14, 2020, to solicit and listen to public input for the City tax levies for the upcoming year.

NOW THEREFORE, BE IT ORDAINED by the Board of Aldermen of the City of Grain Valley, Missouri as follows:

SECTION 1: The City of Grain Valley's annual tax levies for 2020 shall be levied on each one hundred dollars (\$100) assessed valuation of all taxable real estate, personal property, including individual and business personal property, and all locally assessed railroad and other utility real estate and personal property in the City of Grain Valley, Missouri at the following rates:

- A. General Municipal Government Operations - \$0.4967 for general municipal government operations to be deposited in General Fund.
- B. Retirement of General Obligation Debt - \$0.9493 for the retirement of general obligation debt, including the payment of principal and interest, to be deposited in the Debt Service Fund.
- C. Park Fund - \$0.1097 for park maintenance to be deposited in the Park Fund.
- D. Public Health - \$0.0437 for public health purposes to be deposited in the Public Health Fund.

Total City Levy - \$1.5994

	Budget Line Item:	N/A
	Balance Available	N/A
	New Appropriation Required:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
PURPOSE	To set regulations and license requirements for mobile food units operating within the city limits	
BACKGROUND	Mobile food units, such as “food trucks” have become an increasingly popular business model within the city. Current Municipal Code does not regulate where food trucks can operate or define the license requirements needed prior to operation. This chapter corrects those deficiencies.

**AN ORDINANCE AMENDING THE CITY CODE BY ADDING CHAPTER 660
REGARDING MOBILE FOOD UNITS**

WHEREAS, the City of Grain Valley is authorized to issue an occupational license in accordance with Chapter 605 of the City Code; and

WHEREAS, the City of Grain Valley wishes to continue to support local businesses throughout the Metro Area; and

WHEREAS, the Board of Aldermen believes it is in the best interests of the City of Grain Valley and its residents to amend the City Code to regulate Mobile Food Units.

NOW THEREFORE, BE IT ORDAINED by the Board of Aldermen of the City of Grain Valley, Missouri as follows:

SECTION 1: The City Code is hereby amended by adding one new chapter regarding mobile food units, to read as follows:

Chapter 660 Mobile Food Units

660.010. Definitions

Mobile Food Unit

A food service business that sells prepared food at retail from a movable vehicle (such as a truck), a portable structure with wheels (such as a trailer with wheels), or a pushcart.

660.020. Business License Required

A. All mobile food units are required to be properly licensed under Chapter 605. Those who currently have a license for a brick and mortar store will not be required to obtain an additional occupation license provided the Employer Identification Number (EIN) for both operations is the same.

B. A business license is not required for the following events:

1. Grain Valley Fair
2. Events administered and/or co-sponsored by the City of Grain Valley

660.030. Business License Issuance

A. No person shall operate a food truck within the city limits unless such person first obtains a business license as provided by Chapter 605.

- B. All mobile food units shall comply with all other applicable regulations under Chapter 605 or other Chapters of this Code.

660.040. Permissible Locations for Food Trucks.

Food Trucks may conduct business at the following locations:

- 1. Private property when properly zoned for retail sales with the written permission of property owner.
- 2. Parking lot in a residential district with written permission of property owner and owners of property immediately abutting parked mobile food unit.
- 3. City property designated for this purpose.

660.050. Operation Requirements.

Mobile food units licensed under this Chapter shall:

- 1. have a current sanitary inspection from the County Health Department prior to selling any food to the public; and
- 2. be attended at all times, whether serving or not; and
- 3. limit operations to the period between 6:30 a.m. and 9:00 p.m.

SECTION 2: This ordinance shall be in full force and effect from and after the date of its passage and approval.

SECTION 3: The provisions of this ordinance are severable and if any provision hereof is declared invalid, unconstitutional, or unenforceable, such determination shall not affect the validity of the remainder of this ordinance.

NW LINDENWOOD DRIVE.**

WHEREAS, the Mayor and the Board of Aldermen are committed to the development of the City.

WHEREAS, Ordinance 2509 was approved for the final plat of Rosewood Hills – 10th Plat; and

WHEREAS, access to the Rosewood Hills – 10th Plat is a planned three-lane culvert over the creek; and

WHEREAS, a Quit Claim Deed has been executed by the Rosewood Hills Homes Association and a Quit Claim Deed has been executed by the L&B Development, Inc. to provide the land needed for the additional right-of-way for NW Lindenwood Drive; and

WHEREAS, the Board of Aldermen is in acceptance of the land for right-of-way that is dedicated for public purposes.

NOW THEREFORE, BE IT ORDAINED by the Board of Aldermen of the City of Grain Valley, Missouri as follows:

SECTION 1: The Board accepts the land described in the Quit Claim Deed executed by the Rosewood Hills Homes Association for right-of-way to NW Lindenwood Drive and authorizes Staff to record the Quit Claim Deed with the Jackson County Recorder of Deeds.

SECTION 2: The Board accepts the land described in the Quit Claim Deed executed by L&B Development Inc. for right-of-way to NW Lindenwood Drive and authorizes Staff to record the Quit Claim Deed with the Jackson County Recorder of Deeds.

PURPOSE	To designate the Blue Branch Creek, Farmington Meadows Trail Spur as a City Easement for the purpose of offering a recreational amenity that is accessible to the general public and providing long-term trail improvements and trail maintenance by city staff.	
BACKGROUND	This section of trail is part of the City's Trails Master Plan. Missouri-Habitat, LLC agreed that once the construction of the Blue Branch Creek Trail was completed, they would convey this property back to the city as a non-exclusive easement, per the Restoration and Trails Contract with Missouri-Habitat, LLC entered in to back on September 9, 2013. The city will maintain this trail easement in perpetuity.	

SPECIAL NOTES	This easement is 16-feet in width and approximately 225-feet in length connecting the Blue Branch Creek Trail to an existing City easement at Laura Lane, adjacent to Farmington Meadows Lake. Within that 16-feet is a 10-foot wide, asphalt trail.

WHEREAS, the Board of Aldermen of the City of Grain Valley is committed to providing safe, pedestrian connectivity that promotes physical fitness and healthy opportunities for the residents of our community; and

WHEREAS, the City of Grain Valley entered into a Restoration and Trails Contract with Missouri-Habitat, LLC in September of 2013 for the construction of a recreational trail at Blue Branch Creek with pedestrian connectivity to Farmington Meadows Lake and established for public use; and

WHEREAS, Missouri-Habitat, LLC is granting this non-exclusive, trail easement in favor of the City of Grain Valley per the stipulations outlined in the executed Restoration and Trails Contract.

NOW THEREFORE, BE IT ORDAINED by the Board of Aldermen of the City of Grain Valley, Missouri as follows:

SECTION 1: The Board of Aldermen recognize the importance of pedestrian connectivity in our community and the need to designate the Blue Branch Creek, Farmington Meadows Trail Spur as a city easement.

SECTION 2: The City Administrator is hereby authorized to enter into an easement agreement with Missouri Habitat, LLC for the conveyance of the Blue Branch Creek, Farmington Meadows Trail Spur Easement to the City of Grain Valley.

1. Title of Document: Easement Agreement
2. Date of Document: August 20, 2020
3. Grantor: Habitat-Missouri, L.L.C., a Missouri limited liability company
4. Grantor's Address: 24820 Miller Road
Harrisonville, Missouri 64701
5. Grantee: City of Grain Valley, Missouri, a municipal corporation
6. Grantee's Address: 711 Main Street
Grain Valley, Missouri 64029
7. Legal Description: See Exhibits "A" and "B", pages 6-9

EASEMENT AGREEMENT

THIS EASEMENT AGREEMENT (this “Agreement”) is made this ____ day of August, 2020, by Habitat-Missouri, L.L.C., having an address of 24820 Miller Road, Harrisonville, Missouri 64701 (“Grantor”), in favor of the City of Grain Valley, Missouri, having an address of 711 Main Street, Grain Valley, Missouri 64029 (“Grantee”).

RECITALS

A. Grantor is the fee simple owner of that certain real property located in Grain Valley, Jackson County, Missouri, legally described on Exhibit “A” attached hereto (the “Grantor’s Property”).

B. Pursuant to that certain Restoration and Trails Contract, dated as of September 9, 2013, by and between Grantor and Grantee (the “Trail Contract”), Grantor agreed to, among other things, grant in favor of Grantee an easement to utilize certain trails and areas ancillary to such trails located upon Grantor’s Property (the “Easement Area”; the Easement Area is legally described on Exhibit “B” attached hereto. This Easement Area is for a Trail Spur not included in the Easement Agreement between Grantor and Grantee dated May 29, 2020.

C. Grantor desires to grant a non-exclusive easement over the Easement Area for the purpose of allowing Grantee to use such trails and areas ancillary thereto, upon the terms and conditions set forth in this Agreement and in the Trails Contract.

AGREEMENT

1.0 GRANT OF EASEMENT.

1.1 Grantor hereby grants and conveys to Grantee and Grantee’s residents, guests, invitees, agents, licensees, successors and assigns a non-exclusive easement for pedestrian and bicycle use and the operation and maintenance of the trails and the ancillary areas associated therewith, located upon the Easement Area (the “Easement”).

1.2 Grantor reserves for itself and for its guests, invitees, licensees, successors and assigns the right to occupy and utilize the Easement Area, so long Grantor and its guests, invitees, licensees, successors and assigns do so without materially interfering with the right to use, operate and maintain the Easement Area granted to Grantees hereunder.

1.3 Grantee may construct such improvements in the Easement Area as are contemplated in the Restoration and Trails Contract between the parties dated September 9, 2013. Grantor will not construct any improvements within the Easement Area without the express written consent of the Grantee. Grantor shall have no obligation to construct or maintain improvements upon any area ancillary to the trails constructed upon the Easement Area or to repair or maintain any portion of the Easement Area under this Agreement.

1.4 Neither Grantee, nor its residents, guests, invitees, agents, licensees, successors and assigns, shall remove any improvement or structure located on the Grantors’ Property, whether

now or hereafter existing and whether located within the Easement Area or otherwise, for any reason or purpose whatsoever.

1.5 Grantee shall repair, at Grantee's sole cost and expense, any damage or destruction to all or any portion of Grantor's Property, or any other item of property belonging to Grantor, whether real or personal (and whether located within the Easement Area or elsewhere on Grantor's Property), arising from or related to the use of the Easement Area by Grantee, members of the public or Grantee's residents, guests, invitees, agents, licensees, successors and assigns.

2.0 TERM.

2.1 The Easement granted herein shall be perpetual in nature and shall be binding upon the successors and assigns of Grantor. The benefit and burden of this Agreement and the covenants and agreements contained herein shall run with the land.

3.0 MISCELLANEOUS.

3.1 This Agreement may not be modified except in a writing signed by Grantor and Grantee, or their respective successors and assigns.

3.2 This Agreement, in conjunction with the Trail Contract, sets forth the complete and entire agreement between Grantor and Grantee concerning the subject matter hereof and of the Trail Contract. Except as set forth herein and in the Trails Contract, there are no covenants, promises, agreements, conditions or understandings, either oral or written, between them with respect to the subject matter hereof and of the Trails Contract other than those set forth herein and therein.

3.3 All notices pertaining to this Agreement shall be in writing sent by certified United States mail, postage prepaid, return receipt requested, or commercial overnight courier that provides tracking and proof of receipt of items mailed and addressed as set forth hereinabove. Each party shall have the right to specify that notice be addressed to any other address by giving the other party written notice thereof. This Agreement will be recorded in the office of the Recorder of Deeds for Jackson County, Missouri. Grantor will bear the cost of such recording.

3.4 This Agreement will be governed by, and construed, interpreted and enforced in accordance with, the laws of the State of Missouri.

3.5 This Agreement may be executed in counterparts, and all counterparts when taken together shall constitute one and the same original agreement.

3.6 The failure of any party to insist upon strict performance of any of the terms, covenants or conditions hereof shall not be deemed a waiver of any rights or remedies that party may have hereunder or at law or equity and shall not be deemed a waiver of any subsequent breach or default in any of such terms, covenants or conditions.

EXHIBIT A

Grantor's Property

TRACT I

Tract A - Winding Creeks Estates, 2nd Plat

TRACT II

A tract of land in the Southwest Quarter of Section 34, Township 49N, Range 30W in Grain Valley, Jackson County, Missouri, described as follows:

Commencing at the Southwest corner of Section 34; thence North 01 degree, 52 minutes, 20 seconds East, along the West line of the Southwest Quarter, 1246.64 feet, to the POINT OF BEGINNING; thence South 86 degrees, 39 minutes, 27 seconds East, 446.57 feet; thence North 73 degrees, 14 minutes, 07 seconds East, 219.58 feet; North 83 degrees, 11 minutes, 28 seconds East, 186.49 feet; South 58 degrees, 35 minutes, 42 seconds East, 563.42 feet; thence South 03 degrees, 13 minutes, 50 seconds West, 198.80 feet, to a point on the existing North Right-Of-Way of SW Eagles Parkway, formerly known as Missouri State Highway "A-A"; thence North 57 degrees, 06 minutes, 37 seconds East, along the North Right-Of-Way, 84.24 feet, to the intersection of the centerline of Blue Branch Creek; thence, North and West, along the meandering of the centerline of the creek to the West fine of Section 34; thence South 01 degree, 52 minutes, 20 seconds West, along the West line, 93.74 feet, to the POINT OF BEGINNING, containing 2.5 acres, more or less.

TRACT III

A tract of land lying in Section 3, Township 48, Range 30, in the City of Grain Valley, Jackson County, Missouri, being more particularly described as follows:

Commencing at the Northeast corner of Section 3, Township 48, Range 30, in the City of Grain Valley, Jackson County, Missouri; thence North 88 degrees 06 minutes 24 seconds West, 1,996.92 feet along the North line of said Section 3; thence South 01 degree 43 minutes 06 seconds West, 273.37 feet to the Point of Beginning of this description; thence South 88 degrees 02 minutes 19 seconds, East, 1,605.79 feet; thence South 01 degree 48 minutes 13 seconds West, 104.61 feet to the centerline of Blue Branch; thence meandering Southwesterly along the centerline of Blue Branch to a point that is North 88 degrees 06 minutes 24 seconds West, 1,996.92 feet and South 01 degree 43 minutes 06 seconds West, 884.76 feet from the Northeast corner of Section 3, Township 48, Range 30; thence North 01 degree 43 minutes 06 seconds East, 611.39 feet to the Point of Beginning of this description.

TRACT IV

A tract of land lying partially in Section 3, Township 48, Range 30 and partially in Section 34, Township 49, Range 30 in the City of Grain Valley, Jackson County, Missouri and being more particularly described as follows:

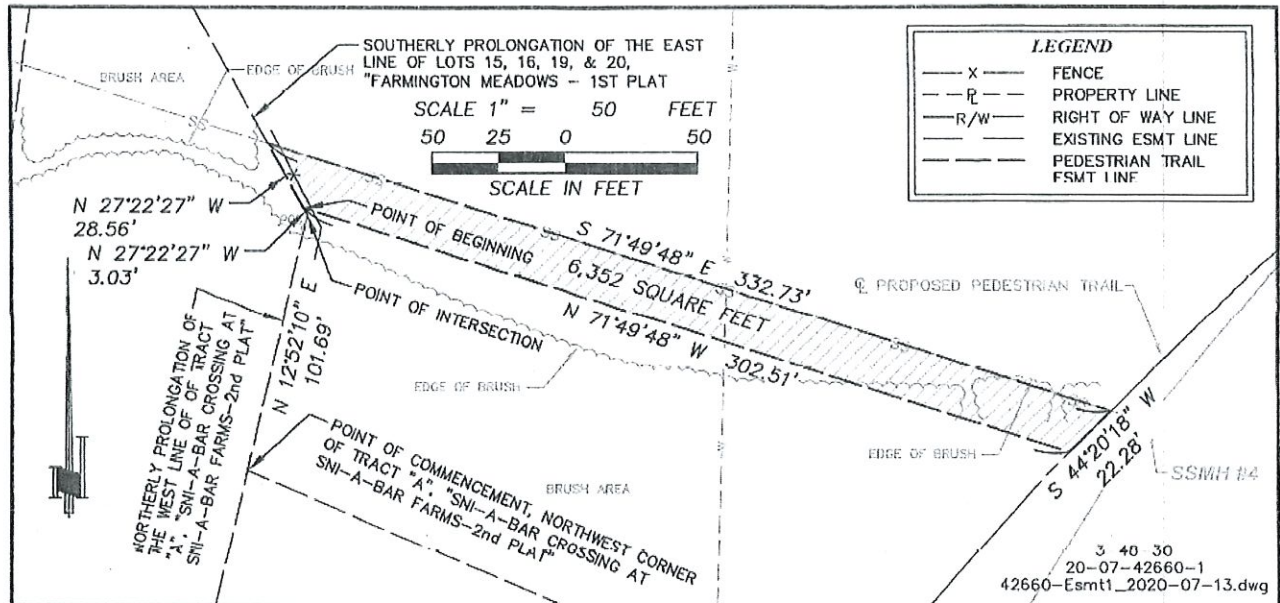

Commencing at the Northeast corner of Section 3, Township 48, Range 30 in the City of Grain Valley, Jackson County, Missouri; thence North 88 degrees, 06 minutes, 24 seconds West, 1996.92 feet along the North line of said Section 3 to the point of beginning of this description; thence South 01 degree, 43 minutes, 06 seconds West, 884.76 feet to a point in the centerline of Blue Ranch; thence meandering Northwesterly along the centerline of said Blue Branch to a point that is North 88 degrees, 06 minutes, 24 West, 3,830.93 feet and North 01 degree, 53 minutes, 36 seconds East, 378.28 feet

from the Northeast corner of said Section 3, Township 48, Range 30; thence South 90 degrees, 00 minutes, 00 seconds East, 152.01; thence South 61 degrees, 07 minutes, 54 seconds East, (measured), South 61 degrees, 24 minutes, 38 seconds East (plat), 839.12; thence South 88 degrees, 06 minutes, 24 seconds East, 934.26 feet (measured), South 88 degrees 14 minutes, 36 seconds East, 225.00 feet and South 88 degrees, 06 minutes, 24 seconds East, 659.41 feet (plat), and South 88 degrees, 06 minutes, 24 seconds East, 49.64 feet (deed) to the point of beginning of this description.

AN ORDINANCE AMENDING TITLE III, TRAFFIC CODE, SCHEDULE II, STOP INTERSECTIONS OF THE CODE OF ORDINANCES

WHEREAS, the City of Grain Valley, Missouri, through its Code of Ordinances has the authority to erect signs giving notice to drivers to stop at intersections at locations specified within the corporate limits; and

WHEREAS, according to Section 315.010, the City Engineer has authority install traffic control devices; and

WHEREAS, the Mayor and the Board of Aldermen have reviewed this change and deemed it to be in the best interest of the City.

NOW THEREFORE, BE IT ORDAINED by the Board of Aldermen of the City of Grain Valley, Missouri as follows:

SECTION 1: Title III, Traffic Code, Schedule II, Stop Intersections of the Code of Ordinances is hereby amended to include the following:

Stop On

At

NW Woodbury Drive
NW Pecan Drive

NW Pecan Drive
NW Woodbury Drive

Subject: Woodbury Estates- Stop sign needed

Importance: High

Follow Up Flag: Follow up
Due By: Wednesday, December 4, 2019 4:00 PM
Flag Status: Completed

Mark-

Per your conversation with Shannon Davis, I am emailing you as the president of the Woodbury Estates HOA.

With the new road going all the way through from Buckner Tarsney to Duncan, we are having a big issue with individuals speeding.

Our biggest issue is the speed one can get to from the top of the hill on Woodbury Drive just after the townhomes going north on Woodbury Drive. We would like to see a stop sign at the corner of Pecan drive / Woodbury Drive. This is the intersection of our back pool.

I have personal experienced on two different occasions of cars almost hitting me as I am walking across the street at this intersection.

A stop sign at this intersection would at least make cars stop before they attempt to pick up speed again.

We appreciate your help with this.

Thanks

Christy Dickson

TRAFFIC CONTROL DEVICE REQUEST FORM

This form may be used by the public to report a perceived traffic concern on a city owned street. When this form is submitted, City staff will evaluate the complaint to determine the nature of the problem, and make sure that the location is a City-maintained street. After the initial report, City staff will explain how residents may put together a petition to verify that there is a widespread concern.

Contact Information

Name (please print): Christy Dickson *on behalf of Woodbury Estates Subdivision (HOA President)*
Address, City, and Zip: 1701 NW Cottonwood Circle
Phone Number: 816-522-6226
Email: cdickson@lockton.com

- 1. Please describe the location of the traffic concern. Attach a map or picture if necessary: Intersection of Pecan Drive + Woodbury Drive
- 2. Please describe the nature of the traffic issue you are concerned with (attach additional sheets if necessary): See attached email
- 3. Please list possible solutions to the problem that you would like the City of Grain Valley to consider. Install stop sign or speedbumps

Please fill out this form and return to:

City of Grain Valley
Public Works Department
711 S. Main St.
Grain Valley, Mo 64029
Phone (816) 847-6220

NEIGHBORHOOD PETITION FORM

Please fill out this form and return with attached sheets to:

City of Grain Valley
Public Works Department
711 S. Main St.
Grain Valley, MO 64029
Phone: (816) 847-6220

THE UNDERSIGNED AGREE TO THE FOLLOWING:

1. All persons signing this petition do hereby certify that they own property or reside at a location directly effected by the issue:
2. All persons signing this petition do hereby agree there is a concern defined in the request form provided to the City:
3. All persons signing this petition do hereby agree that the following contact person(s) represents the neighborhood in matters pertaining to items 1 and 2 above:

Name of key contact person #1 (please print): Christy Dickson HOA President

Address, City, and Zip Code: 1701 NW Cottonwood Circle

Telephone (day): 816-522-6226

Fax: _____

E-mail: cdickson@lockton.com

Name of key contact person #2 (please print): N/A

Address, City, and Zip Code: _____

Telephone (day): _____

Fax: _____

E-mail: _____

Please attach additional pages if necessary to discuss the request.

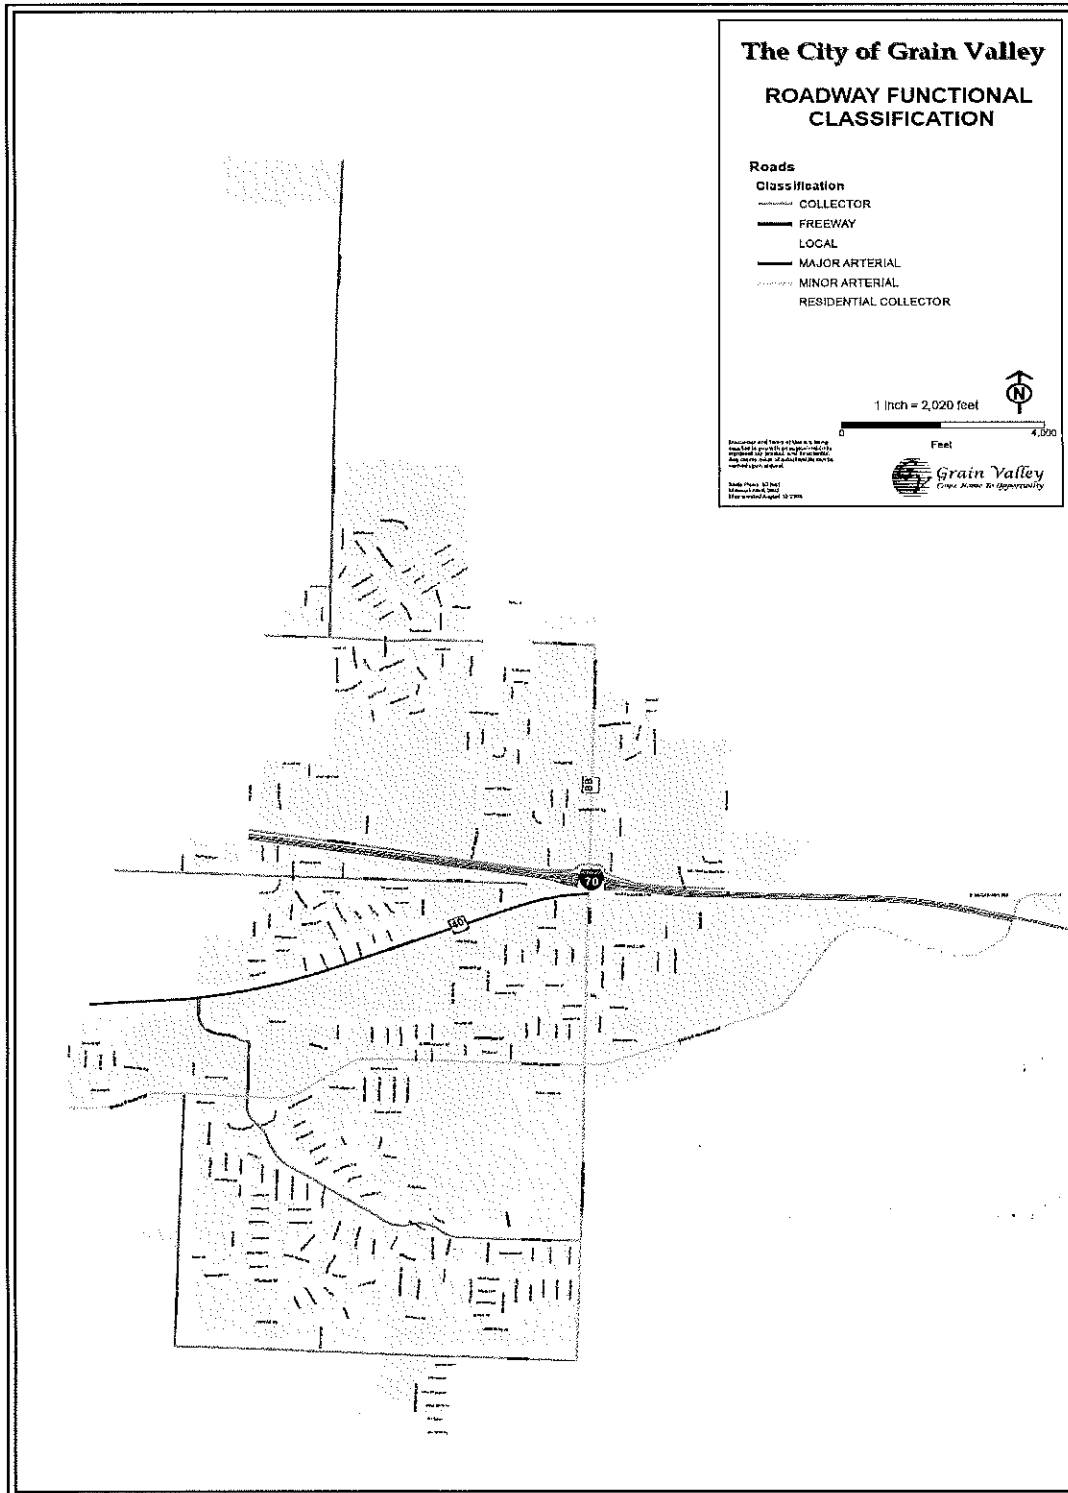

Date Submitted: 12-11-19

NEIGHBORHOOD PETITION FORM (continued)

This petition is provided so that residents in a neighborhood may verify that there is a widespread concern related to a traffic issue. City staff will identify an "area of influence" in the neighborhood. The area of influence includes properties abutting the street and properties on intersecting streets within a reasonable distance of the traffic concern. The Public Works Department will provide a map and addresses for the area of influence. The petition must be signed by at least 75 percent of the owners or residents of properties within the "area of influence." Each property is entitled to one signature. Valid signatures include those from (1) a property owner or spouse, (2) an adult head of household, or (3) an adult renting the property.

**Traffic Study Conducted at
Woodbury and Pecan Streets
For a 4-Way Stop Intersection
July 2020**

Background:

The intersection of Woodbury and Pecan is located in Woodbury Subdivision 3rd Plat. Woodbury Drive is classified as a residential collector, while Pecan is classified as a residential access street. The intersection is currently controlled with stop signs on Pecan only. The speed limit for both roads is 25 miles per hour (mph).

The City of Grain Valley received a request and petition from Christy Dickson the president of the Woodbury Home Owners Association (HOA) on December 4, 2019 to create a four way stop at the intersection due to the speed of vehicles on Woodbury Drive. An initial study was completed in December 2019. The results of the study were inconclusive as the primary pedestrian generator is a pool at the intersection which was closed for the season. Woodbury has recently become a through street increasing traffic at the intersection and the pedestrians traffic present because the neighborhood pool is located at this intersection creates concerns. Therefore, the study was completed a second time in July 2020.

Data Collection:

Various parts of the study were conducted at different times. Speed studies were conducted by the Police Department over 18 days from July 3rd to July 21st. The results of this study indicate that 11,835 vehicles passed through the intersection on Woodbury Drive. The maximum speed recorded was 45 mph and the average speed recorded was 21 mph. Although the average speed recorded was below the speed limit on Woodbury a significant number of vehicles were exceeding 30 mph.

Vehicle and pedestrian counts were taken by engineering staff at the intersection from 6:30 am to 7:30 pm on July 2, 2020. These hours were chosen to make sure that pedestrian traffic and residents leaving and returning from work would be at their highest levels. Data collected from these counts is summarized in the attached table.

Site Distance was measured using As-Built plans for this intersection. The shortest sight distance measured for vehicles entering the intersection on Woodbury as seen from Pecan was 300 feet. This distance was measured for vehicles entering Woodbury from the east and looking south.

Standards:

The standards for placing traffic control devices are established by the Federal Highway Administration in the Manual of Uniform Traffic Devices. The manual was last published in 2009 with amendments added in 2012. Chapter 2b. Regulatory Signs, Barricades, and Gates addresses the application of signs. Section 2B.04 addresses Right-of-Way at Intersections. According to this section the use of yield or stop signs should be considered at the intersection of two minor streets or local roads where the intersection has more than three approaches and where one or more of the following conditions exist:

- A. The combined vehicular, bicycle and pedestrian traffic volume entering the intersection from all approaches averages more than 2,000 units per day.
- B. The ability to see conflicting traffic on an approach is not sufficient to allow a road user to stop or yield in compliance with normal right of way rule if such stopping or yielding is necessary; and/or
- C. Crash records indicate that five or more crashes that involve failure to yield the right-of-way at the intersection under normal right-of-way rule have been reported within a 3-year period, or that three or more such crashes have been reported within a two-year period.

This section also states that “Yield or stop signs should not be used for speed control.”

Section 2B.07 addresses the use of Multi-Way Stop Applications as requested in this case. Section 2B.07 states that that “The restrictions on the use of stop signs described in Section 2B.04 apply to multi-way stop applications.

The following criteria should be considered in the engineering study for a multi-way stop sign installation:

- A. Where traffic control signals are justified, the multi-way stop is an interim measure for the installation of the traffic control signal.
- B. Five or more reported crashes in a 12-month period that are susceptible to correction by a multi-way stop installation. Such crashes include right-turn and left-turn collisions as well as right angle collisions.
- C. Minimum volumes:
 - 1. The vehicular volume entering from the major street approaches (total of both approaches) averages at least 300 vehicles per hour for any 8 hours of an average day; and
 - 2. The combined vehicular, pedestrian, and bicycle volume entering the intersection from the minor street approaches (total of both approaches) averages at least 200 units for the same 8 hours, with an average delay to minor-street vehicular traffic of at least 30 seconds per vehicle during the highest hour; but
 - 3. If the 85th percentile approach speed of the major-street traffic exceeds 40 mph, the minimum vehicular volume warrants are 70% of the values provide in items 1 and 2.
- D. Where no single criterion is satisfied, but Criteria B, C.1 and C.2 are all satisfied to 80% of the minimum values. Criterion C.3 is excluded from this condition.

Option:

Other criteria that may be considered in an engineering study include:

- A. The need to control left turn conflicts;
- B. The need to control vehicle/pedestrian conflicts near locations that generate high pedestrian volumes;
- C. Locations where a road user, after stopping, cannot see conflicting traffic and is not able to negotiate the intersection unless conflicting cross traffic is also required to stop; and
- D. An intersection of two residential neighborhood collector (through) streets of similar design and operating characteristics where a multi-way stop control would improve traffic operational characteristics of the intersection.

Analysis:

The following is the analysis of the criteria and the data collected.

- *The combined vehicular, bicycle, and pedestrian volume entering the intersection from all approaches averages more than 2,000 units per day. Based on the traffic counts collected by the engineering staff on July 2, 2020, 586 units passed through this intersection and based on those counts, the intersection count is estimated at 1,300 units per day. Based on this number the required 2,000 units per day has not been met.*
- *The ability to see conflicting traffic on an approach is not sufficient to allow a road user to stop or yield in compliance with normal right of way rule if such stopping or yielding is necessary; Sight distance was measured using as-built drawings of the intersection. The minimum distance measured was 300 feet. For a 25 mph speed limit the most restrictive distance is 280 feet for traffic traveling south on Woodbury. The minimum distance measured for traffic traveling north on Woodbury was 360 feet. However, since some of the traffic was recorded traveling over 30 mph the most restrictive sight distance at that speed is 335 feet.*
- *Crash records indicate that five or more crashes that involve failure to yield the right-of-way at the intersection under normal right-of-way rule have been reported within a 3-year period, or that three or more such crashes have been reported within a two-year period. A records search indicated that no crashes have been recorded at this intersection. Therefore, this criteria does not apply.*
- *Where traffic control signals are justified, the multi-way stop is an interim measure for the installation of the traffic control signal. Since no signal is contemplated at this intersection, this criteria does not apply.*
- *Five or more reported crashes in a 12-month period that are susceptible to correction by a multi-way stop installation. Such crashes include right-turn and left-turn collisions as well as right angle collisions. A records search indicates that no crashes have been recorded at this intersection, so this criteria does not apply.*
- *The vehicular volume entering from the major street approaches (total of both approaches) averages at least 300 vehicles per hour for any 8 hours of an average day; The average hourly volume recorded during both the morning and evening peak hours was 108 vehicles per hour, so this criteria does not apply.*
- *The combined vehicular, pedestrian, and bicycle volume entering the intersection from the minor street approaches (total of both approaches) averages at least 200 units for the same 8 hours, with an average delay to minor-street vehicular traffic of at least 30 seconds per vehicle during the highest hour; Based on vehicle counts during the same time period the average units entering the intersection from the minor street (Pecan) was 76, so this criteria does not apply.*
- *If the 85th percentile approach speed of the major-street traffic exceeds 40 mph, the minimum vehicular volume warrants are 70% of the values provide in items 1 and 2. The maximum speed recorded for Woodbury was 45 mph and the 85th percentile was 24 mph, so this criteria does not apply.*

Optional Criteria:

- *The need to control left turn conflicts; No left turn conflicts were observed.*

- *The need to control vehicle/pedestrian conflicts near locations that generate high pedestrian volumes; Since a neighborhood pool is located at this intersection which is a high pedestrian generator, pedestrian traffic is in conflict.*
- *Locations where a road user, after stopping, cannot see conflicting traffic and is not able to negotiate the intersection unless conflicting cross traffic is also required to stop; Sight distance is sufficient for the posted 25 mph speed limit, however, problems arise when vehicles are traveling at or over 30 mph.*
- *An intersection of two residential neighborhood collector (through) streets of similar design and operating characteristics where a multi-way stop control would improve traffic operational characteristics of the intersection. Pecan is not a residential collector street so this criteria does not apply.*

Conclusions and Recommendations:

Although the intersection doesn't meet all of the requirements for a 4-way stop, it does meet one criteria when the true speed of traffic is considered instead of the speed limit. This criteria is the ability to see conflicting traffic since the minimum sight distance is 300 feet and a significant portion of the traffic exceeds 30 mph. The minimum required sight distance for 30 mph is 335 feet. In addition, the pool located at this intersection is a significant pedestrian generator and causes conflicts with pedestrian traffic. Therefore based on these 2 criteria, I recommend the installation of a 4-way stop intersection.

I also recommend increased enforcement in the area until the intersection can be signed.

BILL NO. B20-25

ORDINANCE NO. _____
SECOND READING _____
FIRST READING _____

**AN ORDINANCE AMENDING CHAPTER 240, PARKS AND RECREATION, OF THE
CODE OF ORDINANCES, IN SECTION 240.160 SECTION (MERCHANTISING)**

WHEREAS, the Grain Valley Park Board proposed a text amendment to Chapter 240 to make changes to the Code of Ordinances of the City of Grain Valley for the sale of services and merchandise on park property; and

WHEREAS, the existing ordinance was last updated in 1990 and is very broad, lacking detailed information regarding the restrictions for the sale of services and merchandise on park property; and

WHEREAS, this ordinance amendment provides greater detail regarding those restrictions; and

WHEREAS, this ordinance amendment gives the Director of Parks and Recreation the authority to evaluate and approve/disapprove all requests to sell merchandise and services on park property; and

NOW THEREFORE, BE IT ORDAINED by the Board of Aldermen of the City of Grain Valley, Missouri as follows:

SECTION 1: That Chapter 240, Parks and Recreation, of the Code of Ordinances of the City of Grain Valley Missouri be amended to include text to read as follows:

Section 240.160 MERCHANTISING

A. Solicitation by any individual or organization is strictly prohibited. No person shall sell or offer for sale or advertise any goods, merchandise, or any product, service or other goods, or solicit contributions, or maintain any concession in any City park or City park, parking lot associated therewith, or use any City park facilities or City park property for commercial purposes except as authorized by the Director of Parks and Recreation on behalf of the Park Board or their designee or pursuant to a written agreement with the City of Grain Valley.

1. No person shall erect or place or cause to be erected or placed a stand, building, structure, wagon, tent, vehicle, car, trailer or any other thing to be used for the purpose of selling, dispensing or conveying merchandise, refreshments, service,

food, beverages, sports goods and supplies, or articles or advertisement of merchandise or service of any kind in or upon a City park unless such person has been granted permission by way of a written permit to do so by the Director of Parks and Recreation on behalf of the Park Board or their designee or is doing so pursuant to a written agreement with the City of Grain Valley.

2. No person shall use any City park, or sports courts, athletic field, swimming pool, shelter, or facility or portion thereof, owned or leased by the City, for instruction of any sort concerning physical fitness or athletic performance for which a fee is charged by that person, or to operate or conduct individual or group lessons, clinic, fitness programs or to run tournaments for which a fee is charged unless such person has been granted permission by way of a written permit to do so by the Director of Parks and Recreation on behalf of the Park Board or their designee or is doing so pursuant to a written agreement with the City of Grain Valley. This prohibition applies both to the person giving the instruction and the person receiving it. This does not apply to training given by City employees or by persons under a contract or permit with the City as part of a program of the City. This does not apply to coaches of teams playing in City administered leagues or in leagues which have a lease, permit, or user agreement with the City to use a City facility for their sport's use.
3. Any person that requests and is issued a permit to sell or dispense any merchandise, refreshments, service, food, beverages, sports goods, or supplies in a City park shall obtain and maintain a current City business license necessary to sell or dispense any merchandise, refreshments, service, food, beverages, sports goods, or supplies pursuant to Chapter 605 and any other required County or State license or permit, and shall provide any required reports and payments to the City, County or State.
4. It shall be unlawful for any person to sell or dispense any merchandise, refreshments, service, food, beverages, goods, and supplies in or from any City park for a fee without approval and permit from the Director of Parks and Recreation on behalf of the Park Board or their designee or a valid contract to do so from the City of Grain Valley.
5. Events administered and/or co-sponsored by the City of Grain Valley shall be exempt.

FIRST READING _____

**AN ORDINANCE AMENDING SECTION 340.240 OF THE MUNICIPAL CODE OF
ORDINANCES OF THE CITY OF GRAIN VALLEY, MISSOURI, RELATED TO
REQUIRING HELMETS WHILE RIDING MOTORCYCLES AND MOTOR-TRICYCLES**

WHEREAS, the City’s Board of Aldermen is authorized pursuant to Section 300.660 RSMo to adopt by ordinance referencing the Model Traffic Ordinance as adopted at Sections 300.010 to 300.600 RSMo; and

WHEREAS, the Board of Aldermen did so adopt the Model Traffic Ordinance by virtue of Ordinance, which is now codified as Title III of the Municipal Code of the City of Grain Valley (“City Traffic Code”); and

WHEREAS, Title III, Section 340.240, of the City Traffic Code, entitled “Wearing of Safety Helmet Required,” regulates the requirement of wearing helmets while operating or occupying as a passenger any motorcycle upon the streets and highways of the City of Grain Valley (“City”); and

WHEREAS, the Missouri Governor signed House Bill 1963 into law easing helmet requirements for motorcyclists in the State of Missouri; and

WHEREAS, the Board of Aldermen now desires to amend Section 340.240 of the City Traffic Code to accurately reflect the new statutory changes.

NOW, THEREFORE, BE IT ORDAINED by the Board of Aldermen of the City of Grain Valley, Missouri as follows:

SECTION 1: Section 340.240 of the Code of Ordinances of the City of Grain Valley, Missouri shall be amended as follows

Section 340.240 Protective Headgear Required, When.

- A. Every person under twenty-six years of age who is operating or riding as a passenger on any motorcycle or motor-tricycle, as defined in Section 300.010, upon any highway or street of this city shall wear protective headgear at all times the vehicle is in motion; except that:
 - 1. Any person twenty-six years of age or older operating any motorcycle or motor-tricycle who has been issued an instruction permit shall wear protective headgear at all times the vehicle is in motion.
- B. The protective headgear shall meet reasonable standards and specifications established by the director.

1. The standards and specifications are those required by Federal Motor Vehicle Safety Standard (FMVSS) 218. The National Highway Traffic Safety Administration (NHTSA) established standards for motorcycle helmets to ensure a certain degree of protection in a crash in Federal Motor Vehicle Safety Standard 218. DOT-compliant helmets are helmets that meet this safety standard, while noncompliant helmets are helmets that do not.
- C. Any qualified motorcycle operator who is twenty-six years of age or older may operate a motorcycle or motor-tricycle upon any highway of this state without wearing protective headgear if he or she, in addition to maintaining proof of financial responsibility in accordance with chapter 303 RSMo, is covered by a health insurance policy or other form of insurance which will provide the person with medical benefits for injuries incurred as a result of an accident while operating or riding on a motorcycle or motor-tricycle.
1. Proof of coverage required by Subsection C of this Section shall be provided, upon request by authorized law enforcement, by showing a copy of the qualified operator's insurance card.
- D. No person shall be stopped, inspected, or detained solely to determine compliance with Subsections A, B, and C.
- E. Any person who shall violate any of the provisions of this section shall be deemed guilty of an infraction and, upon conviction, shall pay a fine not to exceed twenty-five dollars.
1. Notwithstanding all other provisions of law and court rules to the contrary, no court costs shall be imposed upon any person due to such violation.
 2. No points shall be assessed for a failure to wear such protective headgear.

SECTION 2: The provisions of this ordinance are severable and if any provision hereof is declared invalid, unconstitutional, or unenforceable, such determination shall not affect the validity of the remainder of this ordinance.

SECTION 3: This ordinance shall be in full force and effect from and after its passage and approval.

TO: Grain Valley Board of Aldermen
FROM: James W. Beale Sr, Chief of Police
SUBJECT: Ordinance to Amend Section 340.240
DATE: September 4th, 2020

On August 28th, 2020 Missouri House Bill 1963 took effect, which enacted new revisions and provisions related to existing Missouri Statutes which covered No, Protective Headgear Required when operating a Motorcycle with the production of insurance coverage.

The existing Grain Valley Ordinance (Section 340.240), which included provisions for the wearing of safety helmet required, is no longer valid because it does not conform to the existing state law. I and Kelly ST. John from the Lauber Law Firm worked to develop the proposed ordinance now being presented for consideration by the Board of Aldermen. Ms. St. John revised the city ordinance to conform to the new Missouri Statute. The proposed ordinance has been placed on the Agenda for the Board of Alderman meeting of September 14th, 2020.

Submitted for your information and review.

Respectfully,

James W. Beale Sr, Chief of Police

INTENTIONALLY LEFT BLANK

BILL NO. _____

ORDINANCE NO: _____

AN ORDINANCE AMENDING SECTION 340.240 OF THE MUNICIPAL CODE OF ORDINANCES OF THE CITY OF GRAIN VALLEY, MISSOURI, RELATED TO REQUIRING HELMETS WHILE RIDING MOTORCYCLES AND MOTOR-TRICYCLES.

WHEREAS, the City’s Board of Aldermen is authorized pursuant to Section 300.660 RSMo to adopt by ordinance referencing the Model Traffic Ordinance as adopted at Sections 300.010 to 300.600 RSMo; and

WHEREAS, the Board of Aldermen did so adopt the Model Traffic Ordinance by virtue of Ordinance, which is now codified as Title III of the Municipal Code of the City of Grain Valley (“City Traffic Code”); and

WHEREAS, Title III, Section 340.240, of the City Traffic Code, entitled “Wearing of Safety Helmet Required,” regulates the requirement of wearing helmets while operating or occupying as a passenger any motorcycle upon the streets and highways of the City of Grain Valley (“City”); and

WHEREAS, the Missouri Governor signed House Bill 1963 into law easing helmet requirements for motorcyclists in the State of Missouri; and

WHEREAS, the Board of Aldermen now desires to amend Section 340.240 of the City Traffic Code to accurately reflect the new statutory changes.

NOW, THEREFORE, BE IT ORDAINED BY THE BOARD OF ALDERMEN OF THE CITY OF GRAIN VALLEY, MISSOURI, AS FOLLOWS:

Section 1: Section 340.240 of the Code of Ordinances of the City of Grain Valley, Missouri shall be amended as follows (new text **marked in bold and underlined**, deleted text *in italics and struck through*):

Section 340.240 *Wearing of Safety Helmet Required.* **Protective Headgear Required, When.**

~~A. It shall be unlawful for any person to operate or occupy as a passenger any motorcycle on any street, alley or other public place in the City unless such person is equipped with and wearing a helmet which conforms with the following specifications:-~~

A. **Every person under twenty-six years of age who is operating or riding as a passenger on any motorcycle or motor-tricycle, as defined in Section 300.010, upon any highway or street of this city shall wear protective headgear at all times the vehicle is in motion; except that:**

1. **Any person twenty-six years of age or older operating any motorcycle or motor-tricycle who has been issued an instruction permit shall wear protective headgear at all times the vehicle is in motion.**

~~1. The helmet shall be constructed essentially in the form of a shell around the head, and shall be constructed to absorb impact energy. The shell shall begin above the eyes, covering the forehead, and be formed over and around the top of the head above a~~

plane level with the base of the shell covering the forehead. It may be formed around the back and sides of the head.

B. The protective headgear shall meet reasonable standards and specifications established by the director.

1. The standards and specifications are those required by Federal Motor Vehicle Safety Standard (FMVSS) 218. The National Highway Traffic Safety Administration (NHTSA) established standards for motorcycle helmets to ensure a certain degree of protection in a crash in Federal Motor Vehicle Safety Standard 218. DOT-compliant helmets are helmets that meet this safety standard, while noncompliant helmets are helmets that do not

~~*2. The shell of the helmet shall have a reasonable smooth external surface, and there shall be no external projections greater than one eighth (1/8) inch above the outer surface thereof, except a clip for goggles or face protector where provided for in the construction.*~~

C. Any qualified motorcycle operator who is twenty-six years of age or older may operate a motorcycle or motor-tricycle upon any highway of this state without wearing protective headgear if he or she, in addition to maintaining proof of financial responsibility in accordance with chapter 303 RSMo, is covered by a health insurance policy or other form of insurance which will provide the person with medical benefits for injuries incurred as a result of an accident while operating or riding on a motorcycle or motor-tricycle.

1. Proof of coverage required by Subsection C of this Section shall be provided, upon request by authorized law enforcement, by showing a copy of the qualified operator's insurance card.

~~*3. The helmet shall be made of materials heavy enough to withstand a serious impact and made of a heavy plastic or other durable material that will not deteriorate appreciably when exposed to rain, snow, sleet, sun, cold, dust, vibrations, contact with skin or hair, or with age. The helmet shall be equipped with a harness or chin strap for maintaining its position on the wearer's head. Such helmets shall provide such protective standards as that is approved.*~~

D. No person shall be stopped, inspected, or detained solely to determine compliance with Subsections A, B, and C.

E. Any person who shall violate any of the provisions of this section shall be deemed guilty of an infraction and, upon conviction, shall pay a fine not to exceed twenty-five dollars.

1. Notwithstanding all other provisions of law and court rules to the contrary, no court costs shall be imposed upon any person due to such violation.

2. No points shall be assessed for a failure to wear such protective headgear.

Section 2: The provisions of this ordinance are severable and if any provision hereof is declared invalid, unconstitutional, or unenforceable, such determination shall not affect the validity of the remainder of this ordinance.

Section 3: This ordinance shall be in full force and effect from and after its passage and approval.

PURPOSE	To provide a complete review of the Municipal Code	

<p>BACKGROUND</p>	<p>The City contracts with General Code to provide an online and hard copy of the city’s Municipal Code. This contract includes a bi-annual supplemental update and regular incorporation of new and updated ordinances into the Municipal Code. Grain Valley’s code was originally codified in 1996 and while it has been updated continuously, there are inconsistencies, errors and outdated information that could affect the Code’s enforceability and alignment with relevant state statutes. This project will be a full recodification, including a review of the 1996 code as updated over the years. This process will ensure that legislation is up to date and in line with state statute and in an organized and consistent format and style.</p> <p>It is recommended that a full recodification project occur every 12-15 years.</p>
<p>SPECIAL NOTES</p>	<p>This project will be completed over the course of the next 18-20 months with an expected start date in the fall of this year. Project costs, while overall will equal \$14,498, will be split amongst the 2020-2022 budget years with the majority of the costs being built into the 2021 budget which will be brought to the Board of Aldermen later this year. The following is the anticipated schedule of payments:</p> <ul style="list-style-type: none"> • 2020: \$2,899- This is an unbudgeted expense for the current year. Funds will be reallocated to the identified line items (see fiscal information) with a budget adjustment • 2021: \$10,148- These funds have been included in the 2021 budget which will be presented to the Board of Aldermen for approval later this year • 2022: \$1,451- These funds will be included in the 2022 budget which will be presented to the Board of Aldermen for approval at a later date <p>The project costs will be split amongst four funds: General, Water, Sewer and Transportation.</p>

**A RESOLUTION BY THE BOARD OF ALDERMEN OF THE CITY OF GRAIN
VALLEY AUTHORIZING THE CITY ADMINISTRATOR TO ENTER INTO AN
AGREEMENT WITH GENERAL CODE FOR A FULL CODIFICATION REVIEW**

WHEREAS, the Board of Aldermen of the City of Grain Valley is charged with setting the Municipal Code for the City; and

WHEREAS, the Municipal Code that the City of Grain Valley is currently operating from was last fully codified in 1996; and

WHEREAS, there may still be errors, inconsistencies, and outdated information in the Municipal Code even with chapter updates to the Municipal Code occurring on a regular basis.

NOW THEREFORE, BE IT RESOLVED by the Board of Aldermen of the City of Grain Valley, Missouri as follows:

SECTION 1: The City Administrator is hereby authorized to enter into an agreement with General Code for recodification services.

PASSED and APPROVED, via voice vote, (___ - ___) this ___ Day of _____, 2020.

February 25, 2020
(Valid for six months)

A Member of the ICC Family of Companies

February 25, 2020

Jamie Logan
City Clerk, City of Grain Valley
711 Main Street
Grain Valley, MO 64029

Dear Ms. Logan,

General Code is delighted to present the City of Grain Valley with this proposal for codification services. As detailed in the enclosed proposal, our custom solution incorporates General Code's state-specific knowledge, innovative technology and experienced staff to make your Code accurate, enforceable and easily accessible by the City's constituents and broader community.

As an experienced codifier that has served communities and municipal staff for over a half century, General Code's unique knowledge of local government drives us to create better codification solutions and technology that are grounded in municipal input, and support both the current and future needs of your community. Our collaborative approach leverages our team's unique understanding of codification and combines your feedback with our cutting-edge technology – such as our online Code platform, *eCode360*[®] – to transform the way municipal officials and citizens access and share Code information.

Beyond the numbers and strategies presented in this proposal, we offer the City a long-standing commitment to creating community-focused solutions, coupled with our core values, including integrity, personal responsibility and honest care and concern for local governments and the communities they serve. Throughout the codification process, our Missouri Account Manager, Susan Lane, will be available to meet you and answer any questions the City may have.

We are committed to helping Grain Valley experience a higher standard of codification.

As a member of the International Code Council family of companies, General Code and the ICC are proud to provide robust Code solutions that benefit the community, encourage economic growth, and help the City save time and resources.

We look forward to serving your community.

Sincerely,

Handwritten signature of Cristina LoVerde in black ink.

Authorization and Agreement.....12

Executive Summary

A thorough review of your request has given us a better understanding of your unique needs and helped us determine ways that we can partner with you to make the City of Grain Valley's Code a more useful and effective resource for your community. The executive summary below serves as an overview for building a collaborative codification solution that can help the City achieve its goals. Full solution details are listed in the Recommended Solution section on page 4 of this proposal.

Situation Analysis

The City of Grain Valley's Code was originally codified in 1996, and it was last updated in 2020. However, the Code may still contain inconsistencies, errors and outdated information that could potentially affect the Code's enforceability and alignment with relevant state statutes.

It is our understanding that the City would like a complete recodification, including a comprehensive review of the 1996 Code as updated through Ordinance No. 2484. This process would ensure that legislation is up-to-date and in line with state statutes and the current needs of your constituents, in addition to making the overall Code consistent in organization, format, style, and content.

Our Solution

Our comprehensive codification solution for Grain Valley includes:

- > **An Editorial and Legal Analysis and recodification of existing materials**
This process will identify conflicts, redundancies and inconsistencies in the Code and enable you to incorporate the necessary revisions to ensure that your Code is enforceable and fully complies with state statutes
- > **Update your online Code housed on our innovative *eCode360* platform**
Once your new Code is ready, we update your *eCode360* site to make it is available online to your community and staff
- > **3 custom printed Code books, with an option for additional printed volumes**
We will provide you with 3 fully customized print copies of your new Code, with additional copies as requested

Solution Benefits

General Code has extensive experience in Missouri. We currently serve over 3,200 municipalities across the United States and Canada, including 273 in Missouri. Based on over a half a century of experience working with local governments, we understand the needs and challenges of communities like yours as well as the importance of collaborating throughout the codification process. A comprehensive codification solution from General Code will:

1. Deliver a Code that is always accessible to the public and up-to-date
2. Help you keep Grain Valley's Code enforceable
3. Improve transparency with constituents
4. Save Grain Valley's staff time and resources by empowering constituents to find Code information independently

Who Benefits?

1. **Constituents**—Citizens will be able to find and use laws in a comprehensive, up-to-date and understandable format
2. **Staff**—All staff members will be able to gather the information they need to answer questions from both citizens and other municipal officials
3. **Planners/Developers**—Your new Code will provide a clear view of existing regulations and make it easier to determine the impact of proposed changes and amendments on development and growth initiatives
4. **Attorneys**—Legal staff can draft and amend legislation more efficiently by using *eCode360* to research similar laws that other communities have passed

Grain Valley's Investment

The price of General Code's recommended solution will be \$14,498.

A detailed breakdown of the investment and available options can be found in the Investment Details and Options section on page 10.

Recommended Solution for Grain Valley

Based on our discussions with the City, we have put together a collaborative codification solution built for your community's specific needs. In addition to having years of codification experience, our staff is uniquely qualified to serve your community, based on backgrounds in municipal law, code enforcement, zoning and planning, information technology, and government administration. Our recommended solution includes the following services from General Code:

Provide an Editorial and Legal Analysis

Our project team will do a thorough review and analysis of your legislation and provide recommendations for keeping your Code clear, reliable and enforceable. The Editorial and Legal Analysis workbook contains specific questions compiled by your Code consultant while reviewing the City's legislation. These questions highlight errors, inconsistencies and other issues that may affect the accuracy, clarity and enforceability of your final Code. The Editorial and Legal Analysis workbook guides your stakeholders to make decisions about revisions to the legislation. All final decisions regarding the sufficiency of the legislation which is to be codified, and any changes to be made to said legislation, shall be the province of the City officials and the City Attorney.

Update your online Code housed on *eCode360*

The City's current online Code will remain available for the City's staff and general public for the duration of this project. Once the project has been completed, we will update the City's *eCode360* with the new version of the City's Code.

Publish a Custom Printed Code

General Code will publish 3 printed copies of your Code in high-quality, custom-imprinted expandable post binders. The Code pages will be designed in an 8 ½-by-11-inch page size, using 11-point Times New Roman font in a single-column format on 100% recycled paper.

General Code lets you customize the look of your final printed Code, including the color of your binder (blue, dark red, green, brown, black or gray) and the color of the silk-screen lettering on the binder cover (white, silver or gold). We can also emboss the City's Seal on the front and spine for added impact at no additional charge. Each copy of the Code will include a set of tab dividers for individual customization and will also be serial-numbered for easy identification.

Provide Ongoing Code Maintenance

In order to provide the City of Grain Valley with continued and ongoing access to an up-to-date Code throughout the project lifecycle, we will supplement the existing Code during the project. As part of the scheduled project stages, supplements will be completed prior to the preparation of the Editorial and Legal Analysis and prior to the preparation of the Draft.

After the project is completed, your Code will evolve as your community changes and grows. In order to maintain your Code as an accurate and reliable resource, it is important that the City keeps the Code up-to-date after initial publication. General Code's supplementation services are designed to make the process easy, fast and accurate.

The charge for supplementation shall be outside the scope of the project pricing. Therefore, the City should continue to budget for annual supplementation throughout the duration of the project.

Project Materials

Source Materials

General Code will use the following source materials for the codification project:

- > General Code's library copy of the City's 1996 Code, as updated to Ordinance No. 2484

Project Scope

This proposal and the scope of this project consider only the legislation submitted for review as listed above. The processing, review, and inclusion of any materials not submitted are outside the project scope as proposed and therefore may be subject to additional charges. We request that the City routinely send any new legislation upon adoption. These additional materials will be included in additional supplements to the Code as deemed appropriate, up to the point of the Editorial and Legal Analysis and prior to the preparation of the Draft, and shall be subject to additional charges.

The General Code Codification Process

Our goal is to organize your legislation into a systematized, clean format, designed to provide you and your community with an easy-to-understand, simple to reference, and logically indexed Code.

We Know Your Community

Our Code consultants have an average of 15 years building and maintaining Codes and have helped develop Codes for more than 273 communities across Missouri. This state-specific knowledge gives us an understanding of the shared history, values and concerns of your area, helping us better work with you to build a Code that reflects the values of your community.

We Include You in the Process

The project workflow that General Code has developed is highly collaborative, allowing you to engage with a Code consultant at every key stage of the codification process. Our Code consultants are invested in working with local governments and strive to ensure that your Code improves transparency within your community while accurately reflecting your laws.

Process Outline

Beginning a Code Project

To begin the project, the City shall provide the source materials for the new Code. For more detail, see the source materials listed on page 6.

Project Launch

At the beginning of the project, General Code will consult with Grain Valley's designated contact person to review the project generally and to clarify any initial questions for both General Code and the City.

Code Manuscript and Code Supplement

The City's existing Code will be used as the Manuscript for the project. The Code will be supplemented just prior to preparation of the Editorial and Legal Analysis in order to optimize the City's review of the Code, and also so that General Code is reviewing the most up-to-date material.

Editorial and Legal Analysis

For the second part of the analysis of the City's legislation, we will prepare an Editorial and Legal Analysis for your review. Our staff of editors and attorneys is in contact with hundreds of communities and will provide you with the benefit of their experience, including information you can use to determine how your legislation can be revised and improved. Your project team will do a thorough review and analysis of your legislation and provide specific recommendations and input for improvement. The Analysis will be compiled into a workbook with an easy-to-use checklist format. City officials, including the City Attorney, will have the final decision-making authority for the resolution of any and all issues

The Editorial and Legal Analysis will include the following:

- > Identification of duplications, conflicts and inconsistencies between or within various sections of the Code
- > Identification of duplications, conflicts and inconsistencies with Missouri statutes
- > Any practical recommendations to make your legislation more enforceable
- > Suggestions regarding fines, fees and penalties
- > Suggestions on ways to modernize your legislation

Your Responsibilities

The City will review the Editorial and Legal Analysis and make the final decisions on any changes that are deemed necessary. All final decisions regarding the sufficiency of the legislation which is to be codified, and any changes to be made to said legislation, shall be the province of the City officials and the City Attorney.

A review period is set by the performance schedule. We stress the importance of staying within the allotted time period to avoid disruptions in the production process and delays in the delivery of the Code.

Code Supplement

In order to minimize the timeframe during which the City's Code is out-of-date prior to publication, the Code will be supplemented just prior to preparation of the Draft. Once the Draft is prepared, supplementation of the prior Code shall be discontinued until Code publication is complete.

Final Editing of the Manuscript

Once the Editorial and Legal Analysis is returned, an editor will begin the final editing process. During this time, we will:

- > Edit the text to incorporate any revisions and additions previously approved in the Editorial and Legal Analysis phase
 - > Update the Table of Contents listing all chapters and articles included in the Code, as applicable
 - > Include cross-references and Editor's Notes, as required, and add historical notations indicating the source and date of adoption of each enactment
 - > Proofread all copy to correct typographical and spelling errors
-

Draft

General Code will submit a Draft of the Code for final review by the City. At this time, the editorial work on your project will be completed; therefore, if the City requires any additional changes, further charges will apply.

Comprehensive Index

During final publication, General Code will prepare a comprehensive index that is designed to let you quickly and easily locate information in the Code.

Code Adoption Legislation

We will prepare adoption legislation for the proposed Code and give it to the City Attorney for review and enactment by the governing body.

The Code should be adopted as soon as possible to formally enact the many revisions authorized by the City and establish the Code as the permanent enforceable system of law in the City.

If the Code adoption legislation is enacted and returned to us within 90 days of submission, we will include this material in the Code free of charge. Once the Code is adopted, it can be amended directly to change, add or delete material.

Code Delivery

General Code will make your *eCode360* site available to the public and deliver 3 printed copies of your Code in custom imprinted, expandable post binders.

Ongoing Supplementation

As the City adopts new legislation, General Code's supplementation services will help you keep your Code up-to-date, accurate and a reliable resource for your community.

Investment Details and Options

Codification Project Price

\$14,498

Services included with the codification project:

- > Project Launch
- > Editorial Work
- > Proofreading
- > Shipping

Initial deliverables included with the codification project:

- > Organizational Analysis
- > Editorial and Legal Analysis
- > Manuscript
- > Draft

Final deliverables included with the codification project:

- > Publication of 3 Code Volumes in Expandable Imprinted Post Binders
- > Comprehensive Index
- > Disposition List
- > Customizable Tabs
- > Code Adoption Legislation
- > Updated *eCode360*

Supplementation

Charges for supplementation after during the phases of the project are outside the scope of work and the base price of the project. Therefore, the City should budget separately for ongoing supplementation during the recodification project.

Performance and Payment Schedule

Codification Project Price

**CITY OF GRAIN VALLEY
BOARD OF ALDERMEN AGENDA ITEM**

MEETING DATE	September 14, 2020	
BILL NUMBER	R20-44	
AGENDA TITLE	A RESOLUTION BY THE BOARD OF ALDERMEN OF THE CITY OF GRAIN VALLEY AUTHORIZING THE CITY ADMINISTRATOR TO ENTER INTO AN AGREEMENT WITH NEAPOLITAN LABS LLC	
REQUESTING DEPARTMENT	Administration	
PRESENTER	Theresa Osenbaugh, Deputy City Administrator	
FISCAL INFORMATION	Cost as recommended:	\$22,0000
	Budget Line Item:	100-10-74450: \$20,000 100-08-74620: \$2,000
	Balance Available	100-10-74450: CARES Act funding is transferred to the line item as agreements are approved by the Board of Alderman 100-08-74620: \$2,013
	New Appropriation Required:	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
PURPOSE	To develop, design and deploy an updated website	
BACKGROUND	The City's current website was developed in 2015 and no longer meets the needs of the City or the user. A redevelopment of the website has been discussed for several years but funds have not been allocated in the annual budget. With the COVID-19 pandemic, it has become increasingly important to have a website that functions well and is easy to navigate for residents and others visiting the site.	
SPECIAL NOTES	The majority of funding is from an unbudgeted revenue stream as a result of the CARES Act funding which has been received from Jackson County. Additional line items have been created for the tracking of CARES ACT revenues and expenses and the balance available reflects the total amount expected to be allocated to COVID related expenses in this line item. The remaining revenue was previously budgeted funds for website projects.

RESOLUTION NUMBER
R20-44

**A RESOLUTION BY THE BOARD OF ALDERMEN OF THE CITY OF GRAIN VALLEY
AUTHORIZING THE CITY ADMINISTRATOR TO ENTER INTO AN AGREEMENT
WITH NEAPOLITAN LABS LLC**

WHEREAS, the City has maintained the current website since 2015 and desires to increase the usability for citizens and those visiting the site; and

WHEREAS, it is recommended that websites be redesigned from time to time to stay responsive, consistent and accessible for users;

WHEREAS, the main source of funding is from an unbudgeted revenue stream as a result of the Coronavirus Aid, Relief, and Economic Security (CARES) Act. These dollars originated from Jackson County (approximately \$865,000) and have been transferred to the City.

NOW THEREFORE, BE IT RESOLVED by the Board of Aldermen of the City of Grain Valley, Missouri as follows:

SECTION 1: That the Board of Aldermen hereby authorizes and directs the City Administrator to enter into an agreement with Neapolitan Labs LLC for development, design and deployment of the City's website.

PASSED and APPROVED, via voice vote, (-) this ____ Day of September, 2020.

Chuck Johnston
Mayor

ATTEST:

City Clerk

INTENTIONALLY LEFT BLANK

Memorandum

To: Ken Murphy, City Administrator
From: Theresa Osenbaugh, Deputy City Administrator
Date: 08/28/2020
Re: Website Development & Hosting

The current website for the City was developed in 2015. Recommendations suggest that website design be revisited every 2-3 years and/or when the website no longer meets the needs of the user. Our current website takes multiple “clicks” to get to some of the most commonly used pages, the search function is often unreliable, there are many accessibility deficits, and there are many new features that could be incorporated into a website design which the City currently does not have such as alerts, frequently asked questions, and more.

While a website redesign has been discussed in recent years, funds have not been included in the budget for a redevelopment. With the recent changes from COVID-19 and the increased interaction that citizens are relying on to be completed online, having a website that meets the residents and City’s needs is crucial.

The City issued a Request for Proposal on August 11, 2020 and proposals were due August 25, 2020. The City received six submissions in response to the RFP outlining website development, annual support and hosting fees and training. The four-year total costs for the proposals ranged from \$22,100-\$36,375 with various levels of site development, annual support and training.

Staff proposes entering into an agreement with Neapolitan Labs for the project. Neapolitan Labs is a small business which primarily works with municipalities, school districts, community and chamber organizations to develop modern and responsive websites that are easy for clients to use and maintain. In addition to a complete website redevelopment and staff training, fees will include annual allocations for minor additional development as needed, support services and website hosting. They propose beginning work in mid-September with a website launch in mid-December.

City of Grain Valley, Missouri

Website Development Agreement

August 31, 2020

PREPARED BY

Brian McMillin

President

Caley Lewis

Chief Business Officer

Neapolitan Labs LLC
500 Locust St., Suite 125
Des Moines, IA 50309

PREPARED FOR

Theresa Osenbaugh

Deputy City Administrator

City of Grain Valley, Missouri

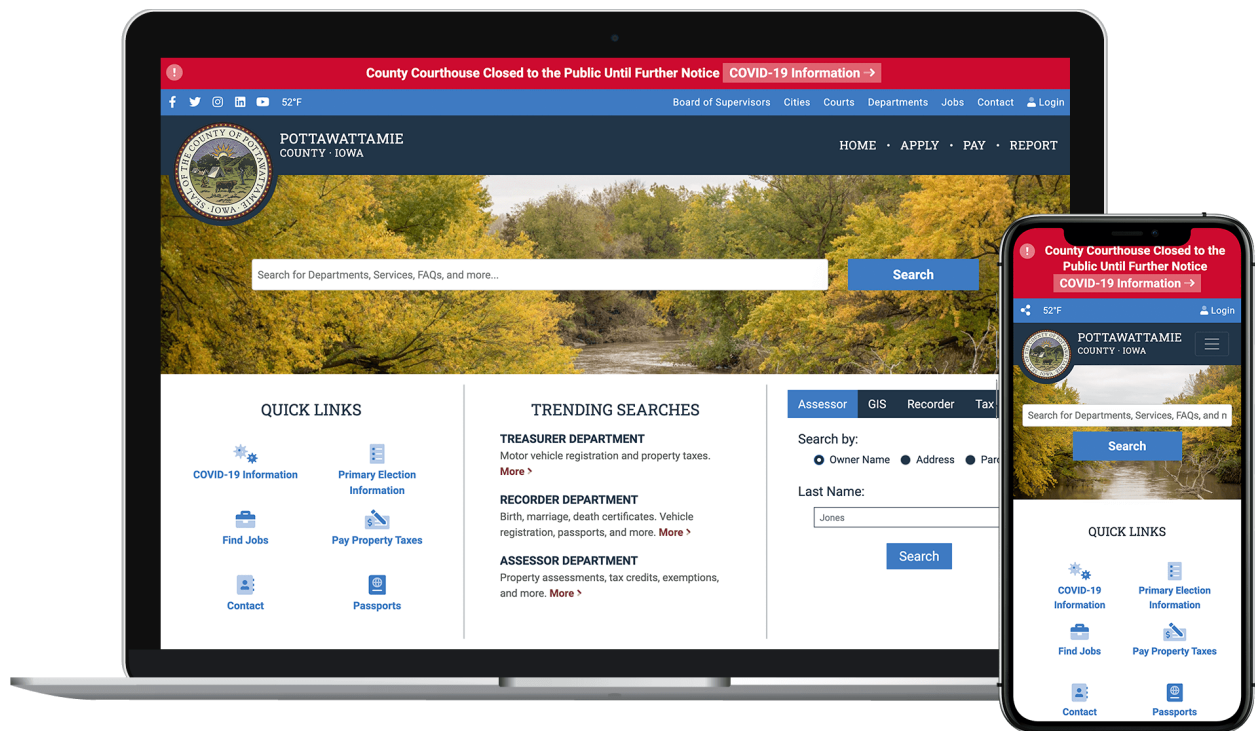

Overview

Neapolitan Labs will develop and implement a new, mobile-optimized, user-friendly website built for citizens of Grain Valley. The website will be powered by the proprietary and easy-to-use *Mint Chip Lab* platform.

Key Features & Functionality

Fully Responsive Designs

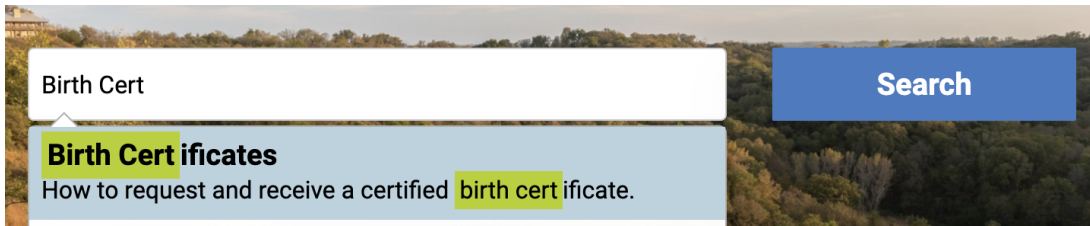

The new Grain Valley website will be built for every device break-point, from high-resolution 4K monitors to the most dated smartphones. No technology, plugins, or features will be utilized which limit compatibility with modern browsers or devices. The design will be created to incorporate *City of Grain Valley* branding with a pleasant and professional selection of colors and fonts.

Pottawattamie County's website is built for all devices, including desktops and smartphones

Site Search

Search will be a prominent part of the website, either on the homepage or reached via the header, to let users quickly find the content they are looking for. The Mint Chip Lab platform is built to allow easy assignment of search keywords to pieces of content, from park shelter reservations to police department services. Search terms will be tracked via Google Analytics.

birth certificates search excerpt from Pottawattamie County

Departments

Each department in Grain Valley will have a consistent landing page with key content:

- Basic department details (name, hours, location, phone numbers, key staff members)
- Introduction of department responsibilities and key services
- Highlighted links (including local site content, external website links)
- Social media profiles will be presented in a consistent manner
- Contact form directed to the specified departmental contact or contacts to generate an email without exposing direct department emails

Departments will be able to customize their sections with unique imagery and create additional pages within their sections such as *Aquatic Center*, *Crime Prevention*, and *Human Resources*. Site administrators will be able to customize the placement of these sections within their lists of services and/or highlighted links. Sections of heightened importance can be promoted on the website homepage when applicable. No duplicate editing processes will be required.

Key Services & Resources

Current Projects

Permits

Service Request Form

Useful Links

partial list of department services from Pottawattamie County

Department Alerts

Departments, such as *Parks and Recreation*, can create department-specific alert messaging to be highlighted within their department homepage or section pages:

Office open to the public

Effective 8 June 2020, the Pottawattamie County Veteran Affairs will be open to the public. Our office is taking significant steps to make sure the building is as clean as possible. We ask that you call the Office at 712-328-5797 if you would like to schedule an appointment before coming to the building.

[+ Show More](#)

departmental alert message from Pottawattamie County

Website Organization

The current website is sometimes difficult to navigate, especially when looking for information within department subsections, like youth leagues or property tax information. Neapolitan Labs team will complete a detailed review of the current site plus other Midwestern city websites with similar demographic profiles and propose a site map as part of the blueprint step in the website development process.

This blueprint process includes a kick-off meeting to review research findings and get input from selected city staff and/or council members with the goal of leaving the meeting with a plan for the new website organization (sitemap) to be incorporated into the new design.

Alerts

An Alerts module will be implemented to allow users with appropriate access to add an alert to the top of all pages on the website. These alerts could inform of closures, cancellations, snow or flood events and can be programmed to display indefinitely or for a defined length of time. Alerts for standard holiday closures can be programmed in advance, and priority alerts are available to highlight most important announcements with larger text and bolder colors. All alerts can be set up to take users to a webpage, press release, or other links to find more details, when applicable.

sample standard alert box from Southwest Valley Schools

Requests for Proposals

A section will be introduced to list RFPs for city projects. Proposals can be assigned a deadline date and automatically removed from the website once the date has passed. If desired, interested respondents can be required to insert basic information (e.g. business name and address) before downloading RFP details. A deadline can be assigned for all RFPs and they will not appear on the website after the deadline.

Agendas and Minutes

The *Agendas and Minutes* module will be implemented, allowing for easy posting of Board of Aldermen meeting information. Agendas and/or minutes can be uploaded individually and directly to the website as PDF files or linked to external sources. A video link can be attached to each meeting. Additional minutes could be added by other commissions or boards as needed (e.g. *Planning & Zoning Commission*.)

Meeting #21 - Regular Meeting August 6, 2019	Packet 	Minutes 	-
Meeting #20 - Regular Meeting July 16, 2019	Packet 	Minutes 	Watch 
Meeting #6 - Board of Health July 2, 2019	Packet 	Minutes 	Watch 
Meeting #19 - Regular Meeting July 2, 2019	Packet 	Minutes 	Watch 
Meeting #5 - Board of Health June 18, 2019	Packet 	Minutes 	Watch 
Meeting #18 - Regular Meeting June 18, 2019	Packet 	Minutes 	Watch 
Meeting #17 - Regular Meeting June 4, 2019	Packet 	Minutes 	Watch 

example listing of packets/agendas, minutes, and video links from the City of Ottumwa

Event Calendar

In addition to Board of Aldermen meetings, a calendar will be present for the City to add other key events or holidays (e.g. Household Hazardous Waste Event, Labor Day office closures.) Upcoming events will be viewable in a list or the traditional calendar format.

Frequently Asked Questions

A FAQ module will be installed to allow departments to post and maintain lists of frequently asked questions and answers. The FAQs will dynamically display within each department section plus be findable via the website search and an overall page of sitewide FAQs.

Subcategories will be allowed, and this dynamic format will be an improvement from the current website's PDF FAQs (e.g. Aquatic Center, Buildings and Inspections, Police Department, etc.)

Q. Can an independent vote in a primary election?

A. Yes and No. In Iowa, you must be a member of a political party (in 2020: Republican and Democrat) to vote in a primary election. However, anyone can change parties on Election Day and vote. For independents to vote they must declare a political party.

searchable FAQs excerpt from Jones County Elections

Job Opportunities

Neapolitan Labs will integrate with Government Jobs / NEOGOV to show any active employment opportunities directly on the Grain Valley website.

When a job posting has expired or is taken down from Government Jobs, it will be automatically removed from the City website. Users will be able to click through to the Government Jobs site to read full details and/or apply.

[Apply Online](#) ↗

job openings excerpt, synced with NEOGOV from Pottawattamie County

News and Announcements

The homepage will include space for news and announcements to be posted. This provides an avenue for city staff to communicate updates to the public in a consistent fashion, including citywide announcements like COVID-related closures or election information, or department-specific news like new pool hours or parks and rec programs.

Photos and videos can be associated with announcements, and videos will not have to be downloaded to be viewed. Additionally, employees will be able to schedule news items to be posted at a future date and optionally set an expiration date for news items to be removed from the website once the information is no longer relevant.

Interactive Forms

Electronic forms will be developed and integrated into the website where applicable. These forms will allow users to submit information online in a consistent manner, with details routed to appropriate City staff members to review and respond accordingly.

This will include a “Fix it Form” designed for residents to select from a dropdown of reportable issues and enter details about the concern and the concern’s location. Submissions can include a request for response via email, phone, or no response, and will be routed internally to allow the designated department(s) and/or staff member(s) to respond accordingly.

Also, an overall Contact form will be built for general questions, and up to 4 online forms can be created to replace current PDF forms or email processes, such as the swimming pool permit applications. Fields can be marked as required and completed forms can be routed to meet City requirements. Additional forms can be built at a per-form cost, starting at \$150.

Parks & Recreation

Neapolitan Labs sees an opportunity to significantly enhance the Parks & Recreation section by making it easier for users to find information for residents and potential residents to see the great facilities and programs available in Grain Valley.

A new Parks module can be created to provide details on each of the community's parks. A key photo or photo gallery can be associated with each park. Features and amenities can be selected and displayed on park landing pages in a consistent fashion:

[View Gallery](#)

Narrows River Park

Narrows River Park provides boat access to the mighty Missouri River, just off I-29 in Council Bluffs.

Attention

We remind our visitors that COVID-19 is present in our communities & ask that all park visitors please maintain appropriate social distancing at all times, wash hands frequently, & recommend wearing a mask when visiting indoor spaces at your county parks. Please limit your groups to 10 or fewer individuals when visiting indoor spaces & please obey all posted signage in your county parks.

Two covered shelters overlook the river invites visitors to stay and enjoy the beauty of the river and the Omaha skyline downstream. In addition to the boat ramp (currently closed), the 36-acre park includes horseshoe pits, archery range with an adjacent picnic shelter, equal access picnic table with checkerboard, playground and modern restrooms. The park closes November through March.

Park Features

Archery Range

Narrows River Park offers an archery range open to the public. The range includes targets, other equipment is not provided. Visitors will need to bring their own bows and arrows.

Narrows River Park

Directions:
Take I-29 to exit #55, North on 25th Street to River Road

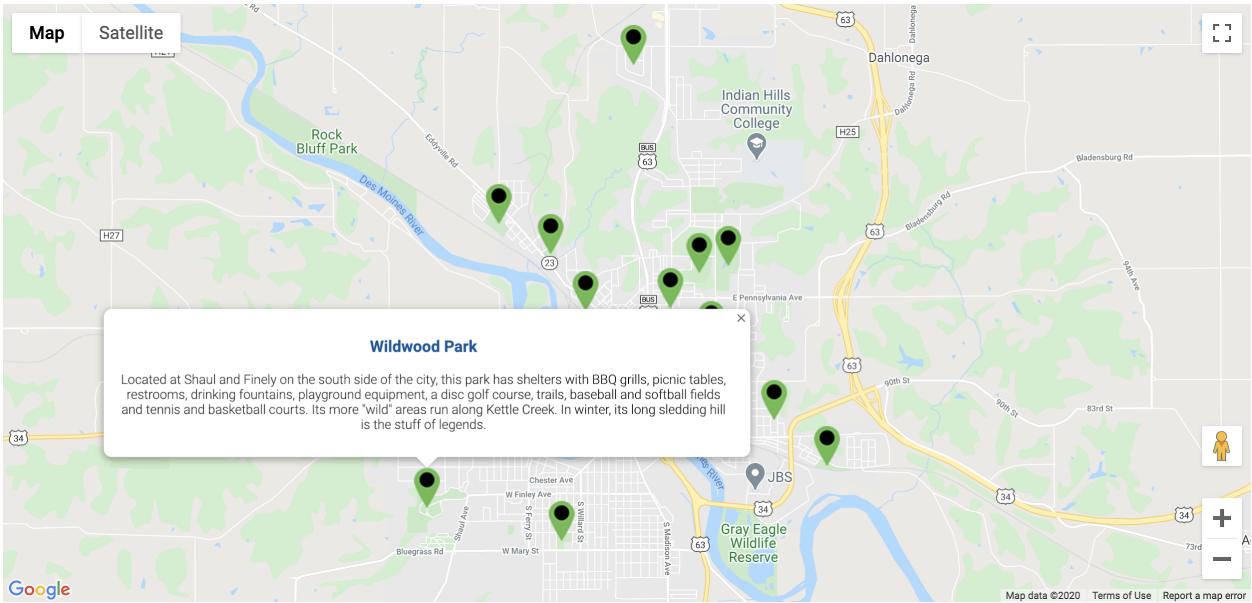

Park Hours:
6:30 am to 10:30 pm

Pottawattamie Conservation park listing

Available shelters and rentals can be displayed in a dynamic list, allowing users to filter based upon amenities (e.g. tables, BBQ pit) and capacity. A rental request form will be built allowing users to request a reservation with automated confirmation emails sent. Online payments are supported via Square, Stripe, and/or PayPal.

Additionally, the Youth Programs could be improved with a module dedicated for these programs. Consistent information such as registration and schedule links, fees, deadlines, and birthday requirements, could be collected via the Mint Chip Lab administration system and displayed on the website in a consistent manner.

Finally, an Interactive Map would be introduced to allow users to see all of Grain Valley's park facilities on a single map -- with markers for park shelters, ball fields, the aquatic center and more.

Interactive Park Map

Social Media

Grain Valley is active on Facebook, but the default embed options are often slow to load and limited in capabilities. The Juicer tool will be licensed and used to visually show the latest posts (e.g. parks announcements, mays, police video, etc. in a fast-loading and compelling user format.

social media embed from Unleash Council Bluffs

Additional Modules & Features

Neapolitan Labs will work with the City of Grain Valley to identify and implement modules to improve user experience and site management of website content.

Room for Growth

The website will be powered by the proprietary Mint Chip Lab content management system, which allows website administrators to add additional departments, sections, files, news items, images, and other website content easily and quickly without assistance from Neapolitan Labs.

Technology

Mint Chip Lab

The website will be powered by *Mint Chip Lab*, the proprietary content management system developed and maintained by Neapolitan Labs. Since its inception in 2004, Neapolitan Labs has focused on the development and implementation of content management systems to make website updates easy and efficient even for non-technical users. The *Mint Chip Lab* platform was officially launched in 2017, built to incorporate all of the best features built for clients over the past 16 years.

Modules will be customized and/or built to meet Grain Valley's needs. Information is stored in databases where content is dynamically retrieved and presented on the front-end and Intranet websites, as appropriate. All long-form content is maintained via the well-respected, WYSIWYG CKEditor. The platform is regularly updated and upgraded to improve user experience. Granular permissions can be assigned to each user to restrict updates to specific modules or content within specific sections of the public-facing and/or Intranet websites.

Several screenshots showcasing *Mint Chip Lab* are included below, but a follow-up meeting is highly recommended for an interactive look at the platform.

At this time, some in-person events are beginning to take place as originally planned. However, if you are sick or feeling you are getting sick, the event planners ask that you please stay home. The CDC recommends that people in high-risk groups consult with their healthcare provider about attending any large gatherings. If you do choose to attend an in-person event, please keep in mind the CDC's recommendations on how to keep yourself and others healthy and safe:

- Cover your mouth and nose with a cloth face covering when you go out in public
- Practice social distancing and stay at least 6 feet away from others
- Avoid close contact with people who are sick

Accessibility

The website will be developed to be compliant with core 508 accessibility standards, using the WAVE compliance test. While all core code and images will be fully compliant, the City will be responsible for defining ALT text for images added to content pages and verifying PDFs uploaded to the website meet accessibility standards. An accessibility statement and contact information for accessibility questions will be incorporated into the website footer.

Hosting

Neapolitan Labs will utilize its proprietary *Mint Chip Lab* platform for the Grain Valley website. This requires external hosting for security, maintenance, and efficiency reasons. Neapolitan Labs directly monitors the security and health of all of its hosted client websites, including the Grain Valley website, which will be part of a virtual private server installation. Technical support and upgrades to the content management system are significantly easier and more efficient. *Mint Chip Lab* and Neapolitan Labs client websites are powered by PHP code with MySQL databases storing the majority of website content.

SiteLock protection, including malware scanning and removal plus a web application firewall, will be installed immediately after the hosting account is established during the development process. The entire site and accompanying database are backed up on a daily basis. Access to *Mint Chip Lab* is restricted to City employees with login credentials, and authorized users can manage employee access in real-time.

While Neapolitan Labs retains rights to its *Mint Chip Lab* platform, the City of Grain Valley is the owner of all website content and can request exports of database information at any time.

Search Engine Optimization

The website will be built with readable URLs such as cityofgrainvalley.org/police/ to meet search engine best practices. Page titles and META tags will be customizable via *Mint Chip Lab* for all pages throughout the website. Websites powered by *Mint Chip Lab* have received very high scores in Google's benchmarks, including site security, page speed, and mobile-friendly design standards have become increasingly important in search algorithms.

Web Tools

Mint Chip Lab incorporates a number of tools for site maintenance and accuracy. All content editor sections are powered by the well-respected and well-documented CKEditor, which has built-in spell-check capabilities. An *orphaned files and images* report allows for lists to be generated on-demand of files and images which have been uploaded to *Mint Chip Lab* but are not linked anywhere within the public-facing or Intranet websites.

Analytics

Google Analytics will be integrated so the Client can continue to monitor website users, visits, and page views. Custom code will be added to track PDF downloads, for the most complete look at website usage. Regular email reports will be established for delivery to City staff and/or department heads as desired.

Content Transfer

Neapolitan Labs will meet with the City of Grain Valley departments to review current website information, along with anything that needs to be added to the new website. All information needed for website launch will be imported by Neapolitan Labs to minimize the City's time requirements for the project.

Site Transition

Neapolitan Labs will collaborate with the Client to ensure a smooth transition from the current to the new website, from both a user perspective and search engine optimization. The most important element of this transition will be ensuring all current website URLs at cityofgrainvalley.org are mapped to the equivalent URLs on the new website as part of the *Redirects* module within *Mint Chip Lab*. Following the launch, an automated site map will be established and submitted to Google so the search engine is aware of the updated website content and structure.

Neapolitan Labs Advantages

Research-Driven, Customized Design

Neapolitan Labs will create a best-in-class website for the City of Grain Valley. A data-driven approach will be used for design and development, ensuring the entire website is easy to navigate on all devices. Websites from cities across the Midwest will be reviewed by the Neapolitan Labs team with distinctive features highlighted to consider for inclusion on the new site. Frequent communication and regular discussions either in-person or by video conference will help ensure the new website meets the needs of all project stakeholders.

Powerful, Flexible Content Management System

The website will be powered by the aforementioned *Mint Chip Lab* platform, which makes website management as efficient and easy as possible. The platform is database-driven, with customized tables established for each client and function. The easy-to-use platform is designed to allow complete customization of the website front-end, yielding a “best-of-both-worlds” situation for clients. A choice doesn’t have to be made between modern design and a reliable content management system.

Experience with Government Websites

Neapolitan Labs powers the primary websites for many large and medium sized county and city clients across the Midwest and hosts election-specific websites for 12 Iowa counties. Neapolitan Labs is committed to meeting individually with the department head in the City of Grain Valley as part of this project to ensure all needs are met leading up to the new website launch.

Familiarity and Locality

The City of Grain Valley is near and dear to our Chief Business Officer’s heart. She grew up in Pleasant Hill, Missouri, and her first job was at the tanning salon in the strip mall on Eagles Parkway. She played Grain Valley in High School conference games (basketball and softball), and she has friends and family who live there. She is very invested in making sure Grain Valley is represented to the fullest extent via the website as it’s a town full of heart, growth, and good people!

Support

Neapolitan Labs is Midwest-based and committed to providing great support to its clients. A ticketing system in *Mint Chip Lab* allows users to ask questions directly while they are logged in and working on website updates. Staff is available by phone and email and after hours in case emergency support is needed.

Proposed Start Date and Timeline

Neapolitan Labs expects to build and launch the new Grain Valley website over a three-month timeline. Agreement execution on September 15 would allow for website launch the week of December 14. Major project milestones include:

- **Week 2 > Kickoff Meeting** with stakeholders to review best-in-class city websites and review all content on the existing websites. Combined with input from the City of Grain Valley, Neapolitan Labs expects to leave the meeting with a preliminary site map and game plan for new website development.
- **Week 4 > Design Mockups** shared to showcase concepts based upon findings from the kickoff meeting. Neapolitan Labs will gather feedback and create up to two design revisions to meet City needs. Simultaneous to design work, Neapolitan Labs will be establishing needed functionality within *Mint Chip Lab* to power the website.
- **Weeks 5 and 6 > Design Revisions** will be produced and shared with the City of Grain Valley for feedback. By the end of Week 8, Neapolitan Labs expects to have an agreed-upon website design to allow the commencement of front-end development.
- **Week 7 > Department Meetings** will be held, as Neapolitan Labs meets 1:1 with each key Grain Valley department with a presence on the new website. The new design will be shared, current website content will be reviewed, and a game plan will be established for content to transfer, and new content needed, for the new website.
- **Weeks 10 and 11 > Interactive Design Preview.** A fully-interactive site will be built for desktop and mobile devices based upon the agreed-upon designs completed four weeks prior, with the website available for review. Project stakeholders and department heads will be provided with access information and *Mint Chip Lab* training to prepare for launch.
- **Week 12 > Website Launch.** Neapolitan Labs will work closely with the City of Grain Valley to launch the new website at its current domain name, or a new one (e.g. a .gov domain) if desired. Team members will be available for extended support hours during the week of website launch to address any issues and/or provide guidance on *Mint Chip Lab* questions that may arise once the website is launched.

Hosting and Support

As part of this agreement, Neapolitan Labs will continue to adhere to the hosting standards specified earlier in this proposal. In addition:

- Website support directed to Neapolitan Labs will receive a response within 24 hours. At a minimum, the response from Neapolitan Labs will acknowledge the email and provide a timeline for addressing the issue(s) and/or question(s) contained within the email. Neapolitan Labs will provide phone and email contact information for urgent after-hours support.
- In cases where a technical website issue has been identified, and the website does not function as expected or previously promised, a firm timeline will be presented and the work will be completed at no cost. With this agreement, five hours of annual website updates and development to the front-end website and/or *Mint Chip Lab* modules are provided at no cost.
- In scenarios where new features or functionality are requested which require significant development work, Neapolitan Labs will provide a statement of work including cost and a firm deadline for completion. Development work will proceed if approved by the client.

An in-person website review will be scheduled annually, where Neapolitan Labs will present key website metrics from heat maps and analytics and discuss opportunities for development leveraging built-in hours included with each renewal.

Costs

Neapolitan Labs prices the entire website development package, as outlined above, at **\$22,000**. This cost includes secure website hosting and support for the first year. Beginning at the launch anniversary, the annual website hosting and support cost is **\$1,500**.

Development, Design, and Deployment		
Mint Chip Lab	<ul style="list-style-type: none">Provisioning of all features and modules, from <i>Departments</i> to <i>Meeting Minutes</i>, etc.Creation of new modules specific to Grain Valley...	\$6,000

Total First-Year Cost		\$22,000

Terms and Conditions

A down-payment of 50% of the core costs (\$11,000) is invoiced at project commencement. The balance (\$11,000) will be invoiced upon project completion.

Hosting and Support

As part of this agreement, Neapolitan Labs will continue to adhere to the hosting standards specified earlier in this proposal. In addition:

- Website support directed to Neapolitan Labs will receive a response within 24 hours. At a minimum, the response from Neapolitan Labs will acknowledge the email and provide a timeline for addressing the issue(s) and/or question(s) contained within the email. Neapolitan Labs will provide phone and email contact information for urgent after-hours support.
- In cases where a technical website issue has been identified, and the website does not function as expected or previously promised, a firm timeline will be presented and the work will be completed at no cost. With this agreement, five hours of annual website updates and development to the front-end website and/or *Mint Chip Lab* modules are provided at no cost.
- In scenarios where new features or functionality are requested which require significant development work, Neapolitan Labs will provide a statement of work including cost and a firm deadline for completion. Development work will proceed if approved by the client.

A webinar website review will be scheduled annually, where Neapolitan Labs will present key website metrics from heat maps and analytics and discuss opportunities for development leveraging built-in hours included with each renewal. The annual cost for website hosting and support, as outlined above, beginning in the second year, is **\$1,500**.

Annual Cost		\$1,500

Training & Services

Super User Training

Neapolitan Labs is committed to user training via webinar prior to website launch that includes a super-user training for one or more City employees who would serve as website administrators. This in-depth training session would last approximately 4 hours and cover all *Mint Chip Lab* modules built for the City.

User Training

Additionally, each department (e.g. Police, Parks & Rec) should assign one or more employees to be trained on the *Mint Chip Lab* platform. This training will focus on the specific modules used by each department and would last approximately 60-90 minutes depending on the department.

Built-in Documentation

Documentation for key features is built into the *Mint Chip Lab* platform, and is accessible at any time by clicking the *Module Help* icon.

ADDITIONAL TERMS AGREEMENT

This Additional Terms Agreement is made between Neapolitan Labs (Labs) and City of Grain Valley (City).

WHEREAS, City selected Labs to provide certain products and services set forth in the Website Development Agreement, and Neapolitan Labs desires to provide such products and services under the terms of the Website Development Agreement and these Additional Terms Agreement.

NOW THEREFORE, in consideration of the foregoing and of the mutual covenants and promises set forth in this Agreement, Labs and City agree as follows:

SECTION A – WEBSITE DEVELOPMENT SERVICES

1. If the website development package does not perform as warranted, Labs will use all reasonable efforts, consistent with industry standards, to cure the defect.
2. In the event any of City's data has been lost or damaged due to an act or omission of Labs or its subcontractors or due to a defect in Lab's software, Labs will use best commercial efforts to restore all the data with the goal of minimizing any Data loss as greatly as possible.

SECTION B – WARRANTY

1. Services Warranty. Labs will perform the services in a professional, workmanlike manner, consistent with industry standards. In the event Labs provide services that do not conform to this warranty, Labs will re-perform such services at no additional cost to City.

SECTION C - INVOICING AND PAYMENT; INVOICE DISPUTES

1. Invoicing and Payment. Labs will invoice fees for services quoted in Website Development Agreement.
2. Invoice Disputes. If any delivered service does not conform to the warranties in the Website Development Agreement or this Agreement, City will provide written notice within thirty (30) days of receipt of the applicable invoice. The written notice must contain reasonable detail of the issues City contend are in dispute so that Labs can confirm the issue and respond with either a justification of the invoice, an adjustment to the invoice, or a proposal addressing the issues presented in the notice. Labs will develop an action plan that outlines reasonable steps to be taken by each to resolve any issues presented in the notice.
3. City may withhold payment of the amount(s) in dispute, and only those amounts, until Labs completes the action items outlined in the plan.

SECTION D – TERM AND TERMINATION

1. Term. The services outlined in the Website Development Agreement and this Agreement shall be completed within twelve (12) weeks of City of Grain Valley Board of Aldermen approval. The term may be extended by mutual agreement of the parties.

2. Termination. This Agreement may be terminated by City for any reason upon 30 days' written notice to Labs.
3. Force Majeure. Either party has the right to terminate this Agreement if a Force Majeure event suspends performance of the Website Development Agreement for a period of forty-five (45) days or more.
4. Lack of Appropriations. If City should not appropriate or otherwise make available funds, City may unilaterally terminate this Agreement upon thirty (30) days written notice to Labs.

SECTION E – INDEMNIFICATION AND INSURANCE

1. Intellectual Property Infringement Indemnification. Labs shall defend City against any third party claim(s) that the services provided infringes that third party's patent, copyright, or trademark, or misappropriates its trade secrets, and will pay the amount of any resulting adverse final judgment or settlement.
2. General Indemnification. Labs will indemnify and hold harmless the City and City's agents, officials, and employees from and against any and all third-party claims, losses, liabilities, damages, costs, and expenses (including reasonable attorney's fees and costs) for (a) personal injury or property damage to the extent caused by Labs negligence or willful misconduct.
5. Insurance. During the course of performing services under this Agreement, Labs agrees to maintain the following levels of insurance: (a) Commercial General Liability of at least \$1,000,000; (b) Professional Liability of at least \$1,000,000; (c) Workers Compensation complying with applicable statutory requirements; and (d) Excess/Umbrella Liability of at least \$5,000,000. Labs will add City as an additional insured to Labs Commercial General Liability policies, which will automatically add City as an additional insured to Labs Excess/Umbrella Liability policy as well. Labs will provide City with copies of certificates of insurance upon written request.

SECTION F– GENERAL TERMS AND CONDITIONS

1. Optional Items. Pricing for any listed optional products and services in the Website Development Agreement will be valid for twelve (12) months from the Effective Date.
2. Nondiscrimination. Labs will not discriminate against any person employed or applying for employment concerning the performance of Labs responsibilities under this Agreement. This discrimination prohibition will apply to all matters of initial employment, tenure, and terms of employment, or otherwise with respect to any matter directly or indirectly relating to employment concerning race, color, religion, national origin, age, sex, sexual orientation, ancestry, disability that is unrelated to the individual's ability to perform the duties of a particular job or position, height, weight, marital status, or political affiliation. Labs will post, where appropriate, all notices related to nondiscrimination as may be required by applicable law.
6. E-Verify. Labs has complied, and will comply, with the E-Verify procedures administered by the U.S. Citizenship and Immigration Services Verification Division for all of Labs employees assigned to City's project.

7. Subcontractors. Labs will not subcontract any services under this Agreement without City's prior written consent, not to be unreasonably withheld.
8. Binding Effect; No Assignment. This Agreement shall be binding on, and shall be for the benefit of, either City's or Lab's successor(s) or permitted assign(s). Neither party may assign this Agreement without the prior written consent of the other party.
9. Force Majeure. Except for payment obligations, neither party will be liable for delays in performing its obligations under this Agreement to the extent that the delay is caused by Force Majeure; provided, however, that within ten (10) business days of the Force Majeure event, the party whose performance is delayed provides the other party with written notice explaining the cause and extent thereof, as well as a request for a reasonable time extension equal to the estimated duration of the Force Majeure event.
10. No Intended Third Party Beneficiaries. This Agreement is entered into solely for the benefit of the parties. No third party will be deemed a beneficiary of this Agreement, and no third party will have the right to make any claim or assert any right under this Agreement. This provision does not affect the rights of third parties under any Third Party Terms.
11. Entire Agreement; Amendment. This Agreement and the Website Development Agreement represents the entire agreement between City and Labs with respect to the subject matter hereof, and supersedes any prior agreements, understandings, and representations, whether written, oral, expressed, implied, or statutory. This Agreement and the Website Development Agreement may only be modified by a written amendment signed by an authorized representative of each party.
12. Severability. If any term or provision of this Agreement or Website Development Agreement is held invalid or unenforceable, the remainder of this Agreement and Website Development Agreement will be considered valid and enforceable to the fullest extent permitted by law.
13. No Waiver. In the event that the terms and conditions of this Agreement are not strictly enforced by either party, such non-enforcement will not act as or be deemed to act as a waiver or modification of this Agreement, nor will such non-enforcement prevent such party from enforcing each and every term of this Agreement thereafter.
14. Independent Contractor. Labs are an independent contractor for all purposes under this Agreement.
15. Confidentiality. Both parties recognize that their respective employees and agents, in the course of performance of this Agreement and Website Development Agreement, may be exposed to confidential information and that disclosure of such information could violate rights to private individuals and entities, including the parties. Confidential information is nonpublic information that a reasonable person would believe to be confidential and includes, without limitation, personal identifying information (e.g., social security numbers) and trade secrets, each as defined by applicable state law. Each party agrees that it will not disclose any confidential information of the other party and further agrees to take all reasonable and appropriate action to prevent such disclosure by its employees or agents. The confidentiality covenants contained herein will survive the termination or

cancellation of this Agreement. This obligation of confidentiality will not apply to information that:

- (a) is in the public domain, either at the time of disclosure or afterwards, except by breach of this Agreement by a party or its employees or agents; or
- (b) is the subject of a legitimate disclosure request under the open records laws or similar applicable public disclosure laws governing this Agreement.

- 16. **Governing Law.** This Agreement will be governed by and construed in accordance with the laws of the State of Missouri, without regard to its rules on conflicts of law.
- 17. **Authorized Signatures.** Each party represents to the other that the signatory set forth below is duly authorized to bind that party to this Agreement.
- 18. **Contract Documents.** This Agreement includes the Website Development Agreement and is incorporated herein by reference and made a part hereof.

RESOLUTION NUMBER
R20-45

A RESOLUTION BY THE BOARD OF ALDERMEN OF THE CITY OF GRAIN VALLEY, MISSOURI AUTHORIZING THE CITY ADMINISTRATOR TO SIGN AGREEMENT WITH BRINKS, INCORPORATED AS RECEIPT OF A DONATED 2009, INTERNATIONAL 200 SERIES TRUCK

WHEREAS, the Board of Aldermen of the City of Grain Valley; must approve all Agreements; and

WHEREAS, the Grain Valley Police Department does not currently have a multi-purpose vehicle to use in high-level incidents; and

WHEREAS, the approval of this donated vehicle from Brinks, Incorporated will greatly enhance the ability of the Grain Valley Police Department to handle high-level incidents without the aid of outside agencies assistance; and

WHEREAS, the Board of Aldermen have reviewed this recommendation and believe it to be in the best interest of the Grain Valley Police Department.

NOW THEREFORE, BE IT RESOLVED by the Board of Aldermen of the City of Grain Valley, Missouri as follows:

SECTION 1: The City Administrator is hereby authorized to sign an agreement with Brinks, Incorporated as receipt of a donated 2009, International 200 Series Truck

PASSED and APPROVED, via voice vote, (-) this __ Day of _____, 2020.

TECH #	PM SERVICE OPERATIONS	WkAcc	TECH #	PM SERVICE OPERATIONS	WkAcc
1	Visual walk around vehicle. Check exterior prior to entering vehicle. Record vehicle # above. Check state inspection date. Record due date. Emission due date.		28	Check the wiper motors for proper mounting. Check the driver's roof vent. Check the operation & mounting of the defroster fans. Check the operation & mounting of the dome lights.	
2	Wash out the radiator with a garden hose. Wash batteries if needed. Do not use pressure washer.		29	Inspect the bus bar & lube all pivot points. Adjust the bar so the hopper door is tight & secure.	
3	Check steering wheel for cracks, general condition, & mounting.		30	Check the hopper fan for proper mounting & operation. Does it run on both speeds? Check the operation of the safe drop chute. Lube the chute door hinge & check for broken welds. Lube the hinge on the clean out door. Inspect & lube lock. Check the safe light for proper operation. Check the body mounting bolt inside the safe for looseness. Are there any signs of rust?	
4	Check condition of seat mounting. Check upholstery for rips. Fasten seatbelt, check latch operation. Check seat operation (up, aft, & height adjuster. Leave seatbelt fastened during test drive.		31	Check the cargo compartment for rust, holes, or damage. Check the body mounting bolts for looseness. Lube & inspect the door locks & hinges on currency cage. Check the interior for damage. Check to ensure that all wiring harnesses are secured properly. Check all cargo area lights.	
5	Insert key & check operation of ignition switch. With the key on, check the warning lights & buzzers. Check emergency stien at this time.		32	Lube rear doors & lock linkage. Ensure that slam locks are dropping into floor pockets & that top lock is secured properly. Check all rear door glass & door panels.	
6	Check mounting condition of the transmission shifter assembly. Put transmission in drive & try to start the engine. The engine should not crank. Start engine now. Put in reverse. Is back up alarm working?		33	Check grab handle mounting. Check all BR glass. Check & service hopper seal & sealbelt the same as the driver's seat. Check to ensure that all interior decals are legible & not damaged. Remove any unauthorized decals.	
7	Listen for noise, misfire, or rough idle. Visually check for excessive smoke. Proceed with test drive.		34	Check the mounting of the Read Dot unit. Lube all cables. Service A/C air filter. Wash out & reinstall. Replace only if damaged or defective. Ensure that drain tube is clear. Clean debris from drain pan. Reassemble.	
8	Check speedometer/odometer operation. Record road test end mileage.		35	Check hoppers door the same as driver's. Check entry step and grab handle to verify that they are secure. Verify that the mirror is on the inside of the hoppers door. Inspect fuel tank cap and gasket.	
9	Check the operation of all gauges. Note oil pressure, engine temperature, & fuel readings. Fuel Level <u>Full</u> Engine Temperature <u>180</u>		36	Inspect all exterior decals, truck numbers & permits. Remove any unauthorized decals. Note any damaged or worn decals on the follow-up sheet. Inspect body for damage. Notify Fleet Supervisor of any decal or body damage issues. Does truck need to be repainted? Yes (No Circle One) If yes, notify supervisor.	
10	Check the operation of the service brakes. Check the operation of the parking brake. Will the parking brake hold the vehicle from moving? Pump down air pressure to 60 PSI. Check to ensure that the low air warning buzzer and light are working. Do Violation if not working.		37	Lube rear door hinges. Check weather stripping. Clean out floor pockets. Check door stops, cables, pull straps, & slam locks. Are they working properly? Do not put vehicle back in service if any lock is not working properly. Initial here verifying that all locks are working properly. Int.	
11	Check to ensure that the transmission shifts through its range of operation.		38	Inspect front & rear bumper condition and mounting. Do both front & rear license plates have four (4) bolts securing them? If equipped. Inspect block heater plug for loose or damaged wiring. Secure as needed.	
12	Check steering action, left & right. Check horn operation. Ensure that the steering wheel is centered.		39	Inspect & lube hood pins. Inspect hood cables, springs, & inner hood panels. Inspect wiring on hood. Inspect electric horn. Secure any loose or hanging wiring.	
13	Check dimmer switch. Check turn signals & 4-way flashers. Does switch cancel?		40	Inspect cowl seal, wiper blades, arms, & root wiper. Check wiring to marker lights. Secure if needed	
14	Check the operation of the air conditioner, heater, & defroster. Check the operation of both front & rear units if equipped. Check both interior sun visors if equipped.		41	Inspect master cylinder and brake booster for leaks. Inspect lines & hoses. Top off reservoir.	
15	Check the permit holder for mounting & condition. Check to ensure that the registration, insurance card & permits are all current. Check the mounting & operation of all two way communication devices.		42	Inspect windshield washer reservoir for cracks. Top off the reservoir.	
16	Check the operation of the windshield wipers & wipers. Check the condition of all glass for cracks or glazing. Replace wiper blades if they do not wipe the windshield glass clean. Apply Plan-X to the exterior of all glass.		43	Check the oil level in both front hubs. Inspect the lug nuts & studs for looseness & rust	
17	Check all lights from driver's seat. Check high beam operation & indicator light. Check and repair all dash lights. Walk around vehicle & check all lights & mirrors at this time to ensure that they are working, mounted properly, & that none of the lights & mirrors are damaged or missing.		44	Check air pressure in both front tires. Any tire with less than 60 PSI is considered flat & should be removed or repaired. Adjust to 100 PSI as needed. Check tire tread depth. Determine lowest reading on the tire. Minimum is 5/32nds all tires. Record all readings on PM sheet. Check tires for any damage or defects. Inspect tires for cracks, rust, & hard hole alignment. Inspect axle hangers & nuts. Inspect rear tires the same way. Adjust pressure to 100 PSI & record readings on PM sheet. Torque all wheel nuts to specs.	
18	Inspect condition & operation of hood latches. Check condition & mounting of fender mirrors if equipped. Check hood for proper alignment. Check hood, grill, headlight, & turn signal lenses for damage.		45	Inspect the condition & mounting of steering box, steering shaft, hoses, & pump. Check fluid level. Jack up the front end of the truck and secure on jack stands. Record all brake lining readings now.	
19	Inspect the left steps & grab handles on left door. Inspect door hinges & lube. Check lock operation & lube locks. Open door & inspect the inside of door, weather stripping, door stops, & DVMR holder. Lube all locks & latches. Wipe off excess lube.		46	Check both kingpins. 1/8" maximum allowable play. Record LF <u>1/8</u> RF <u>1/16</u> Inspect wheel seats for leaks.	
20	Check the underside of dash for loose wires & connections. Secure as needed. Check pedal pads for wear, pedal shafts for side play, & the linkage for excessive wear. Lube all pivot points as required. Check brake booster for leaks.		47	Inspect condition and mounting of pitman arm, drag link, & steering arm. Are tires rubbing anywhere? Adjust steering stops if necessary. Check shock absorbers, mounting rubbers, & brackets.	
21	Inspect parking brake cable for wear, parking brake frame for cracks, general condition & mounting. Lube all linkage & cable pivot points. Is the center pin bent over & secure in the clevis pin?		48	Check front springs & all attaching components. Torque front U-bolts to specs. See attached chart	
22	Press the accelerator to full throttle. Get out of the vehicle & check throttle level for cracking over center. Check throttle lever spring & mounting bolt for wear & cracks. Spring loaded cable must have 1/4" load on it. #1 reason for low power complaints. Correct now if lever or spring is worn, broken, or cable is out of adjustment.		49	Inspect front crossmember, radiator support, and mounts. Inspect all coolant hoses, radiator for plugging, and weep hole in water pump for signs of leaking. Inspect front engine mount and wiring looms and hoses. Are they secure? Inspect transmission cooling lines for leaks. Ensure that lines are secure & not rubbing on frame or axle.	
23	With accelerator at full throttle, check modulator cable for proper adjustment. Correct adjustment is 1/8" at the accelerator pedal. Correct now if it is out of adjustment.		50	Inspect the tie rod ends and the rod tube for any damage or wear. Are joints in the rod ends tight?	
24	Check steering column condition & mounting brackets. Check the U-joint & yoke for looseness.		51	Inspect the entire engine for oil leaks. Inspect the turbo and exhaust outlet and pipe for signs of leaking oil.	
25	Check the condition of the floor mats. Are they properly secured?		52	Check the starter mounting and wiring connections. Inspect U-Strap on starter for rust or corrosion.	
26	Check the mounting condition of Safety Triangle. Secure the Triangle Kit to the floor behind the hoppers seat. Put Dunbar Taps around the Triangle kit box. Fire Extinguisher should be mounted on the wall behind the driver's seat. DOT violation if both are not mounted.				
27	Lubricate the seat, harness & pivot points with Silicone spray. Do not use Grease. Inspect the belt straps.				

T = Torque NE = Not Equipped ✓ = OK A = Adjusted C = Changed F = Follow Up Needed

TECH #	PM SERVICE OPERATIONS	WkAcc	TECH #	PM SERVICE OPERATIONS	WkAcc																																				
53	Inspect the rubber engine and transmission mounts. First indicates that the bolts are loose.	✓	78	Reconnect all battery cables, positive and first. Connect lead tester cables for the next test. Start the truck. With A/C on, increase the engine speed to 1000 RPM. Alternator output should be 13.8 to 14.2 volts. Record alternator output here. Apply dielectric grease to the ECM fuse & use holder in the battery box. DO NOT PUT ANY DI-ELECTRIC GREASE OR SPARK OF ANY SORT ON THE BATTERY CABLE ENDS. NO EXCEPTIONS.	✓																																				
54	Inspect the entire transmission for leaks including hoses and fittings. Check the transmission yoke and bearing for end play. Inspect fuel tank mounting brackets. Check tank breather. Is it clear?	✓	79	Test the freeze protection level of the coolant. Should be (-37 To -40 degrees) Record reading on sheet below adjusting to proper level. Protection Level DCA Reading 1500/3200 is OK.	✓																																				
55	Inspect the parking brake linkage and cable. Inspect the lining and record the remaining lining thickness. Record lining thickness here. Adjust parking brake NOW.	✓	80	Pressure test cap, inspect cap gasket. Pressurize coolant system to 20 lbs. Inspect for leaks. Check Rad Dot hoses for leaks at this time. Coolant system should not lose more than 1 lb in 5 minutes. Hold pressure on the system & inspect the entire coolant system for leaks. Cooled hoses, damaged or rotted radiator tubes or cooling fins. Hold pressure on the system until oil change is complete.	✓																																				
56	Check for any hanging wires, hoses, loose body bolts. Check hoses for the Red Dot for signs of leaks, deterioration, or rubbing.	✓	81	Drain the motor oil. Reinstall the drain plug & tighten NOW. Change the oil filter. Inspect the condition of the oil fill cap and gasket. Refill the crankcase with the proper amount of oil. Start the engine & run until oil pressure rises to normal level. Shut engine off & check oil level. Top off as needed. Do not change the level until you have run the engine after the oil has been changed.	✓																																				
57	Carefully inspect fuel tank mounting brackets for cracks and loose mounting bolts. Check for damage to the tanks or brackets. Notify supervisor of any problems. Drain water from the fuel tank NOW.	✓	82	Remove transmission spin-on filter. Remove magnet & clean. Reinstall magnet & new spin-on filter.	✓																																				
58	Inspect the exhaust system for leaks, broken mounting brackets, missing clamps, and rotted pipes.	✓	83	Clean fuel strainer and replace fuel filter. Start engine & run until oil pressure is normal. Check transmission fluid level. Shut off engine & recheck engine oil level. Check radiator pressure tester and record reading now. 32	✓																																				
59	Inspect the driveline for looseness in the U-joints. Inspect the center bearing for looseness and cracked mounting brackets. Inspect the slip yokes for wear. Minor wear is ok. Talk to supervisor before replacing.	✓	84	Grease the entire chassis. Kingpins & dresshaft U-joints must purge grease from both ends of the kingpin & from all four bearing cups. If any do not purge, correct at the end of the PM inspection.	✓																																				
60	Check rear spring and all attached components for cracks and wear. Torque U-bolts to specs. NOW SEE ATTACHED CHART FOR PROPER TORQUE SPECS.	✓	85	Perform visual and hand inspection of the tires. Slide your hand across both front tires. Any sharp edges indicate a toe adjustment problem. Paint a white stripe in the center of both front tires. Scribe a sharp line in the painted area. Remove the jack stands & set the entire truck back on the ground. The front tires should be set on jacked up plastic trash bags. Check toe-in & adjust if needed. Toe should be set 0 to 1/32" toe-in. Retorque pinch bolts when adjustment is complete.	✓																																				
61	Inspect the pinion seal for leaks. Seeps are not leaks. Dampness is not a leak. Check the rear wheel seals for signs of leaks. Fill the differential with the proper oil. Remove & clean the axle breather vent.	✓	86	Check entire truck, & remove any grease from handsets, steering wheel, seals, & any other surface.	✓																																				
62	Inspect the rear mud flaps. Should be straight and level. Inspect the wiring and back up alarm mounting.	✓	87	Install a new FMCSR/PMI Slicker at every PM service. Slicker should have the unit #, mileage, month & year, PM service performed, and antifreeze check areas punched. Initial here that slicker has been installed correctly.	✓																																				
63	Inspect the rear bumper for any broken welds or mounting bolts.	✓	88	Road Test Unit before it is returned to service. Road Test Completed Int. <u>STMS</u>	✓																																				
64	Check air cleaner restriction gauge and record reading. <u>5</u> Air Filters are not to be changed until they reach 18" of restriction. Check the gauge to ensure that it is not cracked, broken, or missing. DO NOT REMOVE FILTER AND BLOW IT OUT WITH AIR OR TAP IT ON THE GROUND TO REMOVE DIRT. <u>BOX BRAKE</u>	✓	89	Record Tire Pressures As Read, Not Adjusted. Record Tread Depth At The Lowest Spot on The Tire.	✓																																				
65	Inspect the fan for damage or loose blades. Shake the fan to check for looseness in the fan clutch. Check the fan hub bearing. Check the belt tensioner for looseness and noise. Check the water pump bearing for end play. Inspect all belts for wear or cracking. Replace any belts that are cracked NOW. Cheaper to replace belts now than on the road.	✓		Record the Lowest Brake Lining Reading From Each Wheel Position. Record all Readings in 32nds, NOT Percentages.	✓																																				
66	Torque the alternator mounting bracket bolts to the proper specifications. Torque the alternator bolt to proper specs. Check the A/C compressor mounting bracket for looseness. Torque the compressor mounting bolts to specs.	✓		<table border="1"> <tr> <td colspan="2">B</td> <td colspan="2">B1</td> </tr> <tr> <td>10</td> <td>100</td> <td>7</td> <td>12 100</td> </tr> <tr> <td>32nds</td> <td>32nds</td> <td>32nds</td> <td>32nds</td> </tr> <tr> <td colspan="2">A</td> <td colspan="2">D</td> </tr> <tr> <td>8</td> <td>100</td> <td>1</td> <td>12 100</td> </tr> <tr> <td>32nds</td> <td>32nds</td> <td>32nds</td> <td>32nds</td> </tr> <tr> <td colspan="2">C</td> <td colspan="2">H</td> </tr> <tr> <td>0</td> <td>100</td> <td>0</td> <td>12 100</td> </tr> <tr> <td>32nds</td> <td>32nds</td> <td>32nds</td> <td>32nds</td> </tr> </table>	B		B1		10	100	7	12 100	32nds	32nds	32nds	32nds	A		D		8	100	1	12 100	32nds	32nds	32nds	32nds	C		H		0	100	0	12 100	32nds	32nds	32nds	32nds	✓

0	100	0	12 100																																						
32nds	32nds	32nds	32nds																																						
67	Check the routing of the A/C lines to ensure that they are secured properly & not chaffing. Secure NOW.	✓			✓																																				
68	Evacuate all Freon from the A/C system. Record amount of Freon removed. <u> </u> Lbs. <u> </u> Oz. Recharge with the proper amount of Freon. REFER TO FREON CHARGE SHEET. Record amount of Freon charged to the system. Lbs. <u> </u> Oz. Install dust caps on both charge ports. All A/C line fittings must be clamp style. HOSE CLAMP FITTINGS NOT PERMITTED ON A/C SYSTEM. Test run A/C system. Does the compressor clutch operate? Circle One YES NO	✓			✓																																				
69	Check the hose clamps on the air intake system. Should be spring loaded clamps, not regular hose clamps. Inspect all of the piping & hoses for the intake system.	✓			✓																																				
70	Inspect the exhaust manifold for leakage, looseness, & broken bolts.	✓			✓																																				
71	Inspect the A/C dryer mounting. Replace the pressure switch wire ends with a fully enclosed and if not already equipped, NO LOOSE OR EXPOSED WIRE END CONNECTORS.	✓			✓																																				
72	Check the injector lines for leaks & or missing clamps. All steel lines must have steel clamps & rubbers in place & must be tight & secure.	✓			✓																																				
73	Inspect all seals on the injection pump. Check all fuel supply lines for chaffing and dry rot. Check the fuel solenoid wiring connections for corrosion. Replace rubber boot on solenoid if cracked or missing. Lubricate injection pump linkage with silicone spray. Check all HP Oil Pump lines for signs of leaks.	✓			✓																																				
74	Inspect the fuel cable linkage at the injection pump for mounting, chaffing, & wear. Replace now if worn or damaged. Check and lube the cable ends & ball stud with silicone spray. Check throttle lever for loose mounting bolts & broken spring in the lever. Push pedal to the floor & check to ensure that the cable is loaded on the spring at full throttle. #1 Cause of low power complaints on mechanical engines.	✓			✓																																				
75	Remove battery cables from all batteries, negative end first, & clean the ends with a stainless steel wire brush. Check the cables for chaffing, rubbing, proper routing. Ensure that the cables are secured properly.	✓			✓																																				
76	Load test each battery individually. If you have a CARBON PILE load tester use the following procedure. Load last each battery to 1/2 of its CCA rating. Battery voltage should not drop below 9.2 Volts. Remove from truck if voltage drops below 9.2 Volts.	✓			✓																																				
77	If you have a new Electronic tester, follow the manufacturer's directions. All batteries are to be tested as a group and individually with the new tester. Attach print out of the test to the PM Sheet.	✓	92	I have checked all of the above. I am fully trained on FMCSR requirements. I have properly repaired all safety defects, and understand that they contribute to the safe and reliable operation of this vehicle, and the liability on board from being put in harm's way.	✓

Meter Replacement Program – Completed (Budgeted for 400 meters)

Additional Items

2020 Sewer inspection continues. For August, 3,071 ft has been camera inspected. No major issues detected.

Public Works began using the Asset Essentials software for their work order and progress needs.

Replaced 7 faded or peeling “no Parking” and “stop” signs in city.

Curb patched 7 residential curbs using 15 – 80lbs bags of concrete: Pothole repairs using 14 tons mix.

Office of State Courts Administrator, Statistics, 2112 Industrial Drive, P.O. Box 104480, Jefferson City, MO 65110

GRAIN VALLEY PARK BOARD
MINUTES
July 21, 2020

Meeting called to order at 7:12 P.M. by Vice President Brian Bray.

ROLL CALL:

PRESENT: Brian Bray (Vice President), Don Caslavka, Jared English, Terry Hill, Chuck Harris, Alderman Jayci Stratton, Shannon Davies (Director)

ABSENT: Brad Welle (President), Becky Gray (Secretary), Norm Combs, Nathan Hays

CONSENT AGENDA:

- a. **APPROVAL OF MINUTES:** Motion by Jared English and seconded by Chuck Harris to approve the June Minutes. Motion carried.

TREASURER'S REPORT:

- a. **REVIEW OF ACCOUNTS PAYABLE/EXPENDITURES/REVENUES:** Shannon highlighted and explained the more notable expenditures. Year-to-date revenues/expenses were also reviewed.

CITIZEN COMMENTS: none

COMMITTEE REPORTS:

- a. **Veteran's Tribute** – Jared English
 - i. Jared reported that the POH Committee is looking at a date in October to dedicate the site back to the parks department.

OLD BUSINESS:

- a. **Capital Improvements Plan (CIP) 2021-2025** – Dick Tuttle/Shannon Davies
 - i. Shannon distributed the draft for final review/discussion. It will now go before Planning and Zoning and then on to the Board of Aldermen for adoption.

- b. **Blue Branch Creek Trail Project (Phase 2) Update** – Shannon Davies
 - i. Final permitting for right-of-way is being completed for the bridge.
 - ii. In the process of getting the Phase 1 portion of the trail as well as the trail section that will connect at the dead end of Cross Creek Drive to the school district boundary, recorded as a city easement.
 - iii. CFS will be providing us a cost estimate for Construction Management of the project.
 - iv. CFS is shooting to have the Scope of Services pulled together within the next 3-4 weeks so that we can put the project out to bid.

- c. **Dillingham Trail Connector Project Update** – Shannon Davies
 - i. The water line portion of the project has been completed.
 - ii. Blue Nile is currently cutting-in the trail and laying the base rock.

- d. **Park Board By-Laws** – Group Discussion
 - i. The board reviewed the proposed revisions to the Park Board By-Laws for the last time.
 - ii. Chuck Harris made a motion to approve the updated Park Board By-Laws. Second by Don Caslavka.

- e. **Park Ordinance “Sale of Services/Merchandise” Review** – Group Discussion
 - i. The proposed language for the revisions of this ordinance were discussed.
 - ii. There was some ambiguity in what we would allow when an entity has partnered with the Parks and Recreation Department when charging for and providing a service, versus an entity providing services that has no affiliation with the department or city on park property.
 - iii. Shannon will address this language and then have the City Administrator and City Attorney review it before the next Park Board meeting.

- f. **Christina “Kiki” Claphan Memorial** – Shannon Davies
 - i. Nothing new to report.

NEW BUSINESS:

- a. **No New Business**

DIRECTOR’S REPORT

1. **Operational Updates**

- a. COVID-19 – Shannon provided some operational updates as it relates to COVID-19. We have slowly started reopening facilities and amenities but still with restrictions. Face masks are required at the Community Center and Aquatic Center.
- b. Staff had started working on the development of the 2021 Budget.
- c. Registration is underway for the Fall, Youth Baseball/Softball season.

2. **City Updates**

- a. Due to COVID-19, there have been several special event cancellations and changes. Both the annual Community Development and Night Out on Crime events have been cancelled for this year. All of our Movie in the Park events have been cancelled. As far as the annual Fair, there will still be an event, but we will only have food truck

vendors and merchandise vendors. There will be no carnival rides/games. They are still planning on having the 5K Run but there will be no parade.

3. Past/Current Programs/Special Events

- a. Senior Citizen Fitness Classes
- b. Group Swim lessons
- c. Private Swim lessons

4. Upcoming Programs/Special Events

- a. Movie in the Park (Onward) – 8/7

TOPICS FOR NEXT MEETING:

- a. Blue Branch Creek Trail (Phase 2) Project
- b. Dillingham Trail Connector Project
- c. “Sale of Merchandise/Services” Ordinance
- d. Christina “Kiki” Claphan Memorial

ADJOURNMENT:

Motion by Chuck Harris, seconded by Jared English, to adjourn. Motion carried.

Meeting adjourned at 8:10 P.M.

Next regular meeting will be August 18, 2020.

INTENTIONALLY LEFT BLANK
