

**CITY OF GRAIN VALLEY
PLANNING & ZONING COMMISSION
REGULAR MEETING AGENDA
March 10, 2021 at 6:30 P.M.
OPEN TO THE PUBLIC**

Join Zoom Meeting:

<https://us02web.zoom.us/j/89859887348?pwd=MWQ0TIJFY2cvbXdxMVRqRnQxVXB2dz09>

Meeting ID: 898 5988 7348

Passcode: 692412

Dial in number if not using your device's built-in audio: (312) 626-6799

ITEM I: CALL TO ORDER

ITEM II: ROLL CALL

ITEM III: APPROVAL OF MINUTES

- January 13, 2021 Regular Meeting

ITEM IV: PUBLIC HEARINGS

1. **The Vacation of 50-foot right-of-way between 215 and 303 Front Street**– Jerry Simmons (215 Front Street) and Maranda Saunders (303 Front Street) are requesting that the 50-foot right-of-way for Capelle Street between these two properties be vacated since it serves no public interest and that it can be used by the adjacent property owners. The description is the platted right-of-way between Lot 8, Block 5 of the Graves & Ashcraft's Addition (215 Front) and Lot 1, Block 2 of the Finnell's Addition (303 Front), from Front Street on the north to the Kansas City Southern Railroad ROW on the south, all within the City limits of Grain Valley, Missouri.
2. **Capital Paving and Construction Materials** – Requesting a Conditional Use Permit to operate a portable asphalt plant on approximately 14.3 acres that is generally located at the northeast corner of McQuerry and Seymour Roads, 1101 and 1107 S. Seymour Road, Grain Valley, Missouri. The property owner is A4 Holdings LLC. The property is zoned District M-1 (Light Industrial) and District A (Agricultural). Capital Paving will use the portable asphalt plant to pave several MoDOT highway projects during the year.

ITEM V: ACTION ITEMS

1. **The Vacation of 50-foot right-of-way between 215 and 303 Front Street**– Jerry Simmons (215 Front Street) and Maranda Saunders (303 Front Street) are requesting that the 50-foot right-of-way for Capelle Street between these two properties be vacated since it serves no public interest and that it can be used by the adjacent property owners. The description is the platted right-of-way between Lot 8, Block 5 of the Graves & Ashcraft's Addition (215 Front) and Lot 1, Block 2 of the Finnell's Addition (303 Front), from Front

Street on the north to the Kansas City Southern Railroad ROW on the south, all within the City limits of Grain Valley, Missouri.

2. **Capital Paving and Construction Materials** – Requesting a Conditional Use Permit to operate a portable asphalt plant on approximately 14.3 acres that is generally located at the northeast corner of McQuerry and Seymour Roads, 1101 and 1107 S. Seymour Road, Grain Valley, Missouri. The property owner is A4 Holdings LLC. The property is zoned District M-1 (Light Industrial) and District A (Agricultural). Capital Paving will use the portable asphalt plant to pave several MoDOT highway projects during the year.
3. **FY2022 – FY2026 Capital Improvement Plan** – The Five-Year Plan provides information for planned infrastructure improvements and major capital purchases with anticipated funding and identifying potential funding sources. The CIP is not a static document, but rather, a fluid document that can be changed as the City’s infrastructure and requirements change, development occurs, and funding opportunities become available or change.

ITEM V: PREVIOUS BUSINESS

- **Tabled from January 13, 2021 meeting: Election of Officers –**
Chairperson
Vice Chairperson
Secretary

ITEM VI: NEW BUSINESS

ITEM VII: ADJOURNMENT

PLEASE NOTE

The next scheduled meeting, if needed, of the City of Grain Valley Planning & Zoning Commission will take place on April 14, 2021 at 6:30 pm.

PERSONS REQUIRING AN ACCOMMODATION TO ATTEND AND PARTICIPATE IN THE MEETING SHOULD CONTACT THE CITY CLERK AT 816-847-6210 AT LEAST 48 HOURS BEFORE THE MEETING. UPON REQUEST, THE MINUTES FROM THIS MEETING CAN BE MADE AVAILABLE BY CALLING 816-847-6210.

ITEM I: CALL TO ORDER

- The Planning & Zoning Commission of the City of Grain Valley, Missouri, met in Regular Session on January 13, 2021 via video conference of the Commissioners because of the social distancing order due to the COVID-19 pandemic.
- The meeting was called to order at 6:30 PM by Vice Chair Craig Shelton.

ITEM II: ROLL CALL

- *Present: Paul Loving*
- *Present: Elijah Greene*
- *Present: Craig Shelton*
- *Present: Scott Shafer*
- *Present: Justin Tyson (joined the conference call at 6:34PM)*
- *Absent: Debbie Saffell*
- *Absent: Kevin Browning*
- *Absent: Bob Headley (BOA Liaison)*
- ***There was a quorum.***

ITEM III: APPROVAL OF MINUTES

- Commissioner Loving motioned to approve the minutes from the November 18, 2021 regular meeting. Commissioner Shafer second the motion. The Commission approved the minutes by vote 4-0.

ITEM IV: PUBLIC HEARINGS

1. **Kustom Cruzers** – Requesting a Conditional Use Permit for a vehicle salvage/tow yard on approximately 1.4 acres. The Property is zoned Downtown/Transition Overlay District. The 1.4 acres is generally located 250 feet west of Jefferson Court on the north side of Jefferson Street lying in the west one-half of the southwest quarter of Section 26, Township 49, Range 30 in the City of Grain Valley, Missouri aka 350 NW Jefferson Street.
 - Director Trosen reviewed the Staff Report. Staff recommends approval.
 - Chair Shelton asked if there was anyone on the call that wanted to talk about this request. There were none.
 - Commissioner Loving asked if the current fence complies with the current zoning regulations. Director Trosen replied yes.

Page 2 of 8

- Commissioner Loving asked did they file a development plan when they moved to Jefferson Street. Director Trosen stated that it would be helpful if the applicant would be on the call because according to the applicant, they were told by the City back then that they could move the business and the permit was still good. We informed the applicant that the code back then and now states that a permit can not be transferred to a different parcel of land.
- Commissioner Loving asked if the correct situation is to issue a new conditional use permit. Director Trosen responded yes.
- Commissioner Loving commented on the eastern gateways of the City we have piles of concrete and in his opinion are not good looks for the community. He said having a salvage/tow lot at the west side of the Buckner Tarsney exit with I-70 is not a good land use for the city. The only way he would consider approving the CUP is if the Commission would impose a condition of a one-year permit so that we can come back and observe the appearance of how the applicant has maintain the yard.
- Commissioner Tyson said that his concern is that currently the lot backs up to an empty lot now and he does not have a problem. However, with Mercado Plaza being developed Jefferson [Bush] Street will be extended to the east and with a road being back there, this lot will now have frontage in the backyard. He also brought up the environmental concern with wrecked vehicles leaking oil and anti-freeze or other liquids onto the ground.
- Laura Pearce joined the conference video call. Chair Shelton recognized Laura and explained to her that we were in the middle of the public hearing and would like to her from her what her plans were for the salvage/tow lot.
- Laura Pearce stated she is the owner of Kustom Cruzers with her husband. She said that they have been at 350 Jefferson since 2005 and in business since 2003. They use the lot as the City impound lot in addition to operating their business as an auto repair collision center. She said that she heard the concern regarding vehicles leaking and said that 99% of vehicles that they get are dry.
- Commissioner Loving asked Mrs. Pearce how they moved the business and the process. Mrs. Pearce said that Greg Ford with the City told them that the CUP moved from the Squire Court location to the Jefferson Street location. Mrs. Pearce said they developed both lots at the same time they moved to the Jefferson Street location.
- Commissioner Loving asked Director Trosen if the 1.4 acres represents the size of the parcel or just the fence area. Mr. Trosen replied that there are two parcels and that the 1.4 acres represents the size of both parcels.

Page 3 of 8

- Chair Shelton asked will we see any salvage cars stored south of the fence area. Mrs. Pearce responded no.
- Chair Shelton said there are plans for a street to extend and be behind your property allowing your rear parcel to have frontage to that new street. Do you have plans to have a new driveway with that new street? Mrs. Pearce said at this time the only entrance is the current driveway they have with Jefferson Street.
- Commissioner Tyson said that a six-foot fence may not be enough screening and that a planting of trees along the north property line should be considered as a condition.
- Commissioner Tyson said that he would like to talk to the owner of the Mercado property regarding his thoughts on this use and the impact on his development for the record. Director Trosen responded that staff sent letters to property owners within 185 feet of this CUP area. He said that Robert De La Fuente responded in an email on behalf of the Mercado Development and stated that since this was an existing use, they would not be opposed to it.
- Commissioner Tyson wanted to clarify that salvage and tow are two different uses. He wants to remove the salvage and only allow the tow services. Mrs. Pearce said that she was fine with that. They had no intention of operating a salvage lot.
- Commissioner Shafer asked how long they been there and if they went through the Board. Mrs. Pearce said they had been there for 15 years and that they were told by Greg Ford with the City that their permit transferred with their move to a new location if they had a fence and hard surface.
- Chair Shelton asked Director Trosen how long are Conditional Use Permits for or can the Commission dictate that. Director Trosen responded that the Commission can establish a time duration.
- Commissioner Greene asked how they operated for 15 years without having a conditional use permit or how was this discovered now. Director Trosen stated that in reviewing the City's contract to tow vehicles, the towing contractor was using this lot for impound. We researched and found that there was no conditional use permit for this location to operate a tow yard.
- Commissioner Loving asked if the City gets any revenue off this business. Mrs. Pearce said that she does not charge fees, the towing service charges fees. Mrs. Pearce gets a storage fee if the customer releases the vehicle to Kustom for repair. Kustom gets no money from the City.

Page 4 of 8

- Chair Shelton asked Mrs. Pearce to talk about the visits from the EPA and the documentation. Mrs. Pearce said they mainly looked at the disposal of hazardous waste material, waste oil and waste anti-freeze. Kustom must keep records on how these items are handled.
 - Commissioner Tyson asked City Engineer Tuttle what his experience was in this area being the genius engineer he is. City Engineer Tuttle said that an industry is required to document waste disposal and to maintain records. He is updating the city's permitting requirements for storm water permits and part of that is to look at industries that would cause water pollution and this type of yard would fall under that permit category and be open to inspection by the City.
 - Commissioner Tyson made a motion to close the public hearing. Commissioner Shafer second the motion. The Commission approved the motion by a vote of 5 to 0.
2. **Eagle Convenient Storage** – Requesting an amendment to an approved Conditional Use Permit (Ordinance 2448) to change the exterior building materials, roof pitch and roof color on unit storage buildings in Phase 2. The convenience storage facility is located on a 3.13-acre lot described as Lot 1 in Risinger Hills, lying in the northwest quarter of the southwest quarter of Section 35, Township 49, Range 30 in the City of Grain Valley, Missouri aka 114 SW Eagles Parkway.
- Director Trosen reviewed the Staff Report. Staff has no objection to change the pitch of the roof or the color of the roof. However, Staff is not in favor of the requested change to the exterior building material from the lap siding on the upper wall section and the stacked stone on the lower wall section to all painted metal exterior siding.
 - Commissioner Shafer stated that he had no objections to the first two requests but asked the applicant why you want to change the materials since what he did in phase 1 looks good. The applicant, Chad Risinger said that it was very expensive. However, he also said that with lot 2 in front of these buildings that when something is built on that lot, that structure would need to comply with the exterior building material requirements and would shield storage unit buildings 9 and 10.
 - Commissioner Tyson asked the applicant if he would do the stacked stone half-way up and then the metal panel the upper half. Tyson explained what if the two houses get torn down and nothing gets built for several years. Mr. Risinger said that he could do that.
 - Chair Shelton asked if this was only for buildings 9 and 10. Mr. Risinger said yes. Chair Shelton said then what is the plan for the storage buildings along the north property line

because we heard from neighbors with concerns. Mr. Risinger said that the privacy fence and additional trees will still be done and that the buildings were always going to be metal.

- Commissioner Shafer asked Mr. Risinger if he was good with Commissioner Tyson suggestion. Mr. Risinger said yes.
- Commissioner Shafer made a motion to close the public hearing. Commissioner Tyson second the public hearing. The Commission voted 5 to 0 to approve the motion.

ITEM V: ACTION ITEMS

1. **Kustom Cruzers** – Requesting a Conditional Use Permit for a vehicle salvage/tow yard on approximately 1.4 acres. The Property is zoned Downtown/Transition Overlay District. The 1.4 acres is generally located 250 feet west of Jefferson Court on the north side of Jefferson Street lying in the west one-half of the southwest quarter of Section 26, Township 49, Range 30 in the City of Grain Valley, Missouri aka 350 NW Jefferson Street.
 - Commissioner Tyson suggested a one-year term to allow her to continue her business; allow Dick to look at the storm water runoff permit for that area and see where we are with the street running behind the property.
 - Chair Shelton asked Commissioner Tyson if he also wanted to remove salvage from the allowable use of the permit and only allow a tow lot. Commissioner Tyson said yes.
 - Commissioner Shafer agreed with the duration and the conditions suggested by Commissioner Tyson.
 - Chair Shelton agreed with the no driveway although he originally was thinking the term could be five years, he has no objection to the suggested one-year term.
 - Mrs. Pearce asked about the cost of permit if it expires in one year. Director Trosen explained that the cost to renew the permit would be \$500. Mrs. Pearce voiced her concern for a one-year permit for \$500.
 - Commissioner Tyson made a motion to approve the conditional use permit for a period of one year subject to: 1) the property shall not be used for salvage and only a tow yard; and 2) no driveway will be allowed to access the property on the north side when NW Bush Street is extended. Commissioner Shafer second the motion. The motion was approved by a vote of four in favor (Shafer, Loving, Shelton and Tyson) and one against (Greene).

2. **Eagle Convenient Storage** – Requesting an amendment to an approved Conditional Use Permit (Ordinance 2448) to change the exterior building materials, roof pitch and roof color on unit storage buildings in Phase 2. The convenience storage facility is located on a 3.13-acre lot described as Lot 1 in Risinger Hills, lying in the northwest quarter of the southwest quarter of Section 35, Township 49, Range 30 in the City of Grain Valley, Missouri aka 114 SW Eagles Parkway.
- Commissioner Tyson stated that he has no issue on the roof pitch, no issue on the roof color, but if we could compromise on the building exterior if the stoned stack could come up half-way and then allow the metal panel on the upper half. Tyson asked Mr. Risinger if he was ok with that. Mr. Risinger responded yes.
 - Commissioner Shelton asked what the applicant was requesting. Mr. Risinger responded all metal siding. Mr. Risinger said there will be no changes to the other buildings in the rear on phase 2.
 - Commissioner Loving asked since he is amending an ordinance should this go to the BZA. Director Trosen responded that he is amending his approved CUP which was approved as an Ordinance by the BOA. He is not requesting a change to the City's Code of Ordinances like the Zoning Regulations, which would require BZA approval.
 - Chair Shelton asked what the timeline is to develop lot 2. Mr. Risinger responded that he has discussed developing lot 2 with staff and talked about a tunnel car wash but does not have a definite schedule.
 - Commissioner Tyson made a motion to approve an amendment to the Conditional Use Permit in Ordinance 2448 that would allow the following: 1) The roof pitch on buildings 9 and 10 will be ½ /12; 2) All buildings with ½ /12 pitched roof will have a galvalume finish; and 3) Buildings 9 and 10 will have the painted metal exterior siding on the upper wall section and the lower wall section will be the Choctaw Tumbled Stacked Stone. Commissioner Loving second the motion. The Commission approved the motion by a vote of 5 to 0.
3. **Site Plan - Panda Express** - The drive-thru restaurant will be located on the northeast corner of the Interstate 70 westbound exit ramp and Buckner Tarsney Road on Lot 1 of Grain Valley Marketplace No. 3, a replat of Lot 10, Grain Valley Marketplace, lying in the southwest quarter of Section 26, Township 49, Range 30, in the City of Grain Valley, Missouri.
- Director Trosen reviewed the staff report. City Engineer Tuttle reviewed the improvements to Sunny Lane. Staff recommends approval.

- Eric Abeln spoke on behalf of Panda Express. He said the owners of Panda Express are graduates of University of Missouri and therefore are vary familiar of the I-70 corridor and this site. He talked about the exterior building materials and the uniqueness of this site.
- Commissioner Loving asked if this was a normal size store for Panda Express. Mr. Abeln responded that it is the typical size store. They can fit 70 seats in this store. Also, able to stack 15 cars in the drive-thru lane.
- Chair Shelton asked if there was a driveway entrance from Buckner Tarsney. Mr. Abeln responded that the entrances are from Sunny Lane only and there is a cross access with the Taco Bell.
- Commissioner Greene commented that the driveways looked good as well as the location of the dumpsters. The layout is so much better than the Burger King.
- Chair Shelton asked about the landscaping. Mr. Abeln discussed the landscaping and stated mainly shrubs because of the overhead and underground utility lines makes the placement of trees difficult.
- Commissioner Tyson made a motion to approve the site plan for Panda Express. Commissioner Shafer second. The motion was approved by a vote of 5 to 0.

ITEM VI: PREVIOUS BUSINESS

- None

ITEM VII: NEW BUSINESS

- **Election of Officers:**
 - Chairperson**
 - Vice Chairperson**
 - Secretary**
- Director Trosen stated that according to City Ordinance, at the first meeting following January 1 of each year, the Commission shall elect a Chairperson and Secretary. The Commission may also elect a Vice Chairperson.
- Chair Shelton commented that he would prefer to wait and hopefully at the next meeting all the Commission members would be present for the election. Several other Commissioners agreed.
- Commissioner Loving made a motion to table elections to the next meeting. Commissioner Shafer second the motion. The motion was approved by a vote of 5 to 0.

Staff Report

**Vacation of 50-foot right-of-way (Capelle Street) between 215 and 303 Front Street
March 10, 2021**

ACTION:

Jerry Simmons (215 Front) and Maranda Saunders (303 Front) are requesting that the 50-foot platted right-of-way between these two properties be vacated.

PURPOSE:

If platted right-of-way is vacated, each property owner will be given 25 feet along the adjacent property line.

ANAYLSIS:

The 50-foot right-of-way was described in the Finnell's Addition plat that was recorded in 1885.

The following utility companies have responded that they have no objection to the proposed vacation:

- Spire (Gas)
- Evergy (Electric)
- Comcast (Cable TV)
- City of Grain Valley (Water/Sewer).

There are no public improvements within the platted right-of-way.

No private rights will be unreasonably injured or endangered. The public will suffer no unreasonable loss or inconvenience.

The proposed right-of-way vacation does not adversely affect properties in the general vicinity.

The platted right-of-way no longer serves a public purpose.

PUBLIC INFORMATION AND PROCESS:

Public Notice was given in the Examiner and by letter to property owners of record with the County within 185 feet of the proposed vacation of alleyway.

STAFF RECOMMENDATION:

Staff recommends approval of the right-of-way vacation.

FINNELL'S ADD.

-40-
Grain Valley.

Filed 5-1-1885
at 9:15 A.M.
B2-93

[Scale 60' to 1']

Description: -

Beginning 50 feet West and 50 feet North of the northwest corner of Block 2, James' Addition according to the town of Grain Valley Mo. and running thence West from said point 1105 feet; thence South 597 feet to the right of way of the N. E. St. L. & C. R. R.; thence North-easterly, along the line of said right of way, 1571 feet to the west line of Capelle Street; thence North 551 feet to the beginning.

Magnetic Variation on Call line 6° 58' East, with a small July transit.

Note - Finnell Addition was once part of the original Addition of Frank Coker's as described and set forth in Plat Book 2, Page 15, Recorder's Office, Independence, Jackson County, Missouri.

Witness - having by a very careful survey established the S. E. cor. of S. 7 1/2 of N. 7 1/2 of Sec. 35, T. 20, R. 20, and placed marked line stone 2 1/2 x 1 1/2 x 5/8 inch dimensions and took for reference for said corner a Maple 2 1/2 x 1 1/2 x 120 inches, complying with 805 Statute, & began from this fixed monument at a distance (by a steel standard measure) 500 feet North and 600 feet West and surveyed out Finnell Addition according to the accompanying plat which is a part and parcel of this paper.

April 13th, 1885

Rayette A. Jones, Deputy Co. Surveyor
Jackson County, Missouri

S. John K. Finnell, sole owner and executor of the above described land, here causes the same to be surveyed and divided into lots as shown above, which subdivisions shall be known as Finnell's Addition to Grain Valley. All these lots and alleys are hereby dedicated to the use of the public forever.

Given under my hand and seal, May 1st, 1885
John K. Finnell

State of Missouri
County of Jackson
Personally appeared John K. Finnell to me known to be the person whose name is subscribed to the foregoing instrument, and acknowledged to me that he executed the same as his free act and deed.
In Testimony Whereof, I have hereunto set my hand and affixed my official seal at my office in Independence, Mo. this day and year aforesaid.
My term expires June 4th, 1896.

Staff Report
Conditional Use Permit to operate a portable asphalt plant.
March 10, 2021

ACTION:

Capital Paving and Construction Materials is requesting a conditional use permit to operate a portable asphalt plant on approximately 14.3 acres that is generally located at the northeast corner of McQuerry and Seymour Roads, 1101 and 1107 S. Seymour Road.

BACKGROUND:

The property owner is A4 Holdings LLC. A4 Holdings LLC has given permission to Capital Paving to operate an asphalt plant on their property and stipulated that Capital Paving is responsible for acquiring the needed permits to operate within the City's guidelines.

PURPOSE:

To allow the operation of a portable asphalt plant that will be used to resurface designated state highways. Capital Paving has been selected by Missouri Department of Transportation to pave several highway projects during 2021. Capital Paving will haul by truck, aggregate to the site to produce hot asphalt mix that will then be hauled to the roads that are being paved. The roads include Interstate 70 from generally Missouri 7 Highway to Oak Grove, Route 224 (which is generally from Highway 24 to Lexington; 15 miles from this site) and Route 245 bridge (which is by Stockton Lake and Dadeville, Missouri, 140 miles from site).

Capital Paving will start operating the plant around May 2021 through November 2021. When Capital Paving has completed the MoDOT projects, they will remove the plant. Capital Paving is asking that the plant be open 7 days a week, 24 hours a day.

The asphalt plant would use around 30 dump trucks. According to Capital Paving, the trucks will be turning at a rate of 125 turns every 24 hours. This means that 125 trucks will be coming to the site and 125 trucks will be leaving the site in a 24-hour period, 7 days a week.

McQuerry Road currently sees truck traffic but not this volume. Even though the asphalt plant will only be open 7 months, this would be more than 3 years' worth of truck traffic on the road.

ANALYSIS:

This proposed land use is found under Conditional Uses, Section 400.240 in the City's zoning regulations. An asphalt plant is allowed by conditional use for a limited time not to exceed ten (10) years, subject to regulations and restrictions recommended by the Planning & Zoning Commission and prescribed by the Board of Aldermen.

The 14.3 acres is comprised of two tracts. Tract I is zoned District M-1 (Light Industrial) and is approximately 2.8 acres in size. This tract is platted as Lot 1, Sni-A-Bar Industrial Park

Page 2, Staff Report

subdivision. There are three buildings on this tract. One of the buildings is the office for Summit Trucking and Legacy Iron LLC. Legacy Iron specializes in buying, selling, or trading heavy construction equipment, trucks, trailers, and agricultural equipment.

Tract II is zoned District A (Agricultural) and is approximately 11.5 acres in size. This property has not been platted and there is one building on this tract.

The Board of Aldermen adopted Ordinance 2490 on December 9, 2019 approving a conditional use permit for a concrete crushing and recycling facility on this property.

Regarding surrounding land uses, the property to the north and east are undeveloped. Interstate 70 is south of this property. To the west, the property is zoned District M-1 and is owned by Cities Service Gas Company. To the north and west of that property is the Creekside residential PUD.

PUBLIC INFORMATION AND PROCESS:

Public notice was given in the Examiner and by letter to property owners of record within 185 feet of the applicant's property.

STAFF RECOMMENDATION:

If the Planning and Zoning Commission recommends approval, then Staff recommends that the Conditional Use Permit be subject to the following conditions:

- 1) The Conditional Use Permit will expire one year from the date of the Board of Aldermen ordinance.
 - 2) The operation of the asphalt plant shall only occur during the week, Monday through Friday.
 - 3) The ingress and egress access for trucks delivering aggregate for asphalt plant or hauling hot asphalt from site shall be from drive east of McQuerry Road. Seymour Road should not be used.
 - 4) The location of the asphalt plant and stockpile areas shall be in accordance with the site plan filed with the application.
 - 5) Prior to operating the asphalt plant, the applicant, with Staff present, shall video and assess the current condition of McQuerry Road.
-

*Community Development
Mark Trosen, Director*

Page 3, Staff Report

- 6) After the asphalt plant closes, the applicant shall repair all damage to McQuerry Road identified by Staff or if damage is too substantial, mill and 4-inch asphaltic concrete overlay from where concrete road ends on McQuerry to Seymour Road.
- 7) Prior to operating the asphalt plant, the applicant will provide the City with a 2-year maintenance bond written by a bonding company in the amount of \$100,000 for McQuerry Road.

CAPITAL IMPROVEMENTS OVERVIEW

A Capital Improvement Plan (CIP) is a major financial, public infrastructure and capital purchase planning tool for municipalities. The CIP is a statement of the City's policies and financial abilities to manage the physical development of the community and plan capital purchases. The development of a five (5) year CIP provides information for planned improvements and major capital purchases with anticipated funding and identifying potential funding sources. Through the presentation of the identified projects and purchases combined with funding availability and alternatives, the CIP presents a systematic plan for providing the needed improvements within a prioritized framework.

The proposed Fiscal Year 2022 to 2026 CIP for the City of Grain Valley sets the general schedule for which public improvements and major purchases are to be undertaken given the current circumstances. The CIP is not a static document, but rather, a fluid document that can be changed as the City's infrastructure and requirements change, development occurs, and funding opportunities become available or change.

The CIP includes projects that are fully, partially or not yet funded. Some projects that relate to capital improvements may come out of the same budget sources but are not included in the CIP. The five-year plan represents projects and major purchases that are proposed for funding at this time based on the current revenue projections but may change as priorities and available funding are updated.

As new projects are identified and new revenues become available, projects are added to the annual prioritized funding schedule. Additionally, the City prepares an estimated operating and maintenance cost of the proposed improvements to be funded.

One major change in the CIP this year is the addition of major purchases such a vehicle and equipment replacement or additions. The change to the CIP helps the City provide a

greater focus on maintenance related projects and critical equipment in addition to infrastructure improvements.

There are several benefits that can be derived from developing and adopting a CIP. It can provide valuable information to citizens, developers, and businesses that are interested in the development of the community. The CIP provides a long-range financial planning and management tool for the Mayor, Board of Aldermen and City Staff. It will also help with the coordination of projects and timely planning for future developments. The CIP reflects the community's assets, needs and goals.

CAPITAL IMPROVEMENT PROCESS

DEFINITION

A capital improvement is a necessary or desirable project or major purchase that supports or improves and enhances the City's ability to provide safe and desirable services for the benefit of our community and the future of the City of Grain Valley. These projects directly affect the City's citizens as far as safety, travel and ability to conduct business within our community. In addition to the projects normally included in the Capital Improvement Plan, major purchases of critical need have been included. These major purchases include the major equipment, vehicles, computers and other major purchases.

IDENTIFICATION

The need for capital improvements and major purchases may be identified by an appropriate master plan, vehicle and equipment replacement program, and by changes within a growing community or by regulatory legislation. Smart capital improvement identification provides the ability to change the appearance and make the community more desirable to existing and potential residents, businesses and industries. Projects and purchases are prioritized based on many factors including their critical necessity, effect on property values, city growth, and the overall health, safety and welfare of the citizens.

CREATION

When a capital improvement has been identified, the Community Development Director, City Engineer or other Department Head defines the scope and prepares a preliminary cost estimate for design, acquisition of property, if applicable, construction and or acquisition or replacement of equipment. These cost estimates are general in nature.

CAPITAL IMPROVEMENT PROGRAM FUNDING

Where Does the Money Come From?

All funding sources that may be used for various capital improvements are reviewed each year. Most of the work to develop the CIP focuses on the balancing of available resources with the identified budget needs. Consideration must be given to legal limitations of debt capacity, as well as the impact of debt issuance on tax rates, and user charges. Financial analysis utilize staff projections of future bond sales, interest rates, population growth, increases in assessed valuation, user fees, potential grant opportunities and other variables. The following is a list of existing funding sources and definitions for each:

General Fund

The General Fund is the general operating fund of the City. It is used to account for all financial resources (assets, liabilities, revenues and expenditures) except those required to be accounted for in another fund. These include the general governmental service such as general administration, municipal court, planning, public safety, and public works/engineering. It can be and is used to provide funds for programs and projects where shortfalls exist.

Transportation Fund

The Transportation Fund (Street Fund) is used for the Annual Paving Program, Ice and Snow Removal, and Street Maintenance. The main sources of revenue for this fund include a ½ cent transportation sales tax, motor vehicle sales tax, and a fuel tax.

Water/Sewer Fund

The Water/Sewer Fund covers all expenses related to providing water and sewer to the residents and businesses in Grain Valley. The main sources of revenue for the Water/Sewer Fund come from:

- Rates and User Fees
- Tap Fees
- Impact Fees

Capital Improvements Fund

The Capital Improvements Fund is funded solely by a ½ cent capital improvements sales tax. The revenues fund capital improvement items not provided in the General Fund.

G.O. Bond Fund

The City is authorized to issue General Obligation Bonds payable from ad valorem taxes to finance capital improvement and equipment upon a two-thirds majority vote, and on general election dates, a four-sevenths majority vote, of the qualified voters. The Missouri Constitution permits the City to incur general obligation indebtedness for general purposes not to exceed 10 percent of the assessed valuation of taxable tangible property. The City is also permitted to incur general obligation indebtedness not to exceed an additional 10 percent for acquiring rights of way; to construct and improve streets, sanitary sewers, and storm sewers; and to purchase or construct waterworks plants.

ALTERNATIVE FUNDING SOURCES

Tax Increment Financing (TIF)

Tax Increment Financing provides for the capture of up to fifty percent of the incremental increase in Economic Activity Taxes (sales tax, franchise taxes, utility taxes) and up to one hundred percent of the incremental increase in property taxes on real property in a designated redevelopment project area, for a period of up to twenty-three years, in order to fund improvements.

Transportation Development Districts (TDD)

Transportation Development Districts are geographic areas that may be designated to levy an additional sales or property tax assessment to pay for transportation related infrastructure improvements.

Special Grants from Federal or State Programs

Grants may be received from the federal, state, and county governments. Grants are available for storm water, roads, sewers, trails, parks and public safety equipment.

Federal Community Development Block Grant (CDBG)

The Community Development Block Grant Program (CDBG) offers grants to Missouri Communities to improve local facilities, address health and safety concerns, and develop a greater capacity for growth. Funds are available for Water, Waste Water, Storm Water, and Transportation.

Neighborhood Improvement District/Community Improvement District (NID/CID)

A Neighborhood Improvement District (NID) or Community Improvement District (CID) may be created in an area desiring certain public-use improvements that are paid for by special tax assessments to property owners in the area in which the improvements are made. Projects that can be financed through a NID/CID must be for facilities used by the public, and must confer a benefit on property within the NID/CID.

Transportation Excise Tax

Excise Tax is to be paid for a development that generates new traffic in the City in the form of a license tax on building contractors for the purpose of raising revenue, the proceeds of which shall be used for streets and related improvements throughout the City.

PROJECTED 5-YEAR FUNDING SCHEDULE

	Prior	2022	2023	2024	2025	2026	Beyond	Total

CAPITAL IMPROVEMENT FUNDING

Where Does the Money Go?

The 2022-2026 CIP reflects the City's anticipated projects and major purchases. Funding and budgeting for this program assumes an increase in assessed valuation in each of the five years. Certain projects also anticipate the possibility of grants. The program must be continually monitored to determine if revenues and expenditures meet or exceed expectations. If revenues do not occur at expected levels, projects will be postponed or cut back.

Projected Funding Per Year

As Capital Improvement Projects are completed, operation and maintenance of these facilities must be absorbed in the operating budget, which provides ongoing services to citizens. These operating costs, which may include additional staff, are adjusted annually to accommodate growth and inflation in maintaining or improving service levels. It is the City of Grain Valley's philosophy that new projects should not be constructed if operating reviews are unavailable to cover the operating costs. These must be funded with recurring (ongoing) revenues. As a result, the availability of recurring revenues must be considered prior to scheduling the various projects in the program.

INTENTIONALLY
LEFT
BLANK

CAPITAL IMPROVEMENTS PLAN

PROJECT TITLE: PARK TRAIL MASTER PLAN

PR-5D

PROJECT TYPE: Park Improvements

DEPARTMENT: Parks and Recreation

DESCRIPTION:

This project includes an asphalt trail from the Cross Creek trail near the proposed parking area through the Mitigation area and the Grain Valley Campus site to Buckner-Tarsney Road. The project consists of approximately 3,790 feet of 10 foot wide asphalt trail and will require easements and creek crossings.

JUSTIFICATION:

This project recognizes the important role that bicycling and walking play in the City's total transportation system. As our local transportation needs continue to grow, walking and bicycling is a healthy, environmentally friendly mode of transportation.

Alternative transportation modes help address air quality issues, promote healthy living, provide access to parks, schools and businesses, and can be used to protect habitat along stream corridors.

CAPITAL IMPROVEMENTS PLAN

PROJECT TITLE: PARK TRAIL MASTER PLAN

PR-5E

PROJECT TYPE: Park Improvements

DEPARTMENT: Parks and Recreation

DESCRIPTION:

This project includes an asphalt trail from SW Eagles Parkway to Sni-A-Bar Boulevard running parallel to Blue Branch Creek. The project includes approximately 1,840 feet of 10 foot wide asphalt trail and a crossing of Eagles Parkway.

JUSTIFICATION:

This project recognizes the important role that bicycling and walking play in the City's total transportation system. As our local transportation needs continue to grow, walking and bicycling is a healthy, environmentally friendly mode of transportation.

Alternative transportation modes help address air quality issues, promote healthy living, provide access to parks, schools and businesses, and can be used to protect habitat along stream corridors.

PROJECT TITLE: PARK TRAIL MASTER PLAN

PR-7A

PROJECT TYPE: Park Improvements

DEPARTMENT: Parks and Recreation

DESCRIPTION:

This project includes the installation of a crosswalk over the South Middle School entrance in addition to sidewalk on the south side of Ryan Road to provide a pedestrian connection from the existing sidewalk at the drive to the South Middle School and Stony Point Elementary school campus to the Cross Creek entrance to Ryan Meadows. The project consists of approximately 540 feet of trail and a creek crossing.

JUSTIFICATION:

This project recognizes the important role that bicycling and walking play in the City's total transportation system. As our local transportation needs continue to grow, walking and bicycling is a healthy, environmentally friendly mode of transportation. Alternative transportation modes help address air quality issues, promote healthy living, provides access to parks, schools and businesses, and can be used to protect habitat along stream corridors.

CAPITAL IMPROVEMENTS PLAN

PROJECT TITLE: Monkey Mountain Park, Parking Lot Extension PR-11

PROJECT TYPE: Park Improvements

DEPARTMENT: Parks and Recreation

DESCRIPTION:

This project includes an additional asphalt parking area attached to the existing asphalt parking lot at Monkey Mountain Park.

JUSTIFICATION:

When all four baseball fields are in use, the existing asphalt parking lot exceeds maximum occupancy. Currently we have an additional parking area adjacent/attached to the existing parking lot that is loose-fill (gravel & millings). This project would provide for an asphalt surface over the existing loose-fill material.

Projected Five-Year Cost Schedule

Breakdown	Prior	2022	2023	2024	2025	2026	Beyond	Total

CAPITAL IMPROVEMENTS PLAN

PROJECT TITLE: Armstrong Park, Replacement of Playground Equipment PR-12

Equipment

PROJECT TYPE: Park Improvements

DEPARTMENT: Parks and Recreation

DESCRIPTION:

This project includes the replacement of the 2-5 year-old and 5-12 year-old playgrounds in addition to the swings. The existing equipment is reaching its useful life. The current equipment also lacks ADA accessibility. This also includes the existing playground surfacing. The new play structure(s) will be all-inclusive and have play components and surfacing that maximizes accessibility for those individuals with disabilities.

JUSTIFICATION:

The existing play equipment is reaching its useful life. The 5-12 year-old playground was installed in the late '90's and the 2-5 year-old playground was installed in 2003. The existing play equipment and surfacing material does not provide the best accessibility for individuals with disabilities. With the growth of this community over the last 2 decades, our current play structures are grossly undersized for the park and the community.

CAPITAL IMPROVEMENTS PLAN

PROJECT TITLE: Armstrong Park, Trail Loop Resurfacing

PR-13

PROJECT TYPE: Park Improvements

DEPARTMENT: Parks and Recreation

DESCRIPTION:

Resurfacing of the asphalt trail loop. The 4-foot wide concrete sidewalk and the main entrance will be replaced with asphalt. The asphalt trail will be 8-foot wide and approximately 1,550 feet in length.

JUSTIFICATION:

The existing trail loop is cracking/crumbling in numerous places. There are portions where the trail has sunk. Several sections remain under water after a rain event. Replacement will also include new access points to the new playground structure that is also scheduled for 2022.

CAPITAL IMPROVEMENTS PLAN

PROJECT TITLE: **DOWNTOWN PHASE II B STREET IMPROVEMENTS** PW-3

PROJECT TYPE: **Street Improvements**

DEPARTMENT: **Community Development**

DESCRIPTION:
 This project includes the downtown road reconstruction of Front Street. The road improvements will include curb and gutter improvements as well as waterline improvements, pedestrian walkways, and pavement reconstruction. Status: This set of project plans is currently completed and included in the Downtown Improvements Plan (Engineers Report).

JUSTIFICATION:
 To increase safety for commuters and connectivity for pedestrians. Also, the improvements will help alleviate storm water problems in this area and provide much needed water line rehabilitation.

PROJECT TITLE: Buckner Tarsney Water Line Extension PW-23

PROJECT TYPE: Water Improvements

DEPARTMENT: Community Development

DESCRIPTION:
 This project involves approximately 2,440 L.F. of new 10 inch water line and a pressure reducing valve (PRV).

JUSTIFICATION:
 This project will provide a critical loop south of the City to provide better fire protection, constant pressures and capacity for future development south along Buckner Tarsney including the proposed Grain Valley Community Campus.

CAPITAL IMPROVEMENTS PLAN

PROJECT TITLE: Water Tower Upgrade

PW-24

PROJECT TYPE: Water Improvements

DEPARTMENT: Community Development

DESCRIPTION:
 This project involves the addition of a new 1.25 Million Gallon Elevated Storage Tank next to the existing 0.5 Million Gallon storage tank including the foundation, valve vaults, controls, and yard piping.

JUSTIFICATION:
 The current tank and pumping facility capacity and fire flow storage are adequate. However with the expected population growth rate along with potential for industrial development north of I-70, fire flows and fire storage will fall below the MoDNR required peak demand over the next 5 years. This storage tank and pumping facility is expected to cover demand over the next 20 years.

PROJECT TITLE: 2022 Pavement Maintenance Program **PW-27**

PROJECT TYPE: Street Improvements

DEPARTMENT: Community Development

DESCRIPTION:
 This project involves approximately 15,750 L.F. of edge mill and asphalt overlay of the road surface. The project covers Duncan Road, SW Creekridge, Woodland Drive, SW Ridgeview Drive, SW Country Hill Drive, Lee Ann Drive, SW Highland Ave., Nicholas Drive, Nolan Drive and Squire Court. The cost shown is for roadway repairs. The project also includes replacing ADA ramps as needed to bring them up to current standards and provide striping for Duncan Road.

JUSTIFICATION:
 This project will remove and replace the failing asphalt surface, and patches created by age and weathering. This will provide an improved ride and increase the longevity of the roadway base and surface.

PROJECT TITLE: 2023 Street Maintenance Program PW-28

PROJECT TYPE: Street Improvements

DEPARTMENT: Community Development

DESCRIPTION:

This project involves approximately 14,900 L.F. of edge mill and asphalt overlay of the road surface. The project covers Ryan Road, August Lane, Tisha Lane, Gateway Court and Sni-A-Bar Blvd. from Cross Creek to Gateway Court. The cost shown is for roadway repairs, ADA ramp upgrades and striping for Sni-A-Bar Blvd. and Ryan Road.

JUSTIFICATION:

This project will remove and replace the failing asphalt surface, and potholes, redo ADA ramps that don't meet current standards and provide striping to the Collector Streets, Ryan Road and Sni-A-Bar Blvd. This will provide an improved ride and increase the longevity of the roadway base and surface.

CAPITAL IMPROVEMENTS PLAN

PROJECT TITLE: 2024 Street Maintenance Program **PW-30**

PROJECT TYPE: Street Improvements

DEPARTMENT: Community Development

DESCRIPTION:

This project involves approximately 11,420 L.F. of edge mill and asphalt overlay of the road surface. The project covers Blue Branch Drive, Blue Branch Court, Blue Branch Circle, Stonybrooke Drive, Sni-A-Bar Blvd, Sni-A-Bar Pkwy, Stone Brook Drive, Pebblebrook Drive, and Rock Creek Drive. In addition this project includes concrete pavement replacement on Broadway Street east of Cypress Street. The cost shown is for roadway repairs and ADA ramp upgrades.

JUSTIFICATION:

This project will remove and replace the failing asphalt surface, concrete pavement, ADA ramps that don't meet current standards, striping for Collector streets and curb repair. This will provide an improved ride and increase the longevity to the roadway base and surface.

PROJECT TITLE: 2025 Pavement Maintenance Program

PW-31

PROJECT TYPE: Street Improvements

DEPARTMENT: Community Development

DESCRIPTION:

This project involves approximately 13,850 L.F. of edge mill and asphalt overlay of the road surface. The project covers NW Long Drive, Silverstone Court, Silverstone Circle, Magnolia Circle, Azalea Circle, Dillingham Road from Crestwood to Pink Hill Road, Tyler Road north of Jefferson Road, Foothill Drive, Woodbury Lane, Woodbury Place, Phelps Court, Phelps Drive, Rosewood Drive from Birch Court to Sycamore Drive, Rust Road north of Duncan, Rust Court and Royer Lane. The cost shown is for roadway repairs and ADA ramp upgrades.

JUSTIFICATION:

This project will remove and replace the failing asphalt surface, ADA ramps that don't meet current standards, striping for Collector streets and curb repair. This will provide an improved ride and increase the longevity to the roadway base and surface.

Projected Five-Year Cost Schedule

PROJECT TITLE: 2026 Pavement Maintenance Program

PW-33

PROJECT TYPE: Street Improvements

DEPARTMENT: Community Development

DESCRIPTION:

This project involves approximately 15,050 L.F. of edge mill and asphalt overlay of the road surface. The project covers Dillingham Road north of Pink Hill Road to Argo Road, Addie Lane, Rock Creek Lane, Cross Creek Lane, Sawgrass Drive at Barr Road, Meadow Court, Nelson Drive, Oakwood Lane, and Whitestone Drive. The cost shown is for roadway repairs and ADA ramp upgrades.

JUSTIFICATION:

This project will remove and replace the failing asphalt surface, ADA ramps that don't meet current standards, striping for Collector streets and curb repair. This will provide an improved ride and increase the longevity to the roadway base and surface.

CAPITAL IMPROVEMENTS PLAN

PROJECT TITLE: SW Eagles Parkway Phase A PW-34

PROJECT TYPE: Street Improvements

DEPARTMENT: Community Development

DESCRIPTION:

This project is the reconstruction and addition of turn lanes, curb & gutter, under ground drainage, a bike path and sidewalks from Main Street to the schools west of Kirby Road. Status: Additional curb and gutter and sidewalk have recently been installed by a developer. Initial grant application was not approved. Next round of grant applications will be available for application in 2022.

JUSTIFICATION:

Currently, the road has discontinuous curb & gutter and sidewalk on the south side only. Grain Valley High and an Elementary School are located adjacent to the road; with the growth in the school district and planned high school expansion, turn lanes are warranted and additional sidewalks needed. Plans also include converting the south side sidewalk to a bike path.

CAPITAL IMPROVEMENTS PLAN

PROJECT TITLE: Vehicle Replacement Program VR-CD

PROJECT TYPE: Fleet Replacement

DEPARTMENT: Community Development

DESCRIPTION:
 According to the Vehicle and Equipment Replacement Program (VERP), the following vehicles are planned to be replaced during this CIP cycle: 1) In 2023, replace 2012 Chevrolet Colorado (ID # 10480); 2) In 2025, replace 2012 Ford Escape (ID# 47184).

2012 Chevrolet Colorado

JUSTIFICATION:
 The City has developed a tailored vehicle and equipment replacement and lifecycle management strategy that includes type of vehicles and equipment, amount and type of usage and vehicle/equipment applications to determine the optimal point for replacement. The VERP draws from Operations and Maintenance experience and records to determine replacement targets by miles, hours or age.

Projected Five-Year Cost Schedule

PROJECT TITLE: Vehicle/Equipment Replacement Program VR-PD

PROJECT TYPE: Fleet Replacement

DEPARTMENT: Police

DESCRIPTION:

According to the Vehicle and Equipment Replacement Program (VERP), the following vehicles/equipment are planned to be replaced during this CIP cycle. In 2022, replace ID 4769 and ID 6105, both Ford PI Utility vehicles. In 2023, replace ID 1005 and ID 1006, both Ford PI Utility Vehicles. In 2024, replace ID 0358, Ford PI Sedan and ID 9989, Chevrolet Tahoe Police Pursuit Vehicle. In 2025, replace ID 2359 and ID 4768, both Ford PI Utility Vehicles.

2014 Ford Police Utility

JUSTIFICATION:

The City has developed a tailored vehicle and equipment replacement and lifecycle management strategy that includes type of vehicles and equipment, amount and type of usage and vehicle/equipment applications to determine the optimal point for replacement. The VERP draws from Operations and Maintenance experience and records to determine replacement targets by miles, hours or age.

CAPITAL IMPROVEMENTS PLAN

PROJECT TITLE: Police Duty Firearm Replacement **PD-1**

PROJECT TYPE:

DEPARTMENT: Police

DESCRIPTION:
 This project is being undertaken to replace the department's current Glock Model 22/23 .40 caliber Gen 4 handguns with Glock Model 17/19 9mm Gen 5 handguns. These firearms are issued to all sworn members of the Police Department. In total thirty(30) Glock handguns would be purchase through this project.

JUSTIFICATION:
 The department's current issued firearms will have been in service fo releven years in 2022, in addition changing to the 9mm from .40 caliber is more cost effective as 9mm is a more readily avialable ammunition and is more reasonably priced than the .40 caliber. Also this change will move us to the latest generation of Glock pistols with enhanced features and which will be supported by the company for parts and repairs further into the future than our current models

Projected Five-Year Cost Schedule

Breakdown	Prior	2022	2023	2024	2025	2026	Beyond	Total
Glock 17/19 Gen 5		\$3,400	\$3,400	\$3,400	\$3,400	\$3,400		\$17,000
Total	\$0	\$3,400	\$3,400	\$3,400	\$3,400	\$3,400	\$0	\$17,000

CAPITAL IMPROVEMENTS PLAN

PROJECT TITLE: Police Radio Replacement

PD-2

PROJECT TYPE:

DEPARTMENT: Police

DESCRIPTION:

This project is being undertaken to replace the department's current Motorola APX 6000 Li portable radios and XTL 1500 mobile radios with the more capable APX 6000 portable radios and APX 6500 mobile radios. Portable radios are issued to all officers, supervisors, and command staff for communicating with each other, other agencies, and dispatch. Mobile radios are installed in each police vehicle, at the front desk and in the Sergeants office.

JUSTIFICATION:

In 2013 our current radios were purchased in order to have radios that would operate on the Jackson County Sheriff's Department's new 800 mhz system. The radios that were purchased (based on recommendations and system requirements at the time) were only capable of one type of encryption (ADP). Since the system has been operational the level of encryption required to communicate with all users has changed requiring a higher level of encryption (DES) to communicate with Jackson County Deputies and will continue to change as the requirements for interoperable communications include an even higher level of encryption (AES). The new radios will be equipped with both (AES/DES) and will meet the upcoming requirements for operating on the radio systems. This project will allow us to purchase thirty (30) portable radios and twenty (20) mobile radios.

Projected Five-Year Cost Schedule
